Chicago & Atchison Bridge.—See this SUPPLEMENT, p. 153.
Chicago Economic Fuel Gas.—See this SUPPLEMENT, p. 153.

Chicago Gas.—ORGANIZATION.—The Chicago Gas Co. no longer exists, but the trust receipts of the Fidelity Insurance Trust & Safe Deposit Company of Philadelphia certify that the holder is entitled to his ratable proportion of the ownership in all the stocks of the several Chicago gas companies held by the Fidelity Company (subject to the lien of the bonds), and has the right to receive the dividends thereon and to vote the same as he may choose.

COMMITTEE.—A reorganization to conform to the Illinois laws regarding trusts is under consideration. It is proposed to consolidate the proprietary companies and to issue regular stock certificates in place of the Trust Company's receipts—see V. 61, p. 1012; V. 62, p. 84. To Apr. 20, 1897, reorganization certificates for Fidelity Ins. Tr. & S. D. Co. receipts to the amount of \$24,793,500 had been listed on N. Y. Stock Exchange.—V. 61, p. 703. The committee consists of Frederic P. Olcott, Chairman; Roswell P. Flower, Anthony N. Brady, Walter Ferguson, C. K. G. Billings and Wm. J. Campbell; Secretary, J. N. Wallace, 54 Wall Street, New York; depository, Central Trust Co. See V. 61, p. 616. In January, 1897, litigation was pending as to the proposed consolidation. The new corporation will be known as the People's Consolidated Gaslight & Coke Co. absorbing the Chicago Gaslight & Coke, Consumers' Gas, Equitable Gaslight & Fuel and the People's Gaslight & Coke Co.—V. 62, p. 185, 319, 588; V. 63, p. 559.

SECURITIES OWNED.—The Fidelity Co. holds \$14,887,625 of the \$14,984,200 stock of the companies whose bonds are given in the table above, this stock having been trusted for the benefit of the shareholders of the Chicago Gas Trust Company, and for the security of the holders of the mortgage bonds that were then, or might there after, be issued by any of said companies. Through the interest in said companies there are also controlled all but \$15,800 of the \$1,650,000 stock of four smaller companies, three of which have outstanding the following bonds: Lake Gas Company, \$300,000 1st mortgage 6s; Hyde Park Gas Co., \$200,000 1st mortgage 6s; and Illinois Light Heat & Power Co., \$500,000 1st 7s guaranteed by the Peoples' Co.

DEALINGS WITH CITY.—In June, 1891, a settlement was reached by the several companies on the basis of the city getting 3 1/2 per cent of the gross receipts, or at least \$150,000 per annum, and paying \$1 per 1,000

ANNUAL REPORT.—Report for 1896 was in V. 64, p. 371. Coal produced from company's property was, in 1896, 1,549,097 tons; in 1895 1,521,695 tons, against 1,386,482 tons of coal in 1894.

Table with columns: Year ending Dec. 31, 1896, 1895, 1894. Rows include: From railroads and Nesque. Tunnel, Canals, Net profit on Lehigh Coal, Royalty on coal mined, Total receipts, Interest, rentals, taxes, &c., Surplus, Dividends, Balance, Sinking fund, Depreciation.

Lehigh & Wilkesbarre Coal.—Controlled by Central RR. of New Jersey and owned under lease. It operates thirteen collieries and leases additional acre of its coal lands to various individual operators.

STOCK.—\$10,000,000, of which \$9,212,500 outstanding, \$6,600,000 of this being owned Central RR. of N. J. In 1896 mined 2,401,451 tons.

BONDS, ETC.—Of the consolidated mortgage seven per cent bonds only \$54,000 are guaranteed by the Central RR. of N. J., the holders of the other bonds having freed that company from liability therefor, on condition that it shall not collect interest on the \$6,116,000 consols which it holds prior to their maturity unless such interest is earned, this agreement being stamped on the bonds. The authorized issue of consols is \$15,000,000, but those unissued are in reality unavailable, since by the terms of the agreement just mentioned they would not if issued be entitled to stand ahead of the consols owned by the Central of N. J. A sinking fund for bonds due 1892 is provided from sales of surface lands and from 10 cents for each ton of coal mined on property included in the first lien; no drawings. Sterling bonds for \$178,000 are to be called in 1897 and the balance, \$189,000, in 1898. Real estate mortgage 6s, March, 1897, \$10,000.

GENERAL FINANCES.—The Central of N. J. Jan. 1, 1897, owned \$2,353,000 of the incomes and \$5,472,552 consol. mort. coupons past due but not collectible, as above stated, till June, 1900. Bills payable outstanding were \$3,400,224; "other indebtedness", \$3,236,990.—See V. 64, p. 466.

ANNUAL REPORT.—Fiscal year ends Dec. 31. Report for 1896 was given in V. 64, p. 466, and comparison is made with 1893, the last previous report, viz.:

Table with columns: Gross, Net, Interest, Sinking Fund, Balance. Rows for 1896 and 1893.

Interest charges in 1896 do not include interest on consols held by Central of N. J. RR., on which no interest has been paid since 1893.

ANNUAL REPORT.—Fiscal year ends November 30. The report of Thomas L. Greene on the financial and business affairs of the company, presented in March, 1896, was given in V. 62, p. 1054 and should be consulted. It states: "The net earnings for 1895, after deducting operating expenses and taxes, were \$390,000, to which should be added for proportion of cost of opening new shafts at mines, that should be distributed over five years, \$50,000, making the total income from operation \$440,000. From these earnings there should be deducted the sum of \$150,000 for depreciation and improvement of steamships. The total fixed charges on bonds issued is \$685,870. Company's report for year ending Nov. 30, 1896, was given in V. 64, p. 284, 605. Improvement requirements for 1897 are estimated by the receiver at \$2,170,000 (Mr. Greene in 1897 estimated the immediate cash requirements at \$1,500,000)—see V. 64, p. 605.

STOCK.—First preferred 7 p. c. cumulative authorized \$2,100,000, on which 60 p. c. will be called at first, being \$1,260,000. Second preferred \$1,575,000. Common (all owned by American Spirits Manufacturing Co.), \$3,675,000. (V. 62, p. 318.)

DIVIDENDS.—On 1st preferred: In 1896, June, \$1.12 per share; Sept., \$1.75 per share; Dec., \$1.75 per share.

Standard Gas Light.—Organized in 1886. Owns 160 miles of gas pipes on east side of New York, north of 13th St. Common stock authorized is \$5,000,000. In Nov., 1896, \$650,000 of common was sold, making total common outstanding \$4,400,000. V. 63, p. 839. Preferred stock authorized, \$5,000,000; issued, \$3,721,100. DIVIDENDS.—On April, 1 p. c. On preferred in 1891, 3 1/2 p. c.; in 1892, 1 1/2 p. c.; in 1893, 4 p. c.; in 1894, 4 p. c.; in 1895, 5 1/2 p. c.; in 1896, Jan., 1 1/2 p. c.; July, 3 p. c.; in 1897, Jan., 3 p. c. Russell Sage, Vice-President. (V. 60, p. 1148; V. 63, p. 839.)

Standard Oil.—This company controls petroleum oil refineries in all the principal Northern cities of the United States, and produces about 65 per cent of the country's total output of refined oil. Also controls oil wells in Pennsylvania, Ohio and West Virginia, and has pipe lines for transmitting its oil to tidewater. The trust certificates are issued against a deposit in trust of the stocks in the various refining, producing and transportation companies controlled by the Trust. Trust certificates (originally \$97,250,000) are being canceled and the Trustees are assigning to the beneficial owners the legal title to the stocks which were formerly held in trust. An "assignment" therefore represents a share in the legal ownership of the combined properties, whereas the old trust certificates represent a beneficial interest in the same. Both receive the same dividends and are quoted alike. Dividends are paid with profits from stocks of corporations held by the liquidating trustees. Dividends in 1896, March, 13 p. c.; June, 10 p. c.; Sept., 3 p. c.; Dec., 5 p. c.; in 1897, March, 10 p. c. (V. 62, p. 871.)

Standard Rope & Twine Co.—Incorporated Nov. 8, 1895, under laws of New Jersey, to take over the property of the United States, Cordage Company, reorganized per plan in V. 60, p. 1012. For statement of property covered by the mortgages see V. 63, p. 1064.

STOCK AND BONDS.—Capital stock is \$12,000,000 (par \$100). The first mortgage is for \$3,000,000 and the yearly sinking fund equals 1 per cent of the bonds outstanding; bonds can be drawn by lot at 105 p. c.; trustee is Manhattan Trust Co., New York. The consolidated (or second) mortgage bonds (\$7,500,000) are non-cumulative incomes entitled to interest before any dividend is paid; consols are entitled to one vote for each \$100 of bonds; trustee is Central Trust Co., New York. President, Vincent P. Travers; Vice Pres., Alfred R. Turner, Jr.; Secretary and Treasurer, John M. Forbes. Directors: Vincent P. Travers, William Barbour, W. R. Potts, Sumner R. Stone, John Keay, A. R. Turner, Jr.; John N. Forbes, John N. Kenney, Augustus Haviland. Said board of directors is divided into three classes, each class holding office for three years. (V. 63, p. 756, 924, 970, 1064.)

Standard Telephone Co.—V. 60, p. 607, 1060; V. 61, p. 472.)

Street Railway and Illuminating Properties.—ORGANIZATION.—Organized in 1893 to enable the General Electric to fund its floating debt, its stock being offered to the General Electric stockholders. On July 31, 1896, the trustees held securities (par value) for \$5,629,000. As the notes and other securities are liquidated, the proceeds are applied to cancellation of the principal of the preferred stock, drawn for payment at a premium. When the preferred stock has been canceled, the remaining assets will stand to the credit of the common stock. See V. 57, p. 217, 293, also terms of trust deed in General Electric item V. 57, p. 722. Aug. 7, 1896, \$715,000 preferred was outstanding. Trustee's statement for year ending July 31, 1896, in V. 63, p. 556. Preferred outstanding in Dec., 1896, \$582,300.

DIVIDENDS.—On pref., 1894, Feb., 3 p. c.; Aug., 3 p. c.; in 1895, 6 p. c.; in 1896, 6 p. c. (V. 61, p. 1011; V. 63, p. 556.)

Sugar Trust.—SEE AMERICAN SUGAR REFINING COMPANY.

Summit Branch RR. (Pa.)—This company's business is entirely in mining coal. It also has a small road of its own to Summit Mines, 3/4 of a mile, and operates the Lykens Valley Coal Co., owning all its securities. The combined properties cover 11,483 acres, of which 8,461 acres lie within the coal measure. Pennsylvania RR. owns \$2,190,200 of the \$4,010,350 stock (par \$50), and \$483,000 bonds. Default.—Interest due Jan. 1, 1896, was not paid. Foreclosure sale is advertised for July 13, 1897, at Philadelphia.

COMMITTEE.—Of bonds, E. B. Morris, W. D. Winsor and George Wood; this committee controls a majority of the bonds; depository, Girard Life Ins., Ann. & Tr., Philadelphia. V. 62, p. 1140. PLAN.—Plan given in V. 63, p. 1065 has been modified so that the new mortgage is now placed at \$1,400,000, instead of \$1,200,000, and holders of the old bonds will receive for the principal and interest of each \$1,000 bond \$1,000 in the new loan, leaving \$325,000 of the latter in the treasury. Three shares (\$150) of old stock to pay assessment of \$9 and receive \$50 in new stock. Practically all the bonds have assented to the plan. (V. 64, p. 755.)

REPORT.—Report for year ending Dec. 31, 1896, was given in V. 64, p. 421. (V. 63, p. 359, 1065; V. 64, p. 421, 708, 755.)

Tennessee Coal Iron & Railroad Company.—This company owns blast furnaces, coal mines, iron mines, foundries, &c., and coal and iron lands in Tennessee and Alabama. The total area of mineral lands and rights owned and controlled in 1893 was about 400,000 acres, of which 274,000 acres are in Alabama and 126,425 acres are in Tennessee. Of the latter 58,135 lie in Cocke and Green counties, in the eastern portion of the State on the borders of N. Carolina. Blast furnaces July, 1895, numbered 17, and daily output of coal 13,000 tons. Also owns 30 miles main line of railroad and 50 miles of terminals and side-track connections. Total capacity is about 15,000 tons of coal daily. In 11 months of 1895 produced 3,415,518 tons of coal. In 1896 production decreased only 2,832 tons from that of 1895.

On Dec. 19, 1892, the Cahaba Coal Mining Company was absorbed, its property consisting of some 44,000 acres of coal and iron lands situated in the counties of Bibb, Shelby and Jefferson, Alabama, with an output of about 800,000 tons of coal per annum. V. 55, p. 80, 463.

An amalgamation with the De Bardeleben Coal & Iron Company was consummated in September, 1892. Merely a formal existence is retained by the De Bardeleben Co. and the Cahaba Co. The building of a steel plant was under consideration in July, 1896. V. 63, p. 31.

STOCK.—Common stock authorized, \$20,000,000. The amount outstanding was increased by \$10,850,000 in 1892 to purchase the De Bardeleben, Cahaba and Excelsior companies. In September, 1896, issued \$150,000 new stock for increased working capital. V. 63, p. 561.

DIVIDENDS.—On common in 1887, 1 per cent, and none since. On preferred, from 1889 to 1893 inclusive, 8 p. c. per annum; none since.

BONDS.—The two issues, known as the *Birmingham Division* and the *Tennessee Division* bonds, are each a lien on their own property, as described in the mortgage, and a second lien on the property of the other division. The total authorized issue of the Birmingham Div. loan is \$5,000,000 [of which \$540,000 bonds have been created] and of the Tenn. Div., \$1,400,000, of which \$115,000 are in the sinking fund. The consolidated 6s due in 1901 are exchangeable at par for bonds of the Nashville Chattanooga & St. Louis Railway Company held by the Central Trust Company. The *De Bardeleben mortgage* is for \$3,000,000, of which \$96,000 canceled by sinking fund, \$400,000 in trust for Eureka bonds and \$55,000 in treasury. The De Bardeleben bonds were assumed by the Tenn. Coal & Iron, under terms of purchase. See V. 56, p. 604. De B. C. & I. first 6s listed on N. Y. Stock Exchange to April, 1897, for \$2,434,000.

FLOATING DEBT, ETC.—On Jan. 1, 1897, total floating debt was \$2,105,430 (against \$2,172,880 on Jan. 31, 1896), of which \$1,533,113 hills payable and \$522,317 due sundry creditors on open account. Total quick assets, \$2,205,712 (against \$2,155,474 in 1896), of which \$88,400 cash and hills receivable, \$76,500 treasury bonds, \$1,176,345 salable part of inventory and \$864,467 due on open accounts.

INDEX TO RAILROAD MORTGAGES.

Abstracts of leading railroad mortgages published from time to time in the CHRONICLE are indexed below:

Table listing mortgage titles, volumes, and pages. Includes entries like 'Atchison Topeka & Santa Fe Ry. gen. mort. 4s, due 1893;', 'Balt. Belt 1st mort. 5s, due 1900...', 'Chicago & Northern Pacific 1st mort. 5s, due April 1, 1940...', etc.

RAILROAD AND OTHER MAPS IN THE SUPPLEMENT.

The railroad maps in the SUPPLEMENT and maps of certain coal companies' properties may be referred to easily by the index below. These maps are prepared with much care in the CHRONICLE office, and are intended to show as clearly as possible the precise location of the various railroads represented and their strategic position in commanding business.

Table listing map titles and page numbers. Includes entries like 'Atchison Topoka & Santa Fe Railway System...', 'Baltimore & Ohio...', 'Chicago Burlington & Quincy...', 'Denver & Rio Grande...', etc.

INDEX TO IMPORTANT EDITORIAL ARTICLES.

Table listing editorial topics and page numbers. Includes entries like 'Baltimore & Ohio system bonds described.—SUPPLEMENT, April, 1896.', 'Chicago Burlington & Quincy bonds, etc., described.—SUPPLEMENT, Oct., 1896; CHRONICLE, V. 63, p. 775.', etc.

ACTIVITY IN MUNICIPAL BOND SALES.

The state of the municipal bond market presents a striking contrast with that at the time of the issue of our SUPPLEMENT last October and also with the state of the market at this date in other years. Considerable activity prevails, and the market appears to be in normal, healthy condition, where before it had for a long time been more or less unsettled, with many abnormal elements to contend against. Offerings of bonds are being made with great freedom, and they find ready takers, dealers manifesting considerable avidity in putting in bids. Indeed there seems to be a return of the spirit of rivalry and competition which existed among bond houses before our currency arrangements had begun to exercise such a deeply disturbing effect on affairs.

The improvement which has occurred is reflected in the large volume of sales reported. For the month of January the aggregate of the disposals, according to records kept by us, was \$10,405,776. For February the amount was \$12,676,477 and for March the sales so far as yet reported have been \$12,079,309. Thus for the three months the takings foot up over 35 million dollars—leaving out of the January total the \$1,000,000 of New York State canal bonds sold but not awarded, and out of the March total the \$2,000,000 borrowed by Boston on temporary loans in anticipation of the collection of taxes. In July, when Bryan was nominated, the sales were only \$5,313,495, in Aug-

ust only \$4,045,500, in September but \$3,693,457 and in October \$4,688,463. In other words, for the four months ending with October last the disposals were only \$17,740,915. In the three months of this year they have been \$35,161,562. Moreover, this latter is after sales of 45½ million dollars in November and December, the two months immediately following the election.

But the sales are large not only as compared with the abnormally low totals reached just preceding the election, but they make very favorable comparisons too with the first three months of other years. For instance, while for the quarter this year the sales are \$35,161,562, in the corresponding three months of 1896 the total was only \$15,095,405, in the three months of 1895 \$21,026,942 and in the three months of 1894 \$24,118,813. It deserves to be stated, however, that in each of these three preceding years there was an exceptional circumstance to disturb the course of the municipal bond market, namely a sale of bonds by the United States Government. In 1896 the 100-million issue of bonds was made by the Government, in 1895 the contract with the Morgan-Belmont Syndicate, disposing of \$62,300,000 of bonds, occurred; and in the first quarter of 1894 the first 50 millions of bonds in the recent series was floated. A Government bond sale always exercises a disturbing effect upon the municipal bond market. The bonds appeal to virtually the same class of buyers as municipal securities and, besides, in the present instances, there were special features connected with the sales decidedly unsettling in their effects.

We can make comparison with but two other years, namely 1893 and 1892, because our records do not extend further back than that. In the three months of 1893 there was no Government bond sale, though even then the possibility of a sale was contemplated in certain quarters. In those three months the sales were \$17,504,423, as against the \$35,161,562 for the three months of the present year. In 1892 conditions were normal, but even then the sales for the three months reached no more than \$22,264,431.

The magnitude of the 1897 totals may be judged by one other fact. The influences mentioned as affecting results in the earlier years did not, any of them, operate with equal force through the whole three months. It is significant therefore that the 1897 sales are greatly in excess of those for previous years, not only in the aggregate but for each month separately—

that is, the January total is larger than for any preceding year, so is the February total and so is the March total. And this indicates perhaps better than anything else the degree of freedom with which municipal operations have been carried on thus far in 1897.

Possibly it may be thought that the sales represent largely bond issues which accumulated last year during the silver agitation. But it must be supposed that these accumulations came in to swell the totals for last November rather than those for any of the more recent months. Certain it is that the sales in November were large beyond precedent, reaching only a trifle less than 35 million dollars, which is about three times the ordinary monthly average.

The aggregates of course include some large individual sales; but that is the best evidence of the changed situation and the improvement in the conditions which made such sales possible. In January Philadelphia sold \$4,400,000 of 3½ per cents, in February Massachusetts placed \$6,000,000 3½ per cents, the city of Baltimore \$1,453,300 of 3½ per cents and New York City close on to a million of school-house and fire department 3 per cents, while in March the disposals included \$3,654,000 3·65s by the city of Cincinnati, \$1,550,000 4s by the city of Providence and \$929,333 of 3 per cents by New York City. It will be interesting to have the aggregates of the sales for each of the five months since last October, and accordingly we present the following comparative exhibit.

Month—	1896-97.	1895-96.	1894-95.	1893-94.	1892-93.
	\$	\$	\$	\$	\$
November	34,913,894	6,524,901	4,549,580	7,300,770	5,176,012
December	10,664,287	8,598,804	13,486,374	17,306,564	3,297,249
January	10,405,776	6,534,858	10,332,101	7,072,267	5,438,577
February	12,676,477	4,341,520	5,779,486	11,966,122	5,071,600
March	12,079,309	4,219,027	4,915,355	5,080,424	6,994,246
Total	80,739,743	30,219,110	39,062,896	48,726,147	25,977,684

This reveals strikingly the change which has occurred. For the five months of 1896-7 (that is, the period since the election) the sales of State and municipal bonds have reached the very exceptional total of \$80,739,743. In the same five months of 1895-6 the sales were but \$30,219,110, in 1894-5 \$39,062,896, in 1893-4 \$48,726,147, in 1892-3 \$25,977,684.

Disappointment is frequently expressed because the revival in trade expected as the result of the triumph of the sound-money cause at the November election has as yet been realized to only a small extent; and from this the conclusion has been rather hastily drawn in certain quarters, by persons whose range of vision is limited, that there has been no progress or betterment at all in affairs. But in the record above we have direct and tangible evidence of very great progress. Previously, municipal improvements had in large measure to be deferred. Now they can again be carried forward in the usual way. The result must necessarily be beneficial, for in the prosecution of such improvements employment is given to thousands upon thousands of men. Who can measure the effects of the sale of 80 millions of bonds during the last five months, the most of them at a premium, thus swelling the amount of the proceeds? Allow that part of it goes to pay for expenditures already incurred in the making of improvements, allow that a certain other part goes to refund old issues of bonds, and a very large sum still remains representing moneys to be expended on improvements now under way or to be shortly begun. Will not the result of this expenditure of money in

legitimate undertakings be to quicken trade in many lines and thus speed the coming of that era of prosperity for which we are all longing?

REQUIRING DEPOSITS WITH BOND PROPOSALS.

In an article in the October number of our SUPPLEMENT, in treating of the defects in the methods of disposing of municipal bonds that had come to our notice, we pointed out that experience had suggested as a wise provision the requirement that bids should be accompanied by a certified check or deposit of some kind as a guaranty of good faith on the part of the bidder and to guard against worthless and irresponsible bids. At the time of the appearance of our article the requirement already existed in a good many instances, and since then the practice has grown, so that it can now be said to have become quite general. The importance of the matter justifies further reference to it.

The need for a money consideration to show that the intending purchaser is able to carry out his part of the contract was well illustrated last year at the bond sale of the United States Government. At that sale a number of persons without any financial standing whatever put in bids. It was again shown at the 16 million dollar sale of New York City bonds last November. Here, too, a number of bogus or irresponsible bids were sent in. The experience in this case led to the introduction of a bill in the Legislature, at the suggestion and recommendation of Comptroller Fitch, requiring a deposit from bidders at future bond sales. This bill has now become a law, and hereafter it will be incumbent on those making proposals to send a certified check, or its equivalent in money, along with their bids. We quote below the full text of the new law, putting the part relating to the deposit in italics.

CHAP. 103.

AN ACT to amend chapter four hundred and ten of the laws of eighteen hundred and eighty-two, entitled, "An act to consolidate into one act and to declare the special and local laws affecting public interests in the city of New York", in relation to the sale of bonds or stocks of the city of New York.

Accepted by the city.

Became a law March 23, 1897, with the approval of the Governor. Passed, three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. Section one hundred and forty-six of chapter four hundred and ten of the laws of eighteen hundred and eighty-two, entitled "An act to consolidate into one act and to declare the special and local laws affecting public interests in the city of New York", is hereby amended so as to read as follows:

§ 146. Whenever any bonds or stocks shall be hereafter issued, other than revenue bonds, or such bonds and stocks as may be purchased for investment by the commissioners of the sinking fund, the comptroller of said city shall invite proposals therefor by public advertisement for not less than ten days, and shall award the same to the highest bidder therefor; provided that no proposals for bonds or stocks shall be accepted for less than the par value of the same; and said proposals shall be only publicly opened by the comptroller in the presence of the commissioners of the sinking fund, or such of them as shall attend, at the time and place specified in the advertisement thereof. *Every bidder as a condition precedent to the reception or consideration of his proposal shall deposit with the comptroller a certified check, drawn to the order of said comptroller, upon one of the state or national banks of the said city, or of money; such check or money to accompany the proposal to an amount to be fixed by the comptroller not exceeding two and one half per centum of the amount of the proposal.* Within three days after the decision as to who is the highest bidder, the comptroller shall return all deposits made to the persons making the same, except the deposit made by the highest bidder, and if the said highest bidder shall refuse or neglect within five days after service of written notice of the award to him, to pay to the city chamberlain the amount of the stock or bonds awarded to him at their par value, together with the premium thereon, less the amount deposited by him, the amount of deposit made by him shall be forfeited to and retained by said city as liquidated damages for such neglect or refusal and shall thereafter be paid into the sinking fund of the city of New York for the reduction of the city debt. The comptroller, with the approval of said commissioners, shall determine what, if any, part of said proposals shall be accepted, and upon the payment into the city treasury of the amount due by the persons whose bids are accepted, respectively, certificates thereof shall be issued to them as authorized by law.

§ 2. This act shall take effect immediately.

But if a large municipality like New York feel obliged to seek means of protection of this kind, the need for such a step in the case of municipalities of less prominence is, of course, still greater. Indeed

is the smaller municipalities that are in position to be harmed most from the admission to the list of bidders of parties whose soundness and good faith are open to question. The putting up of a money forfeit is really to the advantage of both the bond dealers and the municipalities. The dealers cannot afford to bid against persons who, having nothing at stake, are not likely to be influenced in the making of bids by the considerations which govern the bond houses (and which considerations in the long run fix accurately the credit of the borrower), while the municipalities cannot run the risk of having the bonds thrown back on their hauds, with all that that means.

It has been urged that in the case of the very small places the requirement of a deposit may in some instances work to the detriment of such places in making it difficult for them to negotiate their loans. The argument is that bidders cannot feel sure that the officials of such places, after having received the money of the bidder to whom the award is made, will not retain it, in face of perfectly valid objections against the character or legality of the bonds—that is, objections which would justify the bidder in refusing to take the bonds. The bond dealer would then be at the mercy of the municipality, and he could only recover his money by a suit at law. We can see that considerations of this kind might in some instances influence a bond house to refuse to send in bids if a deposit was called for, where now proposals are made with great freedom. Whether such places, however, would in that event be worse off than under the present rule, where after bonds have been awarded the successful bidder may fail to take the bonds, either because of financial irresponsibility, or because he has changed his mind and refuses to fulfill his contract on some specious plea (as unfortunately has happened), may well be questioned. In any event, the point urged, it seems to us, constitutes no valid or sufficient argument against the deposit requirement.

Of course under such requirement existing methods in the case of the minor places would have to be modified. Bidders want to assure themselves of two things—the legality of the bonds and the financial standing of the municipality offering them for sale. At present a part of this inquiry is usually deferred until after bids have been made and accepted, with the result that differences of opinion keep constantly cropping up, giving rise to squabbles and many unpleasant features. Under the rule proposed the legal investigation and the other part of the inquiry would both have to be made in *advance* of the sending in of bids. And why would not that be the better plan? Very likely to enlist the interest of dealers the task of establishing the legality and desirability of the bonds would fall largely upon the municipality itself; but however attained, it seems to us it would be a distinct gain to have this work done before instead of after the awards. At present a sale is often defeated because of some trifling technicality or defect that might easily have been remedied before the award, had it been brought to the knowledge of the authorities. With all doubts cleared up beforehand, the municipality would be assured of a better price for the bonds, while the dealers on their part could afford to give the better figure and also to bid with greater confidence.

In view of the importance of the matter, an inquiry into the prevailing practice as to the requirement of a deposit will have considerable interest. Such an inquiry we have undertaken in the article which follows.

HOW LARGE SHOULD THE DEPOSIT ON BOND PROPOSALS BE?

In the preceding article we have remarked upon the necessity and desirability of the requirement of a deposit with bond proposals. In the present article we purpose making a study of recent bond offerings, with the view to seeing to what extent the practice prevails and what the terms and conditions of the requirements usually are. As a basis for our investigation, we take the loans with reference to which advertisements have appeared in the columns of our paper during the last three or four months. We have adopted this method because through the printed advertisements we get information that could not be obtained in any other way.

Whatever may have been the practice in the past, the deposit requirement now exists in the great majority of cases. Below is a list of thirty-seven places which have advertised bonds for sale in the *CHRONICLE*, and of these twenty-one have specifically called for a deposit. In the other sixteen cases there has been no mention of a deposit requirement, though of course it may have existed anyway, as the advertisements in several instances were short, and directed intending bidders to the officials of the municipality for further particulars. It is noticeable that in the case of the \$3,000,000 of State of New York 3 per cent Canal Improvement *tax exempt* bonds which are now being advertised for sale, a money forfeit is called for, while last January when proposals for the \$4,000,000 Canal bonds were invited there was no reference to such a condition. Again, while the City of Indianapolis asked for a deposit in the case of the \$350,000 Park Improvement bonds just sold, the deposit requirement apparently did not exist in the case of the \$180,000 temporary loan of the same municipality disposed of last January.

- NEW YORK STATE.**—\$3,000,000 3 per cent Canal Improvement bonds, principal and interest payable in gold. Proposals to be accompanied by a certified check for one per cent of the amount of the proposal. [When bids were invited last January for \$4,000,000 bonds there was no deposit requirement.]
- MASSACHUSETTS.**—\$8,000,000 3½ per cent Water Loan, principal and interest payable in gold. Bids to be accompanied by certified checks for two per cent of the amount bid for.
- BALTIMORE, MD.**—\$1,453,300 3½ per cent bonds for funding floating debt. No mention of a deposit requirement.
- CHICAGO, ILL.**—\$800,000 4½ per cent Sanitary District bonds. Proposals to be accompanied by certified check or cash for three per cent of the amount of the bid. Checks to be drawn "on some responsible bank".
- CINCINNATI, OHIO.**—\$3,654,000 3-65 per cent Consolidated Sinking Fund bonds, principal and interest payable in gold. Proposals to be accompanied by a certified check for one per cent of the amount of bonds bid for. Check to be made payable "without conditions" and to be drawn "upon an incorporated bank or trust company located in the City of Cincinnati, Boston or New York".
- INDIANAPOLIS, IND.**—\$350,000 4 per cent Park Improvement bonds. Bids to be accompanied by a certified check "upon some responsible bank of the City of Indianapolis" for 2½ per cent of the face value of bonds bid for.
- The \$180,000 temporary loan to Board of School Commissioners in January, 1897, had no deposit requirement.
- PROVIDENCE, RHODE ISLAND.**—\$1,550,000 4 per cent bonds, part Water Loan, part Sewer Loan, part Highway Loan, part School Loan, principal and interest payable in gold. Proposals to be accompanied by a certified check for two per cent of the amount of the bid.
- LOUISVILLE, KY.**—\$584,000 4 per cent refunding gold bonds. Proposals to be accompanied by a certified check for one per cent of the amount of bonds bid for.
- SPRINGFIELD, MASS.**—\$350,000 4 per cent High School bonds, principal and interest payable in gold. Proposals to be accompanied by a certified check for one per cent of the amount of the loan bid for.
- HARTFORD, CONN.**—\$800,000 3½ per cent Refunding Capitol bonds, principal and interest payable in gold. Proposals to be accompanied by a certified check for two per cent of amount bid.
- STAMFORD, CONN. (Town).**—\$75,000 4 per cent Funding bonds, principal and interest payable in gold. Proposals to be accompanied by a certified check for two per cent of the amount of the bid.
- MONTGOMERY, ALA.**—\$150,000 6 per cent Parking bonds. No mention of a deposit requirement.
- ARVERNE-BY-THE-SEA (Village), N. Y.**—\$45,000 5 per cent Highway Improvement bonds, &c., principal and interest payable in gold. Bonds to be sold at auction, and successful bidder to pay 10 per cent of the purchase price at time of sale but deposit of \$1,000 to suffice if bonds are sold in one lot.
- BERKLEY, VIRGINIA.**—\$25,000 5 per cent Improvement bonds. Certified check asked on some national bank for 5 per cent of amount bid for.
- TAHRYTOWN, NEW YORK.**—\$99,000 4 per cent School District bonds. No mention of a deposit requirement.

FLAGSTAFF, ARIZONA.—\$65,000 6 per cent Water-Works bonds, principal and interest payable in lawful money of the United States. A certified check for five per cent to accompany each bid.

CORAOPOLIS, PENN. (Borough).—\$22,000 4½ per cent Water bonds. Proposals to be accompanied by a certified check for \$250.

ATHENS, ALA.—\$15,000 water-works bonds, payable in lawful money. Interest to be not over 6 per cent. No mention of deposit requirement.

PROCTOR, Vt. (Village).—\$50,000 4 per cent Water and Sewer bonds. No mention of a deposit requirement.

HOLYOKE, MASS.—\$250,000 4 per cent Water bonds, principal and interest payable in gold. No mention of deposit requirement.

COLUMBUS, GA.—\$60,000 4½ per cent Redemption bonds. No bid considered unless accompanied by cash or a certified check on some bank in Columbus for one per cent of the amount of bid.

NEW BRUNSWICK, N. J.—\$78,760 Refunding bonds, interest to be fixed according to bids. Proposals to be accompanied by a certified check for 5 per cent of their amount.

BURRILLVILLE, R. I. (Town).—\$50,000 4 per cent Highway Improvement bonds, principal and interest payable in gold. No mention of deposit requirement.

MILLERS FALLS, MASS.—\$20,000 4 per cent Water bonds. No mention of deposit requirement.

ASBURY PARK, N. J. (Borough).—\$18,000 5 per cent Water bonds. No mention of deposit requirement.

WEST HOBOKEN, N. J. (Town).—\$30,000 5 per cent Redemption bonds. No deposit required.

BRADFORD COUNTY, PA.—\$150,000 4 per cent bonds, principal and interest payable in gold. Bids to be accompanied by "a certified check or New York draft" for five per cent of the bid.

ROCKVILLE, MD.—\$20,000 4 per cent Water-works bonds. No mention of deposit requirement.

OKOLONA, MISS.—\$30,000 6 per cent Water-works and Electric-Light bonds. No mention of deposit requirement.

As much interest attaches to the extent of the deposit and the conditions relating to the same as to the fact of a deposit itself. It will be observed that the amount called for varies from one to twenty-five per cent. This latter figure will no doubt be a surprise. It is found only in one case, namely the borough of Belmar, N. J., where a deposit "equal to the one-fourth part of the amount" of the bid was insisted on. The condition was evidently too onerous, for the bonds were not disposed of at the time, being subsequently sold however, we believe, through separate negotiations.

Nothing is to be gained by calling for an excessive deposit. Bond bidders are willing to comply with reasonable conditions, but where the money forfeit is made so large as to be onerous, the only effect can be to drive away intending buyers. All that is needed is a deposit large enough to indicate the financial responsibility of those tendering proposals and large enough to make it an object for them to fulfill their contract. Anything more than that is likely to be prejudicial to the municipality and interfere with the best results. Especially is this true of the smaller places, whose offerings attract a class of bidders of moderate means—persons perfectly reliable, but whose cash resources are

not such that they can put up a deposit of 25 per cent in advance of a sale.

However, the general disposition is to exact only a small percentage as an advance payment. In one case above (Arverne-by-the-Sea), it will be observed, the requirement called for 10 per cent, but in that instance the bonds were sold at auction, and \$1,000 was to suffice if they were disposed of in one lot, thus reducing the ratio to only a little over two per cent. Not many places ask for even a five per cent payment, there being only four for that amount in the list above, namely Berkeley, Va., Flagstaff, Ariz. T., New Brunswick, N. J., and Bradford County, Pa. Chicago fixes the amount at 3 per cent, Indianapolis at 2½ per cent, Providence, Fall River, Stamford, the State of Massachusetts and Hartford, Conn., at only two per cent, while New York State, Louisville, Cincinnati, Springfield, Mass., and Columbus, Ga., are content with but one per cent. The new law for this city leaves the amount at the discretion of the Comptroller, but the maximum cannot exceed 2½ per cent.

Other conditions and terms are also frequently attached. We found in our discussions last October that certified checks were sometimes handed in that did not at all meet the intended requirements. Hence Cincinnati in its offering provides that the check must be payable "without conditions" and must be drawn "upon an incorporated bank or trust company located in the city of Cincinnati, Boston or New York". We also found that considerable trouble frequently resulted from the obscurity of the bids. Cincinnati has undertaken to cover that point by declaring that "no bid will be considered that is not clearly expressed", &c. Some places, though soliciting proposals here in the East, require a check drawn upon the local bank; Indianapolis, for instance, "upon some responsible bank of the City of Indianapolis"; Columbus, Ga., on some bank in Columbus. Several places, like Chicago and Indianapolis, require a check simply upon "some responsible bank", others say "incorporated bank", while still others, like Fall River, call for a check on a national bank. The latter would seem to discriminate against worthy State banks and trust companies. Indianapolis, as an additional precaution, informs bidders that the "omission, neglect or refusal" of the successful bidder or bidders to take the bonds awarded to him or them "shall be a breach of the contract of his bid or proposal, on account of which damages shall be retained or recovered as liquidated and provided in the ordinance covering this issue".

Many of these terms and conditions are innovations, the outgrowth of experience. And in time we may expect that experience will allow municipalities to formulate a perfect rule governing the acceptance of proposals—avoiding provisions onerous to bidders and yet fully protecting the interests of the issuers.

United States Debt and Its History.

The following is a statement of the debt of the United States past and present. To add to its usefulness we give references to the laws authorizing each of the issues of bonds outstanding to-day, and likewise, so far as we deem it needful, citations from those laws.

All our figures, except when otherwise noted, represent the status at the close of business June 30 or the beginning of business on July 1 of each fiscal year. To conform to that feature and yet furnish information through which any reader can always obtain the data for a correct exhibit of the debt situation at any past or future day, and make an accurate comparison with previous years, we present, **FIRST**, the details as they stood at the close of the last fiscal year ending June 30 1896; **SECOND**, the changes in those details since June 30 1896 down to April 1 1897; **THIRD**, the items of interest-bearing debt, &c., at the beginning of each fiscal year since July 1 1876; **FOURTH**, we publish in the **CHRONICLE** the first or second Saturday of each month the full detailed Government statement of the debt as reported by the Treasurer on the last day of the previous month.

With these data at his command, it would seem as if any inquirer could satisfy himself fully with reference to every point which might become of importance for him to know respecting the United States debt.

Aggregate June 30 1896 of debt bearing no interest.		\$373,728,570 14

The foregoing shows that the Government debt on June 30 1896 was made up of (1) interest-bearing debt, \$47,363,890, of (2) debt on which interest has ceased, \$1,636,890 26, of (3) debt bearing no interest, \$373,728,570 14, making total gross debt, \$1,223,729,350 40; subtracting from the total the net cash balance in the Treasury (\$267,432,096 70) at the same date (June 30 1896) we have the net debt as it stood at the close of the last fiscal year, \$956,297,253 70. To bring down the interest-bearing debt to April 1 1897—which, as stated, was \$947,363,890 on June 30 1896—we need only add to the Funded Loan of 1907 \$2,750 and deduct from the Refunding Certificates \$1,600 (a net addition of \$1,060) to reach the total of the interest-bearing debt April 1 1897, which was \$947,364,950.

For *later and future details of the debt*, see the **CHRONICLE** as issued on the first or second Saturday of each month. We now add, *first*, references to and citations from the laws which are the authority for the debt as it stands to-day; *second*, the two tables on the next page, which exhibit all the particulars of the total debt of the United States on June 30 of each year from 1876 to 1896, both years inclusive; and *third*, the Pacific Railroad bonds, which are never included in the Treasury debt statements.

"FUNDED LOAN OF 1891" (column 1) 4½ per cents, continued at 2 per cent. The bonds of this issue still outstanding were issued in exchange for the 4½ per cent funded loan of 1891 by mutual agreement between the Secretary of the Treasury and the holders, and were made redeemable at the pleasure of the Government. Amount issued was \$25,364,500 and they are all outstanding to-day.

"FUNDED LOAN OF 1907" (column 2) 4 per cents. The act of July 14, 1870, authorized the issue of 1,000 million dollars of bonds at 4 per cent, payable in coin of the present standard value, at the pleasure of the United States after thirty years; these bonds to be exempt from all taxes or duties of the United States, as well as from taxation in any form by or under State, municipal or local authority. Bonds to be sold at not less than par in coin, and proceeds to be applied to the redemption of outstanding 5-20s, par for par. Outstanding (April 1 1897), \$559,639,600.

"REFUNDING CERTIFICATES" (column 3).—Act of February 26 1879 authorized the Secretary of the Treasury to issue in exchange or lawful money of the United States certificates of deposit of the denomination of ten dollars, bearing interest at the rate of 4 per cent, and convertible at any time, with accrued interest, into the 4 per cent bonds described in the Refunding act; the money so received to be applied only to the payment of the bonds bearing interest at a rate not less than 5 per cent. On March 12 1879 the issue of these certificates and their exchange into 4 per cent bonds were authorized: the certificates were to draw 4 per cent interest from April 1 1879 and were convertible in sums of \$50 or its multiples. The amount issued at the close of the fiscal year (June 30 1879) was \$39,308,110, but they had been converted so rapidly that there were outstanding at that date only \$12,948,210. On October 31 1879 the entire authorization had been reached, the maximum amount of the issue being \$40,012,750. Of these there were still outstanding on April 1 1897 a total of \$45,450.

"LOAN OF 1904."—(Column 4.) The act of January 14 1875 authorizes the Secretary of the Treasury to use any surplus revenues from time to time in the Treasury not otherwise appropriated, and to issue, sell, dispose of, at not less than par in coin, either of the descriptions of bonds of the United States described in the act of July 14 1870 for the purpose of redeeming on and after January 1 1879 in coin, at the office of the Assistant Treasurer of the United States at New York, the outstanding legal-tender notes when presented in sums of not less than fifty dollars. Under this authorization, and for the purpose mentioned, there were issued in February, 1894, payable in 10 years, \$50,000,000 of 5 per cents and in November 1894 there were issued \$50,000,000 more for similar bonds for the same purpose. There are now outstanding \$100,000,000.

"LOAN OF 1925."—(Column 5.) Sales of bonds included under this designation were effected (1) in February 1895 to the amount of \$2,315,400 and (2) in February 1896 to the amount of \$100,000,000. In a message to Congress under date of February 8, 1895 (published in the **CHRONICLE** February 9 1895, page 244), President Cleveland stated that "in pursuance of Section 3700 of the Revised Statutes the details of an arrangement have this day been concluded whereby bonds of the United States authorized under the act of July 14 1875, payable in coin thirty years after their date, with interest at the rate of 4 per cent per annum, to the amount of a little less than \$62,400,000, are to be issued for the purchase of gold coin amounting to a sum slightly in excess of \$65,000,000, to be delivered to the Treasury of the United States, which sum added to the gold now held in our reserve will so restore such reserve as to make it amount to something more than \$100,000,000. Such premium is to be allowed to the Government upon the bonds as to fix the rate of interest upon the amount of gold realized at 3½ per cent per annum. At least one-half of the gold to be obtained is to be supplied from abroad." Section 3700 of the Revised Statutes is as follows:

"Sec. 3700. The Secretary of the Treasury may purchase coin with any of the bonds or notes of the United States authorized by law at such rates and upon such terms as he may deem most advantageous to the public interest."

For a construction of the "Refunding Act of 1870" and of the "Resumption Act of 1875," see CHRONICLE, February 18 1893, page 265.

The issue in February 1896 was an ordinary offering, open to all bidders, of \$100,000,000 of the same bonds as the foregoing—same in date, same in time of maturity, same in rate of interest and time of interest payments. Consequently both issues are called the "Loan of 1925," of which there are outstanding \$162,315,400.

A year ago we gave a table showing the debt of the United States on the first day of July 1856, and every subsequent year. It is not necessary to repeat all those figures. We have determined on this occasion to begin our statement with 1876, as that year antedates all of the issues now outstanding, and yet carries the record sufficiently far back to show the nature and extent of the Government securities when the latest refunding operations began. It has the advantage, too, of giving separate and distinct each issue of bonds now outstanding. The statement is subjoined.

NOTE 1.—The annual interest charge is computed upon the amount of outstanding principal at the close of the fiscal year, and is exclusive of interest charge on Pacific Railway bonds.

NOTE 2.—The figures for July 1 1879 were made up assuming pending funding operations to have been completed.

NOTE 3.—The temporary loan per act of July 11 1862 is included in the 4 per cents from 1862 to 1868, inclusive, with the exception of the amount outstanding August 31 1865 this being the date at which the public debt reached its highest point. This loan bore interest from 4 per cent to 6 per cent and was redeemable on ten days' notice after thirty days; but being constantly changing, it has been considered more equitable to include the whole amount outstanding as bearing 4 per cent interest on an average for the year.

One other class of bonded debt must be referred to which has never been included in the total of Government debt and consequently does not enter into any of the foregoing figures—we mean the Pacific Railroad debt. To show the situation of those bonds we have to make a compilation of our own, as the Treasury form comes short of indicating the existing situation. Methods of book-keeping make the official record to most readers unintelligible since payments of the principal began; and hence on this occasion, in bringing together the facts we have given those relating to that part of the subject matter as well as those directly relating to the railroad liability. The following consequently presents the full status of these obligations as they stand to-day.

BONDS ISSUED TO PACIFIC RAILROADS AS OF APRIL 1 1897.

The Government reports that the total amount paid into the Sinking Fund by these companies has been \$24,854,109 95—of which \$10,771,859 95 was held by the Government in cash and \$14,082,250 invested in bonds. Out of this Sinking Fund the Government, as stated above, has already paid the principal of \$20,714,000 of the \$64,623,512 of bonds issued; consequently besides the interest) there still remains of the principal to be paid by the companies \$43,909,512.

DEBT LIMITATIONS.—Constitutional and statutory limitations restricting municipal indebtedness have become quite a feature since the crisis of 1873. In the States where these limitations are provisions of the Constitution of course debts contracted in excess of such limitation are absolutely void. In Maine the amendment to the Constitution took effect January 2, 1878, and is in the following form and words: "Article XXII. Limitation of Municipal Indebtedness. No city or town shall create any debt or liability which, singly or in the aggregate, with previous debts or liabilities, shall exceed five per centum of the last regular valuation of said city or town; provided, however, that the adoption of this article shall not be construed as applying to any fund received in trust by the said city or town, nor to any loan for the purpose of renewing existing loans, or for war, or to temporary loans to be paid out of money raised by taxation during the year in which they are made." The meaning of the foregoing is obvious and needs no comment.

SAVINGS BANKS' INVESTMENTS—POWERS AND RESTRICTIONS.—The provisions regulating the investments and loans of savings banks and institutions for savings in the State of Maine are contained in Public Laws 1895, Chapter 161, Public Laws 1893, Chapter 170, and Revised Statutes, Chapter 47, Sections 102 and 103.

All the provisions referred to above have been compiled by the Commissioner of Savings Banks, and we give their compilation below in full.

Maine Savings banks and institutions for savings are restricted to and hereafter may invest their deposits in a manner following, to wit:

Public Funds.—Aggregate of Investments Unlimited.—
 Public funds of the United States.
 Public funds of the District of Columbia.
 Public funds of any of the New England States.
 Bonds of the cities, counties and towns of any of the New England States.

Public funds of the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas and Nebraska.
 Bonds of counties of twenty thousand inhabitants or more in said last-named States, when issued for municipal purposes and which are a direct obligation on all the taxable property therein, except when issued in aid of railroads, provided the net municipal indebtedness of such county does not exceed five per cent of the last valuation of the property therein for the assessment of taxes.

For meaning of "net municipal indebtedness" of counties see memoranda "A."

Bonds of any city of ten thousand inhabitants or more in said last-named States, when issued for municipal purposes and which are a direct obligation on all the taxable property therein, except when issued in aid of railroads, provided the net municipal indebtedness of such cities does not exceed five per cent of the last preceding valuation of the property therein for the assessment of taxes.

For meaning of "net municipal indebtedness of cities" see memoranda "B."

Bonds of the above-described cities and counties issued to take up at maturity bonds that were legal and constitutional when issued, provided the interest has been fully paid on the original bonds for at least five years last prior to such refunding, provided the net municipal indebtedness of such cities and counties does not exceed five per cent of the last preceding valuation of the property therein for the assessment of taxes.

Bonds and obligations of School District Boards, Boards of Education and other corporate bodies within said cities authorized to issue bonds payable primarily from taxes levied on all the taxable property in such districts, provided the population of the district is ten thousand or more and the population and assessed valuation of the district are equal to at least ninety per cent of the population and assessed valuation of the city itself, provided the net municipal indebtedness of such district does not exceed five per cent of the last valuation of the property therein for the assessment of taxes.

For meaning of "net municipal indebtedness of districts" see memoranda "B."

Bonds of cities and districts in said States having a population of seventy-five thousand or more, when issued for municipal purposes and which are a direct obligation on all the taxable property therein.

Railroad Bonds.—Aggregate of Investments Unlimited.—
 Railroad bonds of Maine, but no bonds of street railroads excepting those already constructed in this State shall be purchased unless an

amount of capital stock equal to thirty-three and one-third per cent of the mortgage debt shall have been paid in, in cash, and expended upon the road, evidenced by a certificate of the Railroad Commissioners, filed in the office of the Secretary of State, that said percentage has been so paid in and expended, in addition to the amount of the bonded debt.

First mortgage bonds of any completed railroad in New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas and Nebraska; but no bonds of street railroads shall be purchased unless an amount of capital stock equal to thirty-three and one-third per cent of the mortgage debt shall have been paid in, in cash, and expended upon the road, evidenced by a certificate of the railroad commissioners of the State where the road is located, filed in the office of the Secretary of State of Maine, that said percentage has been so paid in and expended, in addition to the amount of the bonded debt.

First mortgage bonds of the Central Pacific, Union Pacific and Northern Pacific railroads.

Mortgage bonds of any railroad leased to any dividend-paying railroad in New England, upon terms guaranteeing the payment of a regular stated dividend upon the stock of such leased road and the interest on its bonds.

Water Bonds.—Aggregate of Investments Unlimited.—Mortgage bonds of any water company in this State and New Hampshire actually engaged in supplying to any city or cities, town or towns, village or villages, or other municipal corporations, water for domestic use and for the extinguishment of fires, whenever such company is earning more than its fixed charges, interest on its debts and its running expenses.

Corporation Bonds.—Aggregate of Investments Unlimited.—Bonds of any corporation (other than railroads and water companies) incorporated under authority of this State, which earns and is paying regular dividends of not less than five per cent a year.

Bank Stock.—Aggregate of Investments Unlimited.—Stock of any bank or banking association incorporated under authority of this State.

Holdings of the capital stock of any one bank limited. See memoranda "E."

Stock of any bank or banking association incorporated under authority of the United States, if located within the New England States.

Holdings of the capital stock of any one bank limited. See memoranda "E."

Railroad Stock.—Aggregate of Investments Unlimited.—Stock of any railroad in Maine unincumbered by mortgage.

Holdings of the capital stock of any one corporation limited. See memoranda "E."

Stock of any dividend-paying railroad in New England.

Holdings of the capital stock of any one corporation limited. See memoranda "E."

Stock of any railroad leased to any dividend-paying railroad in New England, upon terms guaranteeing the payment of a regular stated dividend upon the stock of such leased road and the interest on its bonds.

Holdings of the capital stock of any one corporation limited. See memoranda "E."

Corporation Stock.—Aggregate of Investments Unlimited.—Stocks of any corporation (other than railroads and water companies) incorporated under authority of this State, which earns and is paying regular dividends of not less than five per cent a year.

Holdings of the capital stock of any one corporation limited. See memoranda "E."

Real Estate Investment.—Not Exceeding Five Per Cent of Deposits.—Real Estate in the city or town in which such bank or institution is located.

Real Estate Foreclosure.—Holdings Acquired by Foreclosure, &c., Unlimited.—Real estate acquired by foreclosure of mortgage thereon or upon judgment for debts or in settlements to secure debts.

Loans on Real Estate.—Not Exceeding Fifty Per Cent of Deposits.—First mortgages of real estate in this State and New Hampshire to an amount not exceeding fifty per cent of its value.

Loans on Collateral.—Aggregate of Investments Unlimited.—Notes with a pledge as collateral of any public funds or bonds of any kind the bank or institution would by this statute be authorized to purchase.

Notes with a pledge as collateral of any stocks the bank or institution would by this statute be authorized to purchase.

Holdings of the capital stock of any one corporation limited. See memoranda "E."

Loans on Deposit Books.—Aggregate of Investments Unlimited.—Notes with a pledge as collateral of any savings bank deposit book or books of any savings bank in this State.

Loans on Railroad Stock.—Aggregate of Investments Unlimited.—Notes with a pledge as collateral of the stock of any railroad or railroads mentioned in this section, but not over seventy-five per cent of the market value of such stock.

Holdings of the capital stock of any one corporation limited. See memoranda "E."

Loans to Municipalities.—Aggregate of Investments Unlimited.—To any county, city or town in this State.

Loans on Other Personal Property.—Aggregate Unlimited.—Notes secured by a pledge or mortgage of such other personal property as, in the judgment of the trustees, it is safe and for the interest of the bank to accept.

Loans to Corporations in Maine.—Aggregate Unlimited.—To any corporation having real estate and doing business in this State.

Deposits in Banks.—Aggregate Unlimited.—May deposit on call in banks or banking associations incorporated under authority of this State or the laws of the United States and receive interest thereon.

MEMORANDA.

A.

From Chapter 161, Public Laws 1895.

.....The term net municipal indebtedness of counties, as used in this section, shall be construed to include all bonds which are a direct obligation of the county, less the amount of any sinking fund available in the reduction of such debt.

B.

.....The term net municipal indebtedness of cities and districts, as used in this section, shall be construed to include in the case of either not only all bonds which are a direct obligation of the cities, but also all bonds of the districts or boards within the same, as above enumerated, exclusive of any such debt created for a water supply and of the amount of any sinking fund available in the reduction of such debt.

C.

.....The number of inhabitants of cities and counties shall be determined by the last previous official census thereof, as established by the United States or State census or city or county census taken in the same manner as United States or State census and duly certified to by the clerk or treasurer of such city or the auditor or treasurer of such county.

D.

.....All investments shall be charged and entered on the books of the bank at their cost to the bank or at par when a premium is paid.

E.

From Chapter 47, Section 102, Revised Statutes.

No such bank or institution shall hold by way of investment or as security for loans, or both, more than one-fifth of the capital stock of any corporation, nor invest more than ten per cent of its deposits, not exceeding sixty thousand dollars, in the capital stock of any corporation.

F.

From Chapter 165, Public Laws, 1899.

The trustees shall see to the proper investment of deposits and funds of the corporation in the manner hereinbefore prescribed.

G.

.....No loans shall be made directly or indirectly to any officer of the corporation or to any firm of which such officer is a member.

H.

From Chapter 47, Section 105, Revised Statutes.

Officers Not to Receive Gift, Fee, &c.—No gift, fee, commission or brokerage shall be received by any officer of a savings bank on account of any transaction to which the bank is a party under a penalty for each offence of one hundred dollars, to be recovered in an action of debt in the name and to the use of the State, provided that nothing herein contained applies to any expense of examining titles and making conveyances upon loans made by savings banks.

I.

Expense of Making Loans.—Parties making a loan from a savings bank shall pay all expenses incurred by reason thereof.

J.

From Chapter 47, Section 131, Revised Statutes.

Does Not Affect Investments Already Made.—But nothing herein affects the legality of investments already made. And said securities are valid in favor of the bank pursuant to any law in force when such investments were made.

K.

Change of Investments.—And this chapter does not require the change of investments for those hereinbefore named, except as the same can be done gradually by the sale or redemption of the securities so invested in, in such manner as to prevent loss or embarrassment in the business of such corporation or unnecessary loss or injury to the borrowers on such securities.

L.

Investing in Securities Not Authorized, a Misdemeanor.—The investments in securities not named in section 100 is a misdemeanor on the part of the trustees authorizing or officers making the same, and such trustees or officers are subject to the prosecutions and punishments prescribed by law for that offense.

Legislature meets biennially in odd years on the first Wednesday in January, and length of session is not limited.

HISTORY OF DEBT.—New Hampshire's debt history is very brief. This State has always been extremely conservative, and no bonds were issued until after the breaking out of the Civil War. In 1866 New Hampshire reported her funded indebtedness at \$4,169,818, contracted exclusively for war purposes. June 1, 1869, the total outstanding was \$3,213,962 22, against which the Treasurer reported an asset of \$77,082 89. The situation of the State debt now is as below.

Table with columns: LOANS—Interest, Principal. Rows include Agricultural College 1893; Library bonds of 1891; do 1893; Municipal War loan; do do (overdue); Trust funds.

Of the trust funds \$80,000 bear 6 per cent interest and \$571,902 12 bear 4 per cent interest, no interest being paid on the remaining \$1,915 94.

PAR VALUE OF BONDS.—The bonds of this State are in \$500 and \$1,000 pieces.

INTEREST is payable at the Commonwealth Bank of Boston and at State Treasurer's office.

TOTAL DEBT.—The net debt on June 1, 1896, after allowing for trust funds, was \$1,827,741 37. The unjoined statement shows New Hampshire's total debt on the dates named.

	Jan. 1, '96.	June 1, '95.	June 1, '94.	June 1, '93.
Total funded debt.....	\$1,740,400	\$1,894,300	\$2,036,042	\$2,007,200
Trust funds.....	653,918	632,092	614,065	593,311

ASSESSED VALUATION.—The State's total assessed valuation has been as follows:

Years.	Valuation.	Years.	Valuation.
1896.....	\$259,116,800	1892.....	\$266,427,500
1895.....	not tabulated	1891.....	259,191,770

1893.....	274,816,342	1885.....	218,122,554

DEBT LIMITATION.—There is no restriction in the Constitution of New Hampshire upon the debt-making power of the people through the "General Court," except the following, which is the last clause of Article 5 of Part Second of that instrument.

Provided, That the General Court shall not authorize any town to loan or give its money or credit directly or indirectly for the benefit of any corporation having for its object a dividend of profits or in any way aid the same by taking its stocks or bonds.

The above is an amendment to the Constitution, which was ratified in 1877. The amendment would appear to be intended as a complete estoppel to municipal loaning of money or credit to railroad and industrial corporations. It is to be noticed, however, that by its terms the restriction does not specifically mention "cities," the words being "any town."

POPULATION OF STATE.—Since 1800 the total population has been as follows.

1800.....	376,530	1860.....	326,073	1830.....	269,328
1840.....	346,991	1850.....	317,976	1820.....	244,022
1870.....	318,300	1840.....	284,574	1810.....	214,460

In 1870-80 increase was 28,691, or 0.01 per cent, and in 1890-90, 29,539, or 8.51 per cent. For earlier population figures see STATE AND CITY SUPPLEMENT of April, 1895, page 13.

SAVINGS BANKS' INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—The laws in this State relating to savings banks in investments were remodeled by the Legislature of 1895. The act referred to was approved on March 29, 1895, and went into effect on July 1 of the same year. It is as follows:

AN ACT to regulate the investments of savings banks.

Be it enacted by the Senate and House of Representatives in General Court convened:

Section 1. On and after July 1, 1895, savings banks shall make investments of their funds in the following classes of securities only:

1st. In notes secured by first mortgage on real estate situated in New Hampshire.

2d. In notes secured by first mortgages of real estate situated outside of New Hampshire, which at the time is improved, occupied and productive; but not exceeding 25 per cent of the deposits shall be so invested.

3d. In notes secured by collateral in which the bank is at liberty to invest, of at least equal value; but the amount of any one class of securities so taken as collateral, added to that which the bank may own at the time, shall not exceed the total limit of that class of securities; and not exceeding 25 per cent of the deposits shall be so invested.

4th. In notes secured by collateral of securities which are listed on the stock exchanges of Boston and New York, the listed price of which shall at all times be at least ten per cent in excess of the face of the note; but not exceeding fifteen per cent of the amount of the deposits shall be so invested.

5th. In notes of individuals or corporations, with one or more indorsers, but not exceeding five per cent of the amount of its deposits to any one person or corporation, and not exceeding twenty per cent of the deposits shall be so invested, and not exceeding ten per cent of the deposits shall be invested in notes of individuals or corporations resident outside of the New England States.

6th. In the public funds of the United States or those for which the faith of the United States is pledged to provide for the payment of the interest and principal, including the bonds of the District of Columbia.

7th. In the bonds or notes of this State, or of any county, city, town, precinct or district of this State.

8th. In the authorized bonds, or interest-bearing obligations, of any other New England State, or of the States of New York, New Jersey, Pennsylvania, Delaware, Maryland, Ohio, Indiana, Illinois, Kentucky, Missouri, Michigan, Wisconsin, Minnesota, Iowa, Kansas, Nebraska, North Dakota, South Dakota, Colorado, California, Oregon, Montana, Wyoming and Washington, or the territories of Utah and New Mexico; but not exceeding twenty-five per cent of the deposits shall be so invested.

9th. In the authorized bonds, or interest-bearing obligations of any county, city, town, school district, or other municipal corporation of any of the foregoing States whose net indebtedness does not exceed 5 per cent of the last preceding valuation of the property therein for taxation, not issued in aid of railroads; *provided, however,* that the bonds or notes of any county of less than 10,000 inhabitants, or of any city, town or other municipal corporation of less than 5,000 inhabitants, or of any school district of less than 1,000 inhabitants, or of any of the foregoing States or Territories west of the Mississippi River except Minnesota shall not be authorized investments; and in the authorized bonds or interest-bearing obligations of any city of 100,000 inhabitants of any of the foregoing States whose net indebtedness does not exceed 7 per cent of the last preceding valuation of the property therein for taxation; but not exceeding 20 per cent of the deposits shall be so invested.

The term "net indebtedness" shall be construed to denote the indebtedness of any city or town, omitting debt created for supplying the inhabitants with water, and deducting the amount of sinking funds available for the payment of municipal indebtedness.

10th. In the bonds of any railroad company incorporated under the authority of any of the New England States whose road is located

wholly or in part in the same, and which is in possession of and operating its own road, and has earned and paid regular dividends for the two years next preceding such investment; or in the bonds guaranteed or assumed by such railroad company, or of any railroad company so incorporated whose road is thus located; or in the bonds or notes of any railroad company incorporated under the laws of this State; but not exceeding twenty-five per cent of the deposits shall be so invested.

11th. In the bonds of any railroad incorporated under the authority of any State outside of New England which is in possession of and operating its own road, and has earned and paid regular dividends of not less than four per cent per annum on its capital stock for the five years next preceding such investment; *provided* said capital stock on which it pays dividends equals in amount one-third of the entire bonded indebtedness of said road, or in the bonds of any corporation guaranteed or assumed by said railroad; but not exceeding twenty per cent of the deposits shall be so invested. Street railroads shall not be considered railroads within the meaning of this and the last preceding section.

12th. In the bonds of corporations of this State whose net indebtedness at the time of such investment does not exceed its capital stock actually paid in and remaining unimpaired, but not exceeding five per cent of the deposits shall be so invested.

13th. In the bonds of street railway corporations located wholly or in part in cities of 50,000 inhabitants or more, situated outside of New Hampshire, whose net indebtedness at the time of such investment does not exceed its capital stock actually paid in and remaining unimpaired; *provided,* such corporation has earned and paid regular dividends on its capital stock for five years next preceding such investment, but not exceeding five per cent of the deposits shall be so invested.

14th. In the capital stock of any bank or trust company incorporated under the laws and doing business within this State, but the amount of such stock held by any savings bank as an investment and as collateral for loans shall not exceed one-tenth of the total capital stock of such bank or trust company; and not exceeding ten per cent of the deposits shall be so invested.

15th. In the stock of any national bank in the New England States and in the State of New York; but the amount of such stock held by any savings bank as an investment and as collateral for loans shall not exceed one-tenth of the total capital stock of such national bank, and not exceeding ten per cent of the deposits shall be so invested.

16th. In the stock of any railroad corporation, exclusive of street railways, situated in whole or in part in New England, New York, Pennsylvania, Ohio, Indiana, Michigan, and Illinois, that has earned and paid regular dividends of at least four per cent for five years previous to such investment; but not exceeding ten per cent of its deposits shall be so invested.

17th. In the stock of any manufacturing company in the New England States that has earned and paid regular dividends for five years previous to such investment, and whose net indebtedness does not exceed the amount of its capital stock fully paid in; but not exceeding ten per cent of the deposits shall be so invested.

18th. Any savings bank may purchase and hold land and buildings suitable and actually used by it in part for its banking-rooms, the total cost of which shall not exceed 10 per cent of its deposits.

19th. Any savings bank may hold and lease real estate acquired by foreclosure of mortgages owned by the bank, but all taxes, foreclosure expenses and cost of maintenance shall be paid out of the income of the bank.

20th. Deposits of cash on call or subject to check shall be made in some authorized banking or trust company incorporated under the laws of this State or the Commonwealth of Massachusetts, or in some national bank located in the New England States or in the City of New York.

Section 2. Whenever any person shall at the same time hold an office in both a national bank and a savings bank he shall give bond in double the amount required by existing law.

PORTSMOUTH.—WM. O. JENKINS, Mayor. W. H. MORSE, City Clerk.

Portsmouth is one of the county seats of Rockingham County. The city issued \$343,000 bonds in aid of the Portsmouth & Dover RR., and received in return stock of the par value of \$344,000. This stock is now worth considerable more than its face value, and the city has wisely been selling it and applying the proceeds to the payment of the railroad bonds. When all these bonds shall have been paid the city will still have on hand a considerable balance from the sale of the stock.

Table with 5 columns: Name and Purpose, Interest P. Ct. Payable, When Due, Principal, and Outstanding. Includes Municipal bonds for schools, sewers, etc., and Portsmouth & Dover RR. bonds.

INTEREST is payable in Boston and Portsmouth.

TAX FREE.—None of the above bonds are taxed in the city of Portsmouth.

PAR VALUE.—Bonds are in \$100, \$200, \$500 and \$1,000 pieces; none registered except \$19,500 of the issue of 1881.

TOTAL DEBT on December 1, 1896, including the water debt, was \$899,940; assets in treasury, \$30,101; water debt, \$325,000; net debt, \$341,329. The city owns, in addition to the water-works and the Portsmouth & Dover RR. stock above mentioned, real estate, including schools, etc., which is valued at \$185,700; personal property (including fire department) valued at \$51,007. The par value of the Portsmouth & Dover stock held by the city on December 1, 1896, was \$172,000; market value, \$193,500.

ASSESSED VALUATION.—Assessed valuation in 1896 of real estate and personal property was \$8,214,714 (estimated at about 1/2 actual value); tax rate (per \$1,000) \$20.60. Assessed valuation of real and personal property in 1893, \$7,833,490; tax rate, \$18.50; in 1892, \$6,100,364; tax rate, \$16.30; in 1890, \$7,398,710; tax rate, \$18.80.

character, as defined in our remarks under this head with regard to Maine. Railroad subscriptions by towns are authorized by Section 2760, chapter 132 of the Revised Statutes, the section being as follows:

SECTION 2760. A town may aid in the construction of a railroad organized under the general law by issuing bonds to aid such railroad, by taking capital stock therein, or in such other manner as it directs, but the liability so assumed shall not exceed eight times the grand list of the town at the time. Such aid shall be given in the way provided in this chapter.

It will be noticed that this section contains a limit to the power granted of making subscriptions in aid of railroads—to wit: That the subscriptions shall not exceed eight times "the grand list." To evolve the "grand list" in Vermont, the authorities first prepare a schedule of all the property, real and personal, of each individual, with valuations entered at their real value in money, deducting debts owing; after this is done "the grand list" is made up by taking one per cent of that amount, according to Section 317, Chapter 25, of the Revised Statutes, which is as follows: "All taxable property shall be set in the list at one per cent of its value in money on the first day of April of the year "in which the list is made."

Following Section 2760, above cited, which authorizes subscriptions in aid of railroads, are other sections describing the method in which these subscriptions must be made, by calling a town meeting, voting &c., &c. Then follows Section 2766, authorizing the issue of bonds.

SECTION 2766. Such town may issue bonds, with coupons payable semi-annually, at a rate of interest not exceeding seven per cent, to aid such road.

The only other general authority granted for the issue of bonds by municipal corporations in Vermont is that given for refunding outstanding bonds and notes. The Sections which grant this power are Sections 2769, 2775 and 2776, Chapter 132 of the Revised Statutes, Sections 2769 and 2776 are as follows:

SECTION 2769. A town which has outstanding and unpaid negotiable notes or bonds, issued to pay for stock subscribed to a railroad company, under any act of the general assembly, may issue other negotiable notes or bonds to pay or retire such outstanding notes or bonds.

SECTION 2775. A town having outstanding and unpaid orders, notes, bonds or coupons, issued under any act of the Legislature, for the purpose of the erection of public buildings, or in aid of public improvements, or for the payment of soldiers' bounties, may issue other negotiable notes or bonds for the purpose of retiring the outstanding orders, notes, bonds and coupons, in the same manner that it may issue new notes or bonds to pay or retire outstanding notes or bonds issued in aid of a railroad; and the powers, restrictions, duties and liabilities of the town and town officers in the matter shall be the same as is provided by law in the case of the refunding by a town of town bonds issued in aid of a railroad; and the interest on such new notes or bonds shall be provided for in the same manner.

By Section 2776 municipal corporations other than towns have the same refunding powers granted them which are conferred upon towns by the two sections last above cited.

The only other section which we need quote is Section 2751 of Chapter 130, which names the objects for which towns may vote money. If money is appropriated for any other object, the Charter or a special statute must be looked to for the authority.

SECTION 2751.—Towns in town meetings may vote such sums of money as they judge necessary for the support of the poor; for laying out and repairing highways; for the prosecution and defense of the common rights and interests of the inhabitants, and for other necessary incidental town expenses.

POPULATION OF STATE.—According to the first census (1790) the population of Vermont was 85,425, of which 44,756 were males, 40,398 were females and 271 free colored. The total in 1800 was 154,465. Since that date each ten year aggregate is given below.

SAVINGS BANKS INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—A single change with reference to savings banks investments was made in 1896 and another in 1894. Important changes were made in 1892 in the provisions in force regulating and restricting the investment and loaning of the deposits. The whole enactment on the subject as the sections now stand is contained in the laws of 1884 amended in 1888, again amended in 1892 and further amended in 1894 and 1896. In the year 1884 all previous legislation respecting savings banks was collated and revised in and by an act entitled "An Act relating to Savings Banks and Trust Companies" in 1888 and again in 1892 the more important sections relating to investments were amended. In 1894 only Section 26 was changed, which fixes the portion of the deposits a savings bank may put into a lot and building. In 1896 the only enactment was one providing that the capital of Savings Banks and Trust Companies be made subject to the same laws of investment that already control their surplus and deposits; this act of 1896 does not apply to investments already made until January 1, 1899.

In the following citations we have combined the legislation of the four years on the subject of investments, and therefore present the law in the particulars mentioned as it exists to-day.

The first section having reference to investments is Section 23, which treats of real estate mortgages. We need not cite the section in full. It authorizes the investment of 70 p.c. of the assets in such mortgages, one sixth at least of which "shall be upon real estate in this State"—that is Vermont. A proviso adds that only 50 per cent of the assets may be invested in mortgages on real estate outside of Vermont. Section 24 relates only to obtaining and paying for insurance. Section 25 is as follows and has reference to investments on personal security.

SECTION 25.—No loans or investments on personal security shall be made except upon at least two approved names, not less than two of whom reside in this State or within fifty miles of the institution making such investment, and such personal loans or investments shall not be for a longer time than one year; and not more than one-third of the assets of a savings bank, savings institution or trust company shall be invested in personal securities.

Section 26 only covers a single point, that is to say it restricts to five per cent (this read three per cent until the change in 1894) of the deposits the amount which a savings bank may invest in the lot and building for the transaction of its business; then the law of 1894 adds

State school tax to be distrib'd	5		122,943
do highway do do	5		86,899

INTEREST is payable at the State treasury.

TOTAL DEBT, ETC.—The total debt of the State on Jan. 1, 1897, not including State school and highway taxes distributed Jan. 1, 1897, was \$258,443. On July 1, 1896, the total resources were \$573,938, including cash on hand and in banks \$209,455.

ASSESSED VALUATION.—The State's assessed valuation and tax rate have been as follows:

Years.	Real.	Personal.	Total.	Tax rate per \$1,000
1896.....	\$113,700,464	\$60,996,759	\$174,697,223	\$1.00
1895.....	112,099,284	61,700,471	173,799,755	2.20
1894.....	112,087,665	63,045,247	175,132,912	1.00
1893.....	110,787,889	65,263,376	176,051,365	2.50
1890.....	112,895,125	65,157,388	178,052,513

The tax rate for 1896 was \$1.00 per \$1,000 for State school and State highway taxes of 50 cents each per \$1,000, collected and re-distributed to towns on a basis of the number of schools and road mileage.

DEBT LIMITATIONS.—There appears to be nothing in the Constitution or in the Statutes of Vermont providing a general limit to the debt-making power of municipalities. Whatever in each case the Legislature authorizes, the city, town, county or other civil division can issue. Of course the purpose of the improvement must be of a public

that a revenue may be derived from portions of the building not required for the bank's use. The next section (Section 27) covers the most important of the provisions relating to investments that are contained in the law. We give the section in full below. The separation into paragraphs and the figures in parentheses which number and begin the paragraphs are our own, we having inserted them so that those who need to refer to or use any particular portion of the section can the more readily find the part desired. With that exception we give the section as it reads and was passed, preserving even the punctuation.

SECTION 27 (as amended by the Laws of 1892).—With the foregoing exceptions, the moneys deposited in Savings' Banks, Savings' Institutions and Trust Companies, and the income therefrom, shall be invested only as follows:

(1.) In the public funds of the United States, or public funds for the payment of principal and interest of which the faith of the United States is pledged;

(2.) In the bonds or notes of the counties, cities, towns, villages and school districts of the New England States, New York, Pennsylvania, Ohio, Michigan, Indiana, Illinois and Iowa;

(3.) In the stock of any national bank in the New England States, New York and the cities of Detroit, Chicago, St. Paul and Minneapolis; in the stock of any banking association or trust company incorporated under the authority of and located in this State;

(4.) In the municipal bonds, not issued in aid of railroads, of counties, cities and towns of five thousand or more inhabitants in the States of New Jersey, Wisconsin, Minnesota and Missouri, and in counties, cities and towns of ten thousand or more inhabitants in the States of Kansas, Nebraska, North Dakota, South Dakota, Oregon and Washington, but no investment shall be made in any of the counties, cities or towns in the States above named, except in cities of fifty thousand or more inhabitants, where the municipal indebtedness of such county, city or town exceeds five per cent of its assessed valuation, and when not issued in aid of railroads;

(5.) In the school bonds and independent school district bonds of New Jersey, Wisconsin, Minnesota and Missouri, and in the school bonds and independent school district bonds of school districts of two thousand or more inhabitants in the States of Kansas, Nebraska, North Dakota, South Dakota, Oregon and Washington, where the amount of such bonds issued does not exceed five per cent of the assessed valuation of the respective cities, towns and school districts.

(6.) In the public funds of any of the States named in this section; in notes with a pledge of any of the aforesaid securities, including deposit books or deposit receipts, issued by a savings bank, savings institution or trust company or banking association located in this State as collateral, such notes not to exceed the par or market value of such security;

(7.) But no savings bank, savings institution or trust company shall, by way of investment or as security for loans, more than ten per cent of the capital stock of any one bank, nor invest more than ten per cent of its deposits, nor more than thirty-five thousand dollars, in the capital stock of any one bank; and no such investments shall be made in the capital stock of any such banks, owned or loaned upon, to exceed in the aggregate one-fourth of the deposits of any savings bank, savings institution or trust company.

The amount of loan which can be made to one person or corporation, &c., is restricted by the next section, and we give it in full. It is as follows:

SECTION 28.—No savings bank, savings institution or trust company shall loan to any one person, firm or corporation, or the individual members thereof, more than five per cent of its deposits, nor more than thirty thousand dollars; nor shall such loan on personal security exceed ten thousand dollars.

The following three sections (Sections 29, 30, 31) it is unnecessary to insert in extenso. Section 29 restricts the amount in which any officer, director or employee may at any one time be indebted to any "trust company;" since Section 32 enacts that the words "trust company," used in the act shall "include savings banks," this prohibition may equally apply to savings banks officers. Section 30 makes every stockholder in a "trust company" liable for debts, &c., "to the extent of the amount of their capital stock." Section 31 forbids any officer or employee of a savings bank, &c., receiving any fee or present, etc., directly or indirectly, for any loan made or security bought, etc.

The next section (32) we give in full. It confers authority upon savings banks to make deposits on call in banks and trust companies in certain States and cities, and is as follows.

SECTION 32.—(As amended by Laws 1894, page 56.)—The words "trust company" in this chapter shall be construed to include savings banks and trust companies. A savings bank, savings institution or trust company may deposit on call in banks, banking associations or trust companies in this State, or in the cities of New York, Boston or Chicago, or in national banks in the cities of St. Paul, Minneapolis and Kansas City, either without interest, as may be agreed upon, sums not exceeding in the aggregate twenty per cent of the assets of such savings bank, savings institution or trust company.

Section 33 enacts that savings banks may hold real estate acquired by foreclosure or otherwise taken to secure debt, but must be sold within two years, &c. Section 34 authorizes savings banks to demand and receive on loans 6 per cent interest.

TOTAL DEBT, SINKING FUNDS, ETC.—The subjoined statement shows Massachusetts's total funded debt and the sinking fund held by the State against the same on the dates indicated.

Table with columns: Total funded debt, Sinking funds, etc., Net debt, Jan. 1, '97, Jan. 1, '96, Jan. 1, '95.

ASSESSED VALUATION.—The State's assessed valuation has been as follows:

Table with columns: Years, Real Estate, Personal Property, Total.

* Includes, beginning with 1894, sundry small items not previously counted.

POPULATION OF STATE.—Massachusetts has the largest population of any of the New England States. In 1790 numbers were 378,787 and in 1800 422,845; in the next fifty years the increase was 1,994,514, but it is in the forty years since then that the additions have been especially marked, the 1890 Census showing a total of 2,238,941.

It deserves to be pointed out that in the last three decades the rate of growth has been steadily rising, having been 18.38 per cent in the decade from 1860 to 1870, 22.35 per cent in the 1870-80 period and 25.7 per cent in the 1880-90 decade.

DEBT LIMITATIONS.—There seems to be no provision in the Constitution of Massachusetts limiting the power of the Legislature to create State indebtedness, or limiting its power to authorize municipal indebtedness. Statutes general and special have, however, been passed on this subject with respect to Cities and Towns.

First among these Statutes needing mention we have Chapter 29 of the Revised or "Public Statutes." The important sections to be cited contained in Chapter 29 are as follows. We give only the substance of the sections, not the words.

SECTION 1—Provides that cities and towns shall not incur debt except in the manner and within the limitations prescribed in this chapter.

SECTION 2—Provides (as a preliminary for determining whether a limitation fixed by Section 4 has been reached by any municipality) that the water debt and the sinking funds shall be deducted from the total debt.

SECTION 3—Provides that the first 17 sections of chapter 29 shall not apply to debts incurred in aid of railroads, to water scrip issued under special statutes, or to indebtedness for a fire district.

SECTION 4—Provides that no city or town except as provided in the following section shall become indebted in an amount which exceeds 3 per cent on the last preceding valuation.

SECTION 5—Provides that cities and towns which were indebted on the 13th day of June, 1873, to an amount not less than 2 per cent on valuation for that year may "increase such indebtedness to the extent of an additional one per cent on that valuation and no more."

SECTION 6—Provides that cities, &c., "may by ordinary vote incur debts for temporary loans" in anticipation of the year's taxes and of the year's taxes next ensuing.

SECTION 7—Provides that other debts than those referred to in section 6 shall be incurred only by a vote of two-thirds of the voters present at a town meeting, of two-thirds of all the members of each branch of the city council, and approved by the Mayor; or if the Mayor disapproves, by another like vote after notice of such disapproval.

SECTION 8—Provides that debts incurred for water must be payable within 30 years; in constructing sewers within 20 years; all other debts within 10 years.

SECTIONS 9 to 17 inclusive, contain interesting provisions relating to sinking funds and other allied matters.

SECTION 18—Provides that any city which at a meeting of its voters has accepted by a two-thirds vote any act to supply said city with water, may by a vote of a majority of the members of each branch of the city council contract debts and issue bonds for the purpose.

SECTION 19—Provides that towns, &c., shall not increase their debt by subscriptions in aid of railroads beyond 3 per cent of valuation; but the limitation of this section shall not apply to temporary loans mentioned in Section 6.

SECTIONS 20 to 23, which are the final ones of Chapter 29, have no reference to the subject we are discussing and need not be cited.

As the reader has seen, the foregoing (Section 4, Chapter 29) fixes the general debt limitation for cities and towns at 3 per cent.

This general limitation was lowered by a later law. The provision is found in Chapter 312, Section 2 of the "Public Statutes," which provision reduces the general debt limitation from 3 per cent to 2½ per cent on the average valuation for the preceding three years. Worcester, Lynn, Gloucester and Brockton are in the same Section exempted from the operation of the Section until January 1, 1889—later than 1889 the only exemptions we find in the Statutes are special in their purpose, not general.

The temporary loans provision, as it appears above in Section 6 (Chapter 29), is also changed by Section 4, Chapter 312, by omitting "of the year next ensuing;" so that at present cities and towns by ordinary vote can incur debts for temporary loans in anticipation of the taxes of the year only in which such debts are incurred.

The foregoing statements cover all the material facts general in their application passed with respect to debt limitation. In addition to these general provisions there are various special laws which contain exceptions to the general law as to debt limitation, which apply to Boston, Cambridge, Lynn, Newburyport, Waltham, Worcester, &c., &c.

SAVINGS BANK INVESTMENTS—POWERS AND RESTRICTIONS.—The provisions regulating the investments and loans of savings banks and institutions for savings in Massachusetts are contained in Section 21, Chapter 317, acts of 1894, and amendments thereto.

All the provisions referred to above as contained in section 21, Chapter 317, Acts of 1894, have been compiled by the Commissioners of Savings Banks, and we cannot do better than to give their compilation, which we do below in full.

Massachusetts savings bank deposits and the income derived therefrom shall be invested only in manner following, to-wit:

Public Funds.—Aggregate of Investments Unlimited.—

Bonds of the United States.
Bonds of any of the New England States.
Bonds of the States of New York, Illinois, Pennsylvania, Ohio, Indiana, Iowa, Wisconsin, Michigan, Minnesota, Missouri and of the Territory of Columbia.

Bonds or notes of any county, city or town of this Commonwealth.
Bonds or notes of incorporated districts in Massachusetts whose net indebtedness does not exceed five per cent of the last preceding valuation of the property therein for the assessment of taxes.

Bonds or notes of any city of the States of Maine, New Hampshire, Vermont, Rhode Island or Connecticut whose net indebtedness does not exceed five per cent of the last preceding valuation of property therein for the assessment of taxes.

Bonds or notes of any county or town of the States of Maine, New Hampshire, Vermont, Rhode Island or Connecticut whose net indebtedness does not exceed three per cent of the last preceding valuation of property therein for the assessment of taxes.

Bonds issued for municipal purposes, and refunding bonds issued to the State at maturity bonds which have been loaned for other than municipal purposes, but on which the interest has been fully paid, of any of the States of New York, Ohio, Illinois, Pennsylvania, Indiana, Michigan, Iowa, Minnesota, Missouri and Wisconsin, having at the date of such investment more than 20,000 inhabitants, as established by the last national or State census or city census certified to by the city clerk or treasurer of said city, and taken in the same manner as a national or State census preceding such investment, and whose net indebtedness does not exceed five per cent of the last preceding valuation of property therein for the assessment of taxes.

Railroad Bonds and Notes.—Aggregate of Investments Unlimited.—
First mortgage bonds of any railroad company incorporated under the authority of any of the New England States whose road is located wholly or in part therein, which is in possession of and operating its own road, and which has earned and paid regular dividends for the two years next preceding such investment; or in the first mortgage bonds, issued by such railroad company, of any railroad company so incorporated whose road is thus located.

First mortgage bonds of any railroad company incorporated under the authority of any of the New England States and whose road is located wholly or in part in the same, and has earned and paid regular dividends for the two years next preceding such investment on all its issues of capital stock, notwithstanding the road of such company may be leased to some other railroad company.

Bonds or notes of any railroad company incorporated under the laws of this Commonwealth, whose road is located wholly or in part therein,

The term "net indebtedness" used of city, town or district in any statute relating to or regulating the investment of the deposits in savings banks and trust companies, or other like funds, shall be construed to denote the indebtedness of such city, town or district omitting the debt created for supplying the inhabitants with water, and deducting the amount of sinking funds available for the payment of such indebtedness.

incumbered by mortgage, which has paid a dividend of not less than five per cent per annum for two years next preceding such investment.

Street railway companies shall not be considered railroad companies within the meaning of this section.

Bonds and notes of the New York New Haven & Hartford Railroad Company, issued according to law, notwithstanding the existence of a mortgage indebtedness not matured upon the whole or a part of the road of said railroad company.

Bonds or notes of the Old Colony Railroad Company, issued according to law, notwithstanding the mortgages on that part of its road formerly belonging to the Boston Clinton Fitchburg & New Bedford Railroad Company.

Bonds and notes of the Fitchburg Railroad Company, issued according to law.

Bonds and notes of the Boston & Lowell Railroad Corporation, issued according to law, notwithstanding the mortgages on that portion of its road formerly belonging to the Salem & Lowell and Lowell & Lawrence railroad companies.

First mortgage bonds of the Concord & Montreal Railroad, notwithstanding such company be formed by the union of two or more companies only one of which has paid regular dividends for the two years next preceding such investment on all its issues of capital stock, and notwithstanding the mortgage indebtedness existing on that part of its road formerly belonging to the Boston Concord & Montreal Railroad; provided, however, that said bonds shall be issued in whole or in part to renew and refund said existing first mortgage indebtedness, and that an amount of such bonds equal to the par value to the amount of such existing mortgage indebtedness shall, by the terms of the mortgage securing the same, be made applicable exclusively to the payment of such existing mortgage indebtedness and, for the purpose of securing such payment at the maturity of the same, shall be deposited with and held by such trust company, incorporated under the laws of this Commonwealth and doing business in the city of Boston, as may be approved by the board of commissioners of savings banks.

In the bonds of the Maine Central Railroad Company known as consolidated mortgage bonds, notwithstanding the existence of a mortgage indebtedness not matured upon the whole or a part of the road of said railroad company; provided, however, that said bonds be issued in whole or in part to renew and refund said existing first mortgage indebtedness, and that an amount of such bonds equal to the par value to the amount of such existing mortgage indebtedness shall, by the terms of the mortgage securing the same, be made applicable exclusively to the payment of such existing mortgage indebtedness; and for the purpose of securing such payment at the maturity of the same, said bonds shall be deposited with and held by such trust company, incorporated under the laws of this Commonwealth and doing business in the city of Boston, as may be approved by the board of commissioners of savings banks.

Bonds or notes of the Boston & Maine Railroad, issued according to law, notwithstanding any mortgages on that part of its railroad, franchises and property formerly belonging to the Eastern Railroad Company, the Eastern Railroad in New Hampshire, or the Portsmouth Great Falls & Conway Railroad.

Bonds of the New York & New England Railroad Company issued according to law, and for the payment of the principal and interest of which first mortgages, made as provided in chapter three hundred and one of the acts of the year eighteen hundred and eighty-eight are held as collateral security under an indenture of trust duly made and entered into for that purpose; provided, that the amount of the bonds so issued shall not exceed the amount of the mortgages so held in trust, and that no one of said mortgages shall exceed in amount sixty per cent of the value of the real estate thereby mortgaged; and no investment in said bonds shall be made by any such corporation except upon the report of not less than two members of the board of investment, who shall certify to the value of the premises covered by each of said mortgages according to their best judgment, and such report shall be filed and preserved with the records of the corporation.

Bank Stock.—Thirty-five per cent of deposits, both as loans and investments.—Stock of any bank incorporated under the authority of this Commonwealth.

Stock of any national bank located in any of the New England States.

Stock of any trust company, or safe deposit and trust company, incorporated under the laws of and doing business within this Commonwealth, as provided for in chapter four hundred thirteen of the acts of the year eighteen hundred eighty-eight, or of those trust companies, or safe deposit and trust companies, incorporated as such by special charters granted under the laws of and doing business within this Commonwealth, whose special charters require them to provide the same security as prescribed in sections thirteen and fourteen of said chapter four hundred thirteen.

Holdings, by way of investment or as security for loans, in the stock of any one bank, trust company, or safe deposit and trust company not to exceed three per cent of deposits nor more than \$100,000, nor an amount exceeding one-quarter of the capital stock thereof.

Real Estate for Banking Purposes.—Five per cent of deposits but not exceeding \$200,000.—For the purpose of a site and the erection or preparation of a suitable building for the convenient transaction of its business.

Real Estate by Foreclosure.—May hold real estate acquired by foreclosure or otherwise; same to be sold within five years after the title is vested in the corporation. Commissioners may in certain cases, upon petition of the board of investment, grant an additional time within which such real estate shall be sold. See chapter 77, Acts of 1883.

Loans on Real Estate.—Seventy per cent of whole amount of deposits.—First mortgages on real estate situated in this Commonwealth, to an amount not exceeding sixty per cent of the valuation thereof, no loan to be made except upon report of not less than two members of the board of investment, who shall certify to the value of the premises to be mortgaged, such report to be filed and preserved with the records of the corporation.

Loans on Personal Security.—Thirty-three and one-third per cent of deposits and income.—Bonds or other personal securities, payable and to be paid at a time not exceeding one year, with at least two sureties, if principal and sureties are all citizens of and resident in this Commonwealth, provided that the total liabilities to any such corporation borrowed upon personal security, including in the liabilities of a partnership or company the liabilities of the several members thereof, shall at no time exceed five per cent of such deposits and income.

Loans on Railroad Stock.—Aggregate of investments unlimited.—Notes of citizens of this Commonwealth, with pledge as collateral of the stock of any railroad company incorporated under the authority of any of the New England States whose road is located wholly or in part therein, which is in possession of and operating its own road, and which has earned and paid regular dividends of not less than five per cent per annum on all issues of its capital stock for two years next preceding the date of such note or notes or any renewal thereof, at no more than seventy-five per cent of the market value thereof, such note or notes to be made payable on demand and to be paid or renewed within one year of the date thereof.

Note or notes of any citizen of this Commonwealth, with a pledge as collateral of shares of the capital stock of the Boston & Lowell Railroad Corporation, of the Boston & Providence Railroad Company, of the Connecticut River Railroad Company, and of the Old Colony Railroad Company, notwithstanding the road of each of said companies may be leased to some other railroad company; such note or notes not to exceed in any case seventy-five per cent of the market value of

the securities pledged, and to be made payable on demand, and to be paid or renewed within one year of the date thereof.

Street railway companies shall not be considered railroad companies within the meaning of this section.

Loans on Public Funds—Aggregate of Investments Unlimited.—Notes of any citizen of this Commonwealth, with pledge of the bonds of the United States; any of the New England States; State of New York; bonds or notes of any city, county or town of this Commonwealth; bonds or notes of any city of the States of Maine, New Hampshire, Vermont, Rhode Island or Connecticut whose net indebtedness* does not exceed five per cent of the last preceding valuation of property therein for the assessment of taxes; bonds or notes of any county or town thereof whose net indebtedness* does not exceed three per cent of such valuation.

Loans not to exceed the par value of the securities pledged.—Notes of any citizen of this Commonwealth, with a pledge as collateral of the bonds of the States of Pennsylvania, Ohio, Michigan, Indiana, Illinois, Wisconsin, Iowa, Minnesota, Missouri and the District of Columbia; of any city of the aforesaid States and the State of New York, issued for municipal purposes, and refunding bonds issued to take up at maturity bonds which have been issued for other than municipal purposes, but on which the interest has been fully paid, which has at the date of such investment more than 30,000 inhabitants, as established by the last national or State census, or city census taken in the same manner as a national or State census, whose net indebtedness* does not exceed five per cent of the last preceding valuation of the property therein for the assessment of taxes.

Loans not to exceed eighty per cent of the market value of the securities pledged.

Loans on Railroad Bonds.—Aggregate of Investments Unlimited.—Notes of any citizen of this Commonwealth, with a pledge as collateral of any of the following securities, viz.: First mortgage bonds of any railroad company incorporated by any of the New England States, whose road is located wholly or in part therein, which is in possession of and operating its own road, and which has earned and paid regular dividends for two years next preceding such investment.

First mortgage bonds, guaranteed by such railroad company, of any railroad company so incorporated, whose road is thus located.

Bonds or notes of any railroad company incorporated under the laws of this Commonwealth whose road is located wholly or in part in the same, which is encumbered by mortgage, and which has paid a dividend of not less than five per cent per annum for two years next preceding such investment.

First mortgage bonds of any railroad company incorporated under the authority of any of the New England States and whose road is located wholly or in part in the same, and has earned and paid regular dividends for the two years next preceding such investment on all its issues of capital stock, notwithstanding the road of such company may be leased to some other railroad company.

Bonds and notes of the New York New Haven & Hartford Railroad Company.

Bonds or notes of the Old Colony Railroad Company.

Bonds or notes of the Fitchburg Railroad Company.

Bonds or notes of the Boston & Lowell Railroad Corporation.

First mortgage bonds of the Concord & Montreal Railroad, notwithstanding such company be formed by the union of two or more companies, only one of which has paid regular dividends for the two years next preceding such investment on all its issues of capital stock, and notwithstanding the mortgage indebtedness existing on that part of its road formerly belonging to the Boston Concord & Montreal Railroad; provided, however, that said bonds shall be issued in whole or in part to renew and refund said existing first mortgage indebtedness, and that an amount of such bonds equal at the par value to the amount of such existing mortgage indebtedness shall, by the terms of the mortgage securing the same, be made applicable exclusively to the payment of such existing mortgage indebtedness and, for the purpose of securing such payment at the maturity of the same, shall be deposited with and held by such trust company, incorporated under the laws of this Commonwealth and doing business in the city of Boston, as may be approved by the board of commissioners of savings banks.

In the bonds of the Maine Central Railroad Company known as consolidated mortgage bonds, notwithstanding the existence of a mortgage indebtedness not matured upon the whole or a part of the road of said railroad company; provided, however, that said bonds be issued in whole or in part to renew and refund said existing first mortgage indebtedness, and that an amount of such bonds equal at the par value to the amount of such existing mortgage indebtedness shall, by the terms of the mortgage securing the same, be made applicable exclusively to the payment of such existing mortgage indebtedness; and for the purpose of securing such payment at the maturity of the same, said bonds shall be deposited with and held by such trust company, incorporated under the laws of this Commonwealth and doing business in the city of Boston, as may be approved by the board of commissioners of savings banks.

Bonds or notes of the Boston & Maine Railroad, issued according to law, notwithstanding any mortgages on that part of its railroad, franchises and property formerly belonging to the Eastern Railroad Company, the Eastern Railroad in New Hampshire, or the Portsmouth Great Falls & Conway Railroad.

Loans not to exceed the par value of the securities pledged.

Loans on Bank Stock.—Thirty-five per cent of deposits both as loans and investments.—Notes of any citizen of this Commonwealth, with a pledge as collateral of the stock of any bank incorporated by this Commonwealth; or the stock of any national bank located in any of the New England States; or the stock of any trust company, or safe deposit and trust company, incorporated under the laws of and doing business within this Commonwealth, as provided for in chapter four hundred thirteen of the acts of the year eighteen hundred eighty-eight, or of those trust companies, or safe deposit and trust companies, incorporated as such by special charters granted under the laws of and doing business within this Commonwealth, whose special charters require them to provide the same security as prescribed in sections thirteen and fourteen of said chapter four hundred thirteen.

Loans to be made at no more than eighty per cent of the market value of the stock pledged, and not exceeding the par value thereof.

Holdings, by way of investment or as security for loans, in the stock of any one bank, trust company, or safe deposit and trust company, not to exceed three per cent of deposits, nor more than \$100,000, nor an amount exceeding one-quarter of the capital stock thereof.

Loans to Depositors.—Aggregate of Investments, Unlimited.—Personal notes of depositors in the corporation, but not exceeding one-half of the amount of his deposit to a depositor, with pledge of deposit and book of such depositor as collateral security.

Deposits in Banks.—Aggregate of Investments Unlimited.—May deposit sums of money, on call, in any bank incorporated under the laws of this Commonwealth, or in any national bank located in any of the New England States, or in any trust company, or safe deposit and trust company, incorporated under the laws of and doing business within this Commonwealth, as provided for in chapter four hundred thirteen of the acts of the year eighteen hundred eighty-eight, or in those trust companies, or safe deposit and trust companies, incorporated as such by special charters granted under the laws of and doing business within this Commonwealth, whose special charters require them to provide the same security as prescribed in sections thirteen and fourteen of said chapter four hundred thirteen, to an amount not exceeding five per cent of total deposits in any one such bank or company, but such deposits shall not exceed in amount twenty-five per cent of the capital stock and surplus of such depository.

DEBT LIMITATIONS.—The general provision as to debt limitation which applies only to Boston is found in the Supplement to the Public Statutes of Massachusetts, Laws of 1885, Chapter 178. The act is entitled "An act to limit the municipal debt of, and the rate of "taxation in, the city of Boston."

SECTION 1.—Provides that the taxes exclusive of State tax and of sums required by law to be raised on account of the city debt shall not exceed in any one year \$9 on every \$1,000 of the average of the assessors' valuation for the preceding five years, the valuation year to year being first reduced by all abatement.

SECTION 2.—Provides that the limit of indebtedness of the city of Boston shall hereafter be 2 1/2 per cent until January 1, 1887, and thereafter shall be 2 per cent on the average valuation prescribed in section 1 of this act.

The foregoing limitation is of course exclusive of debts created for water supply.

Another exception is found in Laws of 1886, Chapter 304—which act authorizes a loan for \$500,000 each year to a total amount not to exceed \$2,500,000, for the construction of a public park. Section 4 of this act provides that the debt authorized shall not be included within the limit fixed by section 2, chapter 178 above cited.

A further exception is found in Laws of 1887, Chapter 312, which authorizes \$400,000 bonds issued for the purpose of paying for lands already acquired for public parks adding (in section 3) that the debt authorized shall not be included within the limit fixed as above.

Still another exemption to this debt limitation is found in Laws of 1888, Chapter 392, which act authorizes, for the purpose of purchasing such additional lands for its public parks as the Park Commissioners shall deem necessary, the issue of bonds not exceeding \$600,000, adding that this issue of bonds shall be considered outside the debt limit fixed as above.

In addition to the foregoing, which cover special authorizations of bond issues by the legislature for park purposes, &c., not included in the debt limit, there are a number of other laws, of which we make a brief mention below.

Chapter 101 Laws of 1887 and Chapter 288 Laws of 1892 authorized loans for the Suffolk County Court House.

Chapter 282 Laws of 1887 authorized \$250,000 for New Harvard Bridge.

Chapter 394 Laws of 1897 authorized not exceeding \$75,000 for Stony Brook Sewer.

Chapter 322 Laws of 1889 authorized not exceeding \$500,000 to extend improved sewerage system.

Chapter 68 Laws of 1889 authorized \$1,000,000 to complete the new Public Library building.

Chapter 254 Laws of 1889 authorized not exceeding \$75,000 to extend West Chester Park to Harvard Bridge.

Chapter 283 Laws of 1889 authorized \$500,000 for extension, &c., of Congress, Oliver and other streets.

Chapter 271 Laws of 1890 and amended chapter 444 Laws of 1890 authorized \$200,000 for public parks in Charlestown.

Chapter 301 Laws of 1891 authorized \$3,500,000 for parks.

Chapter 324 Laws of 1891 authorized \$1,000,000 for library.

Chapter 323 Laws of 1891 authorized loans for highways.

Chapter 288 Laws of 1892 authorized \$100,000 for Co. Ct. House.

Chapter 478 Laws of 1893 authorized \$2,000,000 for subway.

Chapter 548 Laws of 1894 authorized \$7,000,000 for rapid transit.

Chapter 408 Laws of 1895 authorized \$500,000 for schools.

DEBT LIMITATION.—An exception in the case of Worcester to general State law limiting municipal indebtedness is found in the Supplement to the Public Statutes, Laws of 1888, Chapter 144. The object of the law was to authorize a loan for the purposes of Public Parks. The loan was called the Worcester Park Loan, and the amount of the issue was fixed at not to exceed \$250,000. The Statute provided that this loan should not be included within the debt limit fixed by law. Under the provisions of Chapter 293, Act of 1894, new city hall bonds to the amount of \$300,000 are also outside the debt limit.

ASSESSED VALUATION.—The city's assessed valuation and tax rate have been as follows, real estate being taken at "its full and fair cash value":

Table with columns: Years, Real Estate, Personal Property, Total, and Rate of Tax per \$1,000.

In 1896 tax rate includes: State tax, \$0.43; county tax, \$0.83; city \$14.34; total, \$15.60.

Average assessed valuation for three years, 1894 to 1896 inclusive, was \$88,011,605.

POPULATION.—Population in 1895 was 98,687; in 1890 was 84,655; in 1880 was 58,291; in 1870 was 41,105. The population for 1896 is estimated at over 100,000.

ADDITIONAL STATEMENTS.

In the table below we give statements regarding all towns in the State of Massachusetts which have reported an indebtedness of over \$25,000, and which are not represented among the foregoing. We add the population according to the Massachusetts Census of 1895.

Legislature meets annually the last Tuesday in May at Newport, and holds an adjourned session the following January at Providence. There is no limit as to the length of session.

HISTORY OF DEBT.—For a brief history of the Rhode Island State debt see STATE AND CITY SUPPLEMENT of April 13, 1895, page 1. The bonds outstanding at present are described as follows:

Table with columns: LOANS—NAME AND PURPOSE., Interest—Rate, Payable—When Due., Principal—When Due., and various bond details for Rhode Island.

PAR VALUE OF BONDS.—The bonds are for \$1,000 each.

TAX FREE.—Bonds of the State House loan are exempt from taxation in Rhode Island.

INTEREST is payable in Providence at the Rhode Island Hospital Trust Company.

TOTAL DEBT, SINKING FUNDS, ETC.—The subjoined statement shows Rhode Island's debt, and the sinking fund held against the same, on the first of January of the following years.

Table with 4 columns: Year (1895, 1894, 1893, 1892), Total funded debt, Sinking funds, and Net debt.

The sinking fund is largely invested in city, town and district bonds and notes, and it is to receive \$50,000 yearly.

TAX VALUATION.—The assessed valuation of real estate in Rhode Island in 1890 was \$243,658,190; personal property, \$84,872,399; total \$328,530,589. Tax rate (per \$1,000) was \$1.80.

POPULATION OF STATE.—In 1790 the number of inhabitants was 68,925 and in 1800 it had increased only to 60,122; in 1850 it had risen to 147,545; for 1895 it is 384,758.

Table showing population growth from 1790 to 1895 in 5-year increments.

In the decade from 1860 to 1870 the rate of growth was 24.47 per cent, in the 1870 to 1880 decade 27.23 per cent and in the last decade 24.91 per cent.

MUNICIPAL INDEBTEDNESS LIMITATIONS.—There is nothing in the Constitution of Rhode Island limiting the amount of city debts. The following, however, are two sections taken from Chapter 34 of the Revised Statutes of the State, passed in 1878.

SECTION 16. "The outstanding notes, bonds and contracts of towns shall be paid and be fulfilled according to the tenor thereof, and all public works now authorized to be prosecuted shall be prosecuted, and all indebtedness now authorized to be incurred on account thereof may be incurred according to the tenor of the authority thereof.

SECTION 17. No town shall incur any debt in excess of three per centum of the taxable property of such town, including the indebtedness of such town on the tenth day of April, one thousand eight hundred seventy-eight, but the giving of a new note or bond, for a pre-existing debt, or for money borrowed and applied to the payment of such pre-existing debt, is excepted from the provisions of this section, and the amount of any sinking fund shall be deducted in computing such indebtedness."

SAVINGS BANK INVESTMENTS AND RESTRICTIONS.—In the "Public Statutes of Rhode Island" (which were revised in 1890-91 by commissioners and put in operation by act of Legislature February 1st, 1892.) Sections 52, 53, 54, etc., of Chapter 153, will be found the provisions of law with reference to Savings Bank Investments. Section 52, which recites in detail the stocks, bonds, etc., these institutions are allowed to put their money in, was amended in two particulars in 1896. Below we give that section in full, as now in force, the amendments of 1896 being put in brackets and printed in italics, so that the reader can at once distinguish them and measure their significance.

SECTION 52. Institutions for savings shall invest their receipts— (1) In public stocks or bonds of any State or of the United States, (2) Or in any bank stock, or in notes or bonds of any town or city, (3) (Or in notes of any school district or fire district in any New England State,)

(4) Or in such corporate stocks or bonds as they may deem safe and secure, (5) Or they may discount notes, bonds or drafts of individuals or corporations, with two other responsible endorsers, sureties or guarantors, (6) Or the notes, bonds or drafts of individuals or corporations secured by the public notes, stocks or bonds of any State of the United States, or of any town or city (or of any school district or fire district in any New England State), or by the stocks or bonds of any corporation which may be deemed to be safe, or by mortgage on real estate.

The only other sections which call for publication are 53 and 54, the former appearing to give Savings Institutions quite extensive powers as to making and keeping deposits in commercial banks. When so kept, however, they are to be kept "payable on demand whether drawing interest or not." The two sections are subjoined.

SECTION 53.—No such institution shall have an amount exceeding one-half of its receipts invested in notes, bonds or drafts of individuals or corporations, unless secured by some public notes, bonds or stocks as aforesaid, or by mortgage on real estate, but the preceding section shall not be so construed as to forbid any such institution from placing and holding on deposit in any bank such reasonable amount of their receipts as is customary and they may deem proper, payable on demand, whether drawing interest or not.

SECTION 54.—No money shall be loaned by any institution for savings to any trustee, director or other officer of such institution.

For the other provisions of the law as they now are we would refer our readers to the Revised Statutes of 1892.

DEBT LIMITATION.—The Constitution of Connecticut contains but a single provision restricting the debt-making power. The provision is Article 25, and was adopted as an amendment in 1877. We give the article in full:

No County, City, Town, Borough or other Municipality, shall ever subscribe to the capital stock of any railroad corporation, or become the purchaser of the bonds, or make donation to, or loan its credit in aid of, any such corporation; but nothing herein contained shall affect the validity of any bonds or debts incurred under existing laws, nor be construed to prohibit the General Assembly from authorizing any Town or City to protect by additional appropriations of money or credit any railroad debt contracted prior to the adoption of this amendment.

The foregoing is explicit and comprehensive, covering every municipality. There are no general restrictions in the Revised Statutes; whatever restrictions have been made from time to time are contained in enabling acts and in city charters.

As to towns, we notice that there is a general law granting them unlimited power to issue bonds. According to section 140, chapter 23 of the Revised Statutes, "when any town shall have made appropriations "or incurred debts, or shall hereafter make appropriations or incur "debts exceeding ten thousand dollars, it may issue bonds, either registered or with coupons attached, or other obligations, payable at such times and at such annual rate of interest not exceeding 6 per cent, "payable annually or semi-annually, as it shall determine," &c. Cities have had no such general authority conferred upon them.

Exemption from Taxation has been accorded by general statute to certain bonds issued by cities and towns to aid in the construction of railroads; and this exemption has been extended to new bonds issued for the purpose of redeeming or providing a fund to redeem the railroad bonds above referred to. This exemption is found in Section 3,820, Chapter 24 of the Revised Statutes (last clause of Section), and the bonds there named are those "issued by any town or city in aid of the "construction of the railroads of the Connecticut Western Railroad "Company, the New Haven Middletown & Willimantic Railroad Company, the Sleeping Valley Railroad Company, the Connecticut Valley "Railroad Co., the Connecticut Central Railroad Company, or either of "them." All railroads which are in whole or in part in the State are taxed by the State under Section 3,920, Chapter 24 of the Revised Statutes, so that the tax on these bonds is paid by the railroads.

Exemption from tax of new bonds issued to redeem or to provide a fund to redeem the railroad aid bonds, or to redeem or to provide a fund to redeem any release of the same, is conferred fully by an act approved June 10, 1889, and found in the "Public Acts" of the State for that year.

POPULATION OF STATE.—Since 1850 the population of Connecticut has more than doubled, being reported for 1890, 746,259.

1890.....	716,258	1860.....	460,147	1830.....	297,675
1880.....	622,700	1850.....	370,792	1820.....	273,148
1870.....	537,434	1840.....	309,979	1810.....	201,042

In the 1860-70 decade, the increase in numbers was 16.90 per cent; in 1870-80 15.96 per cent; and in 1880-90 19.84 per cent.

SAVINGS BANKS INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—At the session in 1903 material changes were made in the provisions regulating the investment of the deposits of the savings banks of Connecticut. These are mainly contained in section 1,800 of

the General Statutes of the State. It seems that this section was re-modeled and the list of securities enlarged in 1889 and has, as stated, now again been amended in 1893. The amending act of 1893 was entitled "An Act concerning investments by Savings Banks," and is as follows. The separation into paragraphs and the figures in brackets which number and begin the paragraphs, we have inserted so that those who need to refer to or use any particular portion of the section can more readily find the part desired; otherwise we give the section as it reads and was passed, preserving even the punctuation.

Section 1,800 of the General Statutes is hereby amended to read as follows: Savings banks may invest—

(1) Not exceeding twenty per centum of their deposits and surplus in notes secured by pledge of dividend-paying stocks or interest bearing bonds as collateral security; not exceeding twenty-five per centum thereof, in notes secured by indorsement, guaranty, or joint and several obligation of two or more parties, residents of this State;

(2) And may invest also in the purchase of the authorized bonds of the United States; in the authorized bonds or interest-bearing obligations of any of the New England States, or of the States of New York, New Jersey, Pennsylvania, Ohio, Kentucky, Michigan, Indiana, Illinois, Wisconsin, Iowa, Minnesota, Missouri, Kansas, Nebraska, Colorado, Delaware, Maryland, Washington, California, Oregon, or the District of Columbia;

(3) In the authorized bonds of any incorporated city in the New England States, or of the cities of New York, Brooklyn, Albany, Syracuse, Utica, Troy, Rochester, and Buffalo, in the State of New York; Philadelphia, in the State of Pennsylvania; Detroit, in the State of Michigan; Cleveland, Columbus, Dayton, Cincinnati and Toledo, in the State of Ohio; Chicago, in the State of Illinois; Milwaukee, in the State of Wisconsin; St. Louis, in the State of Missouri; Louisville, in the State of Kentucky; Omaha, in the State of Nebraska; Newark, in the State, of New Jersey;

(4) Or in the purchase of the legally-authorized obligations of counties, cities, towns, boroughs, and school districts in this State;

(5) Or in the stock of any bank or trust company in this State, or the stock of any bank in New York City, or Boston, Massachusetts;

(6) Or the authorized bonds of any other incorporated city of not less than twenty thousand inhabitants, located in any of the aforesaid States, as ascertained by the United States or State census made next preceding such investment, whose indebtedness upon its stocks and bonds, including the issue in which such investment is made, and its proportion of town and county debts, after deducting the amount of cash and negotiable securities in the sinking fund available for the payment of such indebtedness, does not exceed eight per centum of the valuation of property made for the assessment of taxes next preceding such investment; provided, said city has not defaulted payment of any of its debts within fifteen years next preceding the purchase of such investment;

(7) Or in the first mortgage bonds of any railroad company whose road is located wholly or in part in any of the States hereinbefore mentioned which has paid dividends of not less than four per centum per annum regularly on its entire capital stock for a period of not less than five years next previous to the purchase of the bonds; provided, said capital stock equals or exceeds in amount one-third of the entire authorized issue of said bonds;

(8) Or in the consolidated bonds of any railroad company incorporated by this State, and authorized to issue such bonds to retire the entire debt of said company; provided, said company has paid dividends, as aforesaid; but this act shall not be held to authorize the purchase of bonds of any horse, electric, cable, or elevated railroad;

(9) All other investments shall be in loans secured by mortgage of unencumbered real estate in this State, worth double the amount of the loan secured thereon; provided, that the Stafford Savings Bank of the town of Stafford may loan on land located in the county of Hampden in the State of Massachusetts, the Stonington Savings Bank of the town of Stonington may loan on land located in the county of Washington, in the State of Rhode Island, the Ridgefield Savings Bank of the town of Ridgefield may loan on land located in the county of Westchester, in the State of New York, and the Thompson Savings Bank of the town of Putnam may loan on land located in the county of Providence, in the State of Rhode Island.

It would seem according to the foregoing amendment of section 1,800 that only forty-five per cent of the deposits and surplus of any savings bank may be employed on personal security, but that no limit is placed upon the amount which may be invested in the other securities mentioned in the section. A subdivision of the forty-five per cent which may be loaned on personal security is made by the requirement that not more than twenty per cent may be loaned on single-name paper secured by stocks or bonds, and not more than twenty-five per cent may be invested in notes with two or more names.

The subjoined sections, 1,803, 1,804, 1,805 and 1,806, provide certain restrictions with reference to loans—section 1,803 restricting loans on Mortgage Security to Manufacturing Corporations and Ecclesiastical Societies; section 1,804 restricting amount of loans to one party on personal security; section 1,805 forbidding loans on single-name paper.

SEC. 1,803. No loan shall be made by any savings bank to a manufacturing corporation or ecclesiastical society, secured by mortgage upon their property, unless the same shall be accompanied by the individual guarantee of some responsible party or parties, or by other collateral security of equal value to the amount of the sum loaned, and the directors or trustees of any such bank consenting to any loan contrary to the provisions of this section shall be held individually responsible to the full extent of such loan.

SEC. 1,804. No savings bank having more than twenty-five thousand dollars deposits shall loan on personal security to any one person, company, or interest, more than three per cent of its deposits at the time of making such loan.

SEC. 1,805. No savings bank shall buy, or lend any money upon, any obligation on which only one person or firm shall be holden, without taking additional security for the same equivalent to the guaranty or indorsement of some other responsible party.

Besides the ordinary safeguards which are in all savings bank laws there is one of no little importance that ought to aid materially in preventing incontinent loans. We refer to the provision which is contained in Section 1,806 below.

SEC. 1,806.—When any loan or investment is made by any savings bank, the names of the directors or trustees consenting thereto shall be entered upon the records of said bank, and said record shall lie at all times open to the inspection of the incorporators and auditors of said bank and the Bank Commissioners, and be *prima facie* evidence of the truth of the statements therein contained.

TRUST FUNDS—HOW LOANED OR INVESTED.—We find in Section 495 of the General Statutes the following liberal provisions providing that trust funds may be loaned or invested in the same securities savings banks are authorized to invest in.

SEC. 495.—Trust funds, unless it is otherwise provided in the instrument creating the trust, may be loaned on the security of mortgages on unencumbered real estate in this State, double in value the amount loaned, or may be invested in such mortgages or in the bonds or loans of this State, or of any town, city, or borough of this State, or in any bonds, stocks, or other securities which the savings banks in this State are or may be authorized by law to invest in, or may be deposited in savings banks incorporated by this State.

CITIES, COUNTIES AND TOWNS IN THE STATE OF CONNECTICUT

NOTE.—For debts of minor civil divisions not found among the state ment given below, see page 40.

The relation which the towns, cities and boroughs of this State bear to one another is peculiar, and requires a word of explanation. The State is divided into eight counties, and those counties are made up of towns, numbering in the aggregate 167. The towns are the civil unit, and on the assessed valuation (which is called the "Grand List" of each town) is levied the tax for State purposes as well as the tax for town expenditures. Within the town is often situated a city or a borough, or both, all of which may at the same time have bonds outstanding. There are ten cities, each with one exception bearing the same name as the town in which it lies. Of late several towns and cities whose limits were about identical have been consolidated and the outstanding bonds of both town and city are reported together without distinction. This is the case with the city and town of Hartford, which previous to April, 1896, reported their debts separately. The city and town of New London have been consolidated and also Bridgeport city and town. In general, however, town and city are distinct, New Haven city, for instance, making no mention in its financial report of the debt of New Haven town, though there is but little difference in the extent of town and city.

The borough stands in about the same relation to the town as does the city. The grand list as determined for the town is used by both the city and the borough in levying taxes, the city, for instance, putting a tax of its own on its share of the total grand list of the town. This tax is additional to the town tax. In some instances the schools are in the charge of school districts, which also are empowered to issue bonds and to levy a tax, so that to cover the total tax paid by a city it is necessary to take into account the State, town, city and school district levies. In the statements which follow we give under one heading the town and city, wherever they bear the same name, for though distinct corporations, their debts are to a greater or less extent the debts of a single community.

For a summary of the municipal indebtedness, assessed valuation, etc., of the entire State, see STATE AND CITY SUPPLEMENT of April, 1895, page 37.

HISTORY OF DEBT.—The historical details of New York's State debt from 1817 to the present time will be found in the STATE AND CITY BUREAU OF APRIL, 1894, page 41.

During a period of eleven years ending in 1893 the State debt was paid at the average rate of \$1,000,000 per year, and was practically wiped out.

At the November election in 1893 the proposition to issue bonds of the State to the amount of \$9,000,000, for the purpose of enlarging and improving the Erie Canal, the Champlain Canal, and the Oswego Canal, was submitted to the voters and carried. Part of these bonds issued since the first of last year are described below. They constitute the only indebtedness of the State at present. On January 12, 1897, bids were received for the purchase of \$1,000,000 of these bonds, but as it was subsequently decided to make them free from taxation, none of the bids were considered. A bill having been passed to make these bonds tax exempt, the Comptroller is now (April 1, 1897), advertising for sale in April \$3,000,000 of these securities.

DEBT LIMITATION—STATE.—The new Constitution has in some measure modified the provisions of the fundamental law restricting the power of the Legislature over the issue of debt, &c. These provisions are found in Article 7. We give the sections of that article (Article 7) below which have reference to the subject.

State credit not to be given.—SECTION 1. The credit of the State shall not in any manner be given or loaned to or in aid of any individual, association or corporation.

State debts, power to contract.—SEC. 2. The State may, to meet casual deficits or failures in revenues, or for expenses not provided for, contract debts; but such debts, direct or contingent, singly or in the aggregate, shall not at any time exceed one million of dollars; and the moneys arising from the loans creating such debts shall be applied to the purpose for which they were obtained, or to repay the debt so contracted, and to no other purpose whatever.

State debts to repel invasions.—SEC. 3. In addition to the above limited power to contract debts, the State may contract debts to repel invasion, suppress insurrection, or defend the State in war; but the money arising from the contracting of such debts shall be applied to the purpose for which it was raised, or to repay such debts, and to no other purpose whatever.

Limitation of legislative power to create debts.—SEC. 4. Except the debts specified in sections two and three of this article, no debts shall be hereafter contracted by or on behalf of this State, unless such debt shall be authorized by a law, for some single work or object, to be distinctly specified therein; and such law shall impose and provide for the collection of a direct annual tax to pay, and sufficient to pay, the interest on such debt as it falls due, and also to pay and discharge the principal of such debt within eighteen years from the time of the contracting thereof. No such law shall take effect until it shall, at a general election, have been submitted to the people, and have received a majority of all the votes cast for and against it at such election. On the final passage of such bill in either house of the Legislature, the question shall be taken by ayes and noes, to be duly entered on the journals thereof, and shall be: "Shall this bill pass, and ought the same to receive the sanction of the people?" The Legislature may at any time, after the approval of such law by the people, if no debt shall have been contracted in pursuance thereof, repeal the same; and may at any time, by law, forbid the contracting of any further debt or liability under such law; but the tax imposed by such act, in proportion to the debt and liability which may have been contracted, in pursuance of such law, shall remain in force and be irrevocable, and be annually collected, until the proceeds thereof shall have made the provision hereinbefore specified to pay and discharge the interest and principal of such debt and liability. The money arising from any loan or stock creating such debt or liability, shall be applied to the work or object specified in the act authorizing such debt or liability, or for the repayment of such debt or liability and for no other purpose whatever. No such law shall be submitted to be voted on, within three months after its passage, or at any general election when any other law, or any bill, or any amendment to the Constitution, shall be submitted to be voted for or against.

Sinking fund, how kept and invested.—SEC. 5. The sinking funds provided for the payment of interest and the extinguishment of the principal of the debts of the State shall be separately kept and safely invested, and neither of them shall be appropriated or used in any manner other than for the specific purpose for which it shall have been provided.

DEBT LIMITATION.—CITIES, COUNTIES, TOWNS AND VILLAGES.—The new Constitution of New York State has cleared up the middle in which recent legislation had left the debt-limitation question. We set out the situation very fully in our April, 1894, SUPPLEMENT,

the result of which was that between the constitutional restriction and legislative action on the same subject, cities and villages of the State having 100,000 inhabitants or less were left by the law of 1892 without any constitutional or statutory limit to their debt-making power.

As stated above, this defect has been corrected by the Constitution adopted in November 1894. That document has put a general and uniform limit to the power of all counties and cities of the State to contract and put out their obligations, leaving to the Legislature to fix the debt-making power of villages and towns only. These provisions are found in Article 8, Section 10. We give that section in full. The separation into paragraphs and the figures in parenthesis which number and begin the paragraphs are our own, we having inserted them so that those who need to refer to or use any particular portion can the more readily find the part desired. With that exception we give Section 10 of Article 8 as it reads, preserving even the punctuation.

(1) No county, city, town or village shall hereafter give any money or property, or loan its money or credit to or in aid of any individual, association or corporation, or become directly or indirectly the owner of stock in, or bonds of, any association or corporation; nor shall any such county, city, town or village be allowed to incur any indebtedness except for county, city, town or village purposes. This section shall not prevent such county, city, town or village from making such provision for the aid or support of its poor as may be authorized by law.

(2) No county or city shall be allowed to become indebted for any purpose or in any manner to an amount which, including existing indebtedness, shall exceed ten per centum of the assessed valuation of the real estate of such county or city subject to taxation, as it appeared by the assessment rolls of said county or city on the last assessment for State or county taxes prior to the incurring of such indebtedness; and all indebtedness in excess of such limitation, except such as may now exist, shall be absolutely void, except as herein otherwise provided.

(3) No county or city whose present indebtedness exceeds ten per centum of the assessed valuation of its real estate subject to taxation, shall be allowed to become indebted in any further amount until such indebtedness shall be reduced within such limit.

(4) This section shall not be construed to prevent the issuing of certificates of indebtedness of revenue bonds issued in anticipation of the collection of taxes for amounts actually contained, or to be contained in the taxes for the year when such certificates or revenue bonds are issued and payable out of such taxes.

(5) Nor shall this section be construed to prevent the issue of bonds to provide for the supply of water; but the terms of the bonds issued to provide the supply of water shall not exceed twenty years, and a sinking fund shall be created on the issuing of the said bonds for their redemption, by raising annually a sum which will produce an amount equal to the sum of the principal and interest of said bonds at their maturity.

(6) All certificates of indebtedness or revenue bonds issued in anticipation of the collection of taxes, which are not retired within five years after their date of issue, and bonds issued to provide for the supply of water, and any debt hereafter incurred by any portion or part of a city, if there shall be any such debt, shall be included in ascertaining the power of the city to become otherwise indebted.

(7) Whenever hereafter the boundaries of any city shall become the same as those of a county, the power of the county to become indebted shall cease, but the debt of the county at that time existing shall not be included as part of the city debt.

(8) The amount hereafter to be raised by tax for county or city purposes, in any county containing a city of over one hundred thousand inhabitants, or any such city of this State, in addition to providing for the principal and interest of existing debt, shall not in the aggregate exceed in any one year two per centum of the assessed valuation of the real and personal estate of such county or city, to be ascertained as prescribed in this section in respect to county or city debt.

By the terms of the foregoing section, Paragraph (1), every "County, City, Town or Village" is included in the prohibition against (1) loaning "its money or credit," (2) in becoming "directly or indirectly the owner of stock in or bonds of any association or corporation," and (3) in incurring "any indebtedness except for County, City, Town or Village purposes." Most of the other paragraphs include only Counties and Cities.

According to Paragraph (6) it seems that "any debt hereafter incurred by any portion or part of a city, if there shall be any such debt, shall be included in ascertaining the power of the city to become otherwise indebted."

We would also call special attention to Paragraph (7), that whenever hereafter the boundaries of any city shall become the same as those of a county "the power of the county to become indebted shall cease, but the debt of the county at that time existing shall not be included as a part of the city debt."

In May 1886 the New York Court of Appeals decided at the end of a litigation begun in July 1885 that the sinking fund was not a part of the city debt within the meaning of the above provision of the Constitution limiting the creation of debt to 10 per cent of the assessed valuation of the real estate.

Towns and Villages are not limited in their debt-making power by the Constitution. These municipalities will be governed by general or special statutes.

The 1895 Legislature passed an act "for the protection of bona fide purchasers and holders of coupon bonds and of municipal corporations against misfeasance, malfeasance or negligence of public officers." The full text of this law was published in the CHRONICLE of June 8, 1895, V. 60, p. 1023.

EXEMPTION FROM TAXATION.—There is one general New York statute with reference to exemption from taxation "for town, county, municipal or State purposes" of a class of bonds "issued by any village, city, town or county" in the State, which seems to have a wider application than is generally known. As originally passed in 1881 the exemption applied only to bonds issued to pay up or retire bonds "created to aid in the construction of any railroad." A new law was passed in 1886 (Chapter 316) making the tax exemption apply to "new bonds" issued under the act to retire any of the then "present bonded indebtedness of any village, city, town or county in this State." With reference to such new bonds the third section of the act of 1886 says: "All new bonds issued by any village, city, town or county in this State under the provisions of this act shall be exempt from taxation for town, county, municipal or State purposes until the period when they are made payable." In 1893 still another law was passed making the statute cover any bonded indebtedness. The law as it now stands will be found in editorial on page 4 of the April, 1894, SUPPLEMENT.

In addition to the foregoing there are special laws authorizing special issues that are exempt, but which we have not room to quote here. For New York City there is a general statute which directs how any of its bonds may be made exempt from city and county taxation. That statute is subjoined.

SEC. 137. The Commissioners of the "Sinking Fund of the City of New York for the redemption of the city debt," when duly authorized by ordinance of the Common Council, may, by concurrent resolution, direct that the bonds and stocks of said city, issued pursuant to law, after June ninth, eighteen hundred and eighty, shall be exempt from taxation by said city and by the county of New York, but not from taxation for State purposes; and all bonds and stocks issued pursuant to such authority shall be exempt from taxation accordingly, provided that said bonds and stocks shall not bear interest exceeding the rate of four and one-half per centum per annum. The bonds and stocks of the city of New York issued pursuant to the provisions of this section shall express upon their face the fact that they are exempt from taxation by the city and county of New York, but not from State taxation, and shall refer to this section, and to the ordinance of the Common Council, and the resolution of the Commissioners of the Sinking Fund authorizing their issue.

SAVINGS BANK INVESTMENTS—POWERS AND RESTRICTIONS.—In 1892, by an act approved on the 28th of May of that year, a complete revision of the banking laws of the State was made. In that revision savings banks were included but no essential changes in the investment features were introduced. The following year, however (1893), Section 116 of the law of 1892 was amended in a material point, and the same section was again amended in 1895 and in 1896. We give section 116 below as it now stands:

Sec. 116. In what securities deposits may be invested.—The trustees of any savings banks may invest the moneys deposited therein and the income derived therefrom only as follows:

1. In the stocks or bonds or interest-bearing notes or obligations of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and principal, including the bonds of the District of Columbia.

2. In the stocks or bonds or interest-bearing obligations of this State, issued pursuant to the authority of any law of the State.

3. In the stocks or bonds or interest-bearing obligations of any State of the United States which has not within ten years previous to making such investment by such corporation defaulted in the payment of any part of either principal or interest of any debt authorized by the legislature of any such State to be contracted; and in the bonds or interest-bearing obligations of any State of the United States, issued in pursuance of the authority of the legislature of such State, which have, prior to the passage of this act, been issued for the funding or settlement of any previous obligation of such State theretofore in default, and on which said funding or settlement obligation there has been no default in the payment of either principal or interest since the issuance of such funded or settlement obligation, and provided the interest on such funded or settlement obligations has been paid regularly for a period of not less than ten years next preceding such investment.

4. In the stocks or bonds of any city, county, town or village, school district bonds and union free school district bonds issued for school purposes, or in the interest-bearing obligations of any city or county of this State, issued pursuant to the authority of any law of the State for the payment of which the faith and credit of the municipality issuing them are pledged.

5. In the stocks or bonds of the following cities: Boston, Worcester, Cambridge, Lowell, Fall River and Springfield in the State of Massachusetts; St. Louis, in the State of Missouri; Cleveland, Cincinnati and Toledo, in the State of Ohio; Detroit and Grand Rapids, in the State of Michigan; Providence, in the State of Rhode Island; New Haven and Hartford, in the State of Connecticut; Portland, in the State of Maine; Philadelphia, Pittsburg, Alleghany, Reading and Scranton, in the State of Pennsylvania; Minneapolis and St. Paul, in the State of Minnesota; Des Moines, in the State of Iowa; Milwaukee, in the State of Wisconsin; Louisville, in the State of Kentucky; Paterson, Trenton and Newark in the State of New Jersey; Baltimore, in the State of Maryland. If at any time the indebtedness of any of said cities, less its water debt and sinking fund, shall exceed seven per centum of its valuation for purposes of taxation, its bonds and stocks shall thereafter, and until such indebtedness shall be reduced to seven per centum of the valuation for the purposes of taxation, cease to be an authorized investment for the moneys of savings banks, but the superintendent of the banking department may, in his discretion, require any savings bank to sell such bonds or stocks of said city, as may have been purchased prior to said increase of debt.

6. In bonds and mortgages on unincumbered real property situated in this State, worth at least twice the amount loaned thereon. Not more than sixty-five per centum of the whole amount of deposits shall be so loaned or invested. If the loan is on unimproved and unproductive real property, the amount loaned thereon shall not be more than forty per centum of its actual value. No investment in any bond and mortgage shall be made by any savings bank, except upon the report of a committee of its trustees charged with the duty of investigating the same, who shall certify to the value of the premises mortgaged or to be mortgaged according to their best judgment, and such report shall be filed and preserved among the records of the corporation.

7. In real property subject to the provisions of the next section.

Sec. 2. This act shall take effect immediately.

The foregoing contains the whole of the 1895 law. It will be noted that subdivision 7 (the last paragraph of the above) refers to the "next section" for the provisions applicable. This reference is to section 117 of the law of 1892: we omit that section as it relates only to real estate. Sections 118, 119 and 120 of the law of 1892 we subjoin; they are all of a general character and either grant powers or impose restrictions.

SECTION 118. The trustees of every such corporation shall as soon as practicable invest the moneys deposited with them in the securities authorized by this article; but for the purpose of meeting current payments and expenses in excess of the receipts, there may be kept an available fund not exceeding ten per centum of the whole amount of deposits with such corporation, on hand or deposit in any bank in this State organized under any law of this State or of the United States, or with any trust company incorporated by any law of the State; but the sum so deposited in any one bank or trust company shall not exceed twenty-five per centum of the paid-up capital and surplus of any such bank or company; or such available fund, or any part thereof, may be loaned upon pledge of the securities or any of them named in subdivisions one, two, three and four of the preceding section but one, but not in excess of ninety per centum of the cash market value of such securities so pledged. Should any of the securities so held in pledge depreciate in value, after making any loan thereon, the trustees shall require the immediate payment of such loan or of a part thereof, or additional security therefor, so that the amount loaned shall at no time exceed ninety per centum of the market value of the securities pledged for the same.

SECTION 119. Every such corporation may also deposit temporarily in the banks or trust companies specified in the last section the excess of current daily receipts over the payments, until such time as the same can be judiciously invested in the securities required by this

article. Whenever it shall appear to the superintendent of banks that the trustees of any such corporation are violating the spirit and intent of this provision by keeping permanently uninvested all or an undue proportion of the moneys received by them, he shall report the facts to the Attorney-General, who shall proceed against such corporation in the manner provided in section eighty-two of this chapter.

SECTION 120. The trustees of any savings bank shall not loan the moneys deposited with them or any part thereof, upon notes, bills of exchange, drafts or any other personal securities whatever. In all cases of loans upon real property, a sufficient bond secured by a mortgage thereon, shall be required of the borrower, and all the expenses of searches, examinations and certificates of title or appraisal of value, and of drawing, perfecting and recording papers, shall be paid by the borrower.

The privilege granted by section 119 might of course be interpreted liberally as opening the gates wide to continuous deposits in banks and trust companies. To avoid any such use of the privilege, the section also provides that whenever it shall appear to the Superintendent of the Banking Department that the trustees of any corporation are violating "the spirit and intent of this section by keeping permanently uninvested "all or an undue portion of the moneys received," he must report the facts to "the Attorney-General, who shall proceed against such corporation," etc.

 Legislature meets annually the second Tuesday of January, and there is no limit to the length of the session.

HISTORY OF DEBT.—New Jersey has always been a conservative State; there are consequently no facts out of which to construct a history of debt issues. In a report made in 1838 the financial officer of the State affirmed that New Jersey had put out no obligations of any kind or loaned its credit to any company. The Constitution of 1844 forbade the creating of a State debt exceeding one hundred thousand dollars *except* for purposes of war, &c., as will more fully appear in the item below with respect to "debt limitation." This exception, under which it was allowable to exceed the hundred-thousand-dollar limit became operative on the occasion of the breaking out of our Civil War. Quite a debt was created at that period and what the State now owes is the remnant of those war issues. The details of this debt are as follows.

NAME AND PURPOSE.	Interest.		Principal.	
	Rate.	Payable.	When Due.	Outstand'g.
War loan.....	6	J & J	Jan. 1, 1898	\$200,000
do.....	6	J & J	Jan. 1, 1899	123,000
do.....	6	J & J	Jan. 1, 1902	71,000

INTEREST is payable in Jersey City and Trenton.

TOTAL DEBT.—The total bonded debt of the State on January 1, 1897, was \$394,000. The appended statement shows the total debt on the following dates:

Nov. 1, 1896.....	\$593,400	Nov. 1, 1893.....	\$337,400
Nov. 1, 1895.....	660,400	Nov. 1, 1892.....	996,300
Nov. 1, 1894.....	735,400	Nov. 1, 1880.....	1,896,300

On Nov. 1, 1896, the State had a balance on hand which was more than \$959,629 in excess of all its liabilities.

ASSESSED VALUATION.—The assessed valuation of real and personal property is given in the following table:

1896.....	\$794,428,048	1891.....	\$701,320,029	1882.....	\$535,467,878
1895.....	786,998,070	1890.....	649,979,700	1880.....	518,617,518
1894.....	774,398,332	1889.....	603,676,953	1878.....	531,851,949
1893.....	768,295,274	1886.....	573,256,303	1876.....	596,833,707
1892.....	742,759,082	1884.....	554,828,114	1874.....	619,057,903

In addition to the above the valuation of railroad and canal property in 1896 was \$220,337,807.

DEBT LIMITATIONS.—The provisions of law limiting and regulating the debt-making power in New Jersey will be better understood and the information will be made more serviceable to the investor if arranged in accordance with the civil divisions to which the provisions apply.

(1) **THE STATE** is restricted as to its debt-making power by the State Constitution. In Article IV, Section VI, paragraphs 3 and 4, the whole subject is disposed of. The third paragraph forbids a loan of the State's credit, and the fourth paragraph forbids the creation of debt. These provisions are as follows.

3. The credit of the State shall not be directly or indirectly loaned in any case.

4. The Legislature shall not in any manner create any debt or debts, liability or liabilities of the State, which shall singly or in the aggregate with any previous debts or liabilities at any time exceed one hundred thousand dollars, except for purposes of war, or to repel invasion, or to suppress insurrection, unless the same shall be authorized by a law for some single object of work, to be distinctly specified therein; which law shall provide the ways and means, exclusive of loans, to pay the interest of such debt or liability as it falls due, and also to pay and discharge the principal of such debt or liability within thirty-five years from the time of the contracting thereof, and shall be irrevocable until such debt or liability and the interest thereon are fully paid and discharged; and no such law shall take effect until it shall, at a general election, have been submitted to the people, and have received the sanction of a majority of all the votes cast for and against it at such election; and all money to be raised by the authority of such law shall be applied only to the specific object stated therein, and to the payment of the debt thereby created. This section shall not be construed to refer to any money that has been, or may be, deposited with this State by the Government of the United States.

According to the foregoing (4th paragraph), the power of the State for making debt is limited to \$100,000, except (1) for purposes of war, etc. and (2) when the authorization is for some single object of work specified therein, etc. In the latter case the mode of procedure is, as will be seen, given in the same paragraph of the Constitution.

(2) **CITIES, COUNTIES, TOWNS, Etc.**, are also restricted in the making of certain kinds of debt by Article I, paragraphs 19 and 20, of the Constitution. We give the paragraph in full.

19. No county, city, borough, town, township or village shall hereafter give any money or property, or loan its money or credit to or in aid of any individual, association or corporation, or become security for or be directly or indirectly the owner of any stock or bonds of any association or corporation.

20. No donation of land or appropriation of money shall be made by the State or any municipal corporation to or for the use of any society, association or corporation whatever.

It will be noted that the above prohibition relates to the giving of money, property or credit of cities, &c., to individuals, associations, or corporations, &c., and that the prohibition is absolute, forbidding the doing of such acts in any form, shape or manner. There is one other restriction of the State Constitution, and that is found in Article IV. Section VII., paragraph 11, which forbids the Legislature passing any special laws "regulating the internal affairs of towns and counties"; in this and in all other cases in which according to the judgment of the Legislature general laws are feasible, the Constitution states that general laws must be provided.

In compliance with this last provision the Legislature has passed many general laws covering bonded indebtedness of cities, towns, etc. They are so numerous they cannot be cited here. We would refer the reader to the Revised Statutes of New Jersey published under an act of the Legislature in 1877, to the title "Municipal Corporations" pages 714 to 720 both inclusive; and also to the same title (Municipal Corporations) in the Supplement to the Revised Statutes of New Jersey published in 1887, pages 493, etc.

POPULATION OF STATE.—The population of New Jersey has been as follows in the years indicated.

Table with 4 columns: Year, Population, Year, Population. Rows: 1800-1830, 1830-1860, 1860-1890.

TAX EXEMPTION.—The State of New Jersey passed in 1993 a general statute which exempts from taxation the bonds, securities and other evidences of indebtedness of municipal corporations; the provisions cover not only the bonds, etc., to be hereafter issued, but those as well that have been heretofore issued. It is a sweeping statute, and one which is of decided interest to the holders of the municipal securities of the State. We give the statute in full below.

CHAPTER CCLXXII.—A further supplement to an act, entitled "An act concerning taxes," approved April Fourteenth, one thousand eight hundred and forty-six.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That all bonds, securities, improvement certificates and other evidence of indebtedness heretofore or hereafter issued by this State, or by any county thereof, or by any city, town, township, borough, school district, or other municipality of this State, shall be exempt from taxation for any purpose.

2. And be it enacted, That this act shall take effect immediately. Approved March 27, 1893.

SAVINGS BANKS' INVESTMENTS—POWERS AND RESTRICTIONS.—The last general savings bank law of New Jersey was passed in 1876. In good part that law is still in force, but the more important sections with reference to investments have been superseded by later statutes.

For some time the legislative tendency in the matter of investments has been in the direction of allowing the management of these institutions a wider choice and a larger discretion. Section 26 of the 1876 law restricted the investments within narrow limits. In 1878 those limits were widened somewhat by an entirely new act of two sections, the first taking the place of section 26 of the act of 1876. In 1886 another law was passed in place of the first section of the law of 1878. Again in 1889 an act was passed which materially broadened the provisions of section two of the law of 1878, which covered the same subject matter contained in section 26 of the original law of 1876. Consequently section 26 of the law of 1876 has now been superseded by the law of 1886, and section 29 has been superseded by the law of 1890.

In 1896, by an act approved March 30, 1896, a supplement (Chapter 189, laws of 1896) to the law of 1876 went into effect. First we give the supplement of March 30, 1896.

1. The managers of any savings bank may invest its moneys in the bonds of any school district which by law are charged upon the property of all the inhabitants of such district, which school district has not within ten years previous to making such investment defaulted in the payment of either principal or interest of any debt authorized to be contracted by it.

2. This act shall take effect immediately. Next we give the leading provisions of the law as to investments as broadened by the statute of 1890.

SECTION 1. That the first section of the act of which this is a supplement, and the same is hereby amended so as to read as follows:

That it shall not be lawful, from and after the passage of this act, for any savings bank or other savings institution, whether chartered or incorporated under a general or special act of the legislature of this State, and any provision contained in the charter, or any supplement hereto, of such savings bank or savings institution to the contrary, to invest the moneys deposited with the same in any manner, except as follows, to wit:

I. In the stocks or bonds or interest-bearing notes or obligations of the United States, or those for which the faith of the United States is solemnly pledged to provide for the payment of the principal and interest thereof.

II. In the interest-bearing bonds of this State;

III. In the bonds of any State in the Union that has not, within ten years previous to making such investment by any such bank or institution, defaulted in the payment of any part of either principal or interest of any debt authorized by any legislature of such State to be contracted.

IV. In the stocks or bonds of any city, town, county or village of this State, as authorized pursuant to the authority of any law of this State, or of the State of New York, Brooklyn and Philadelphia, or in any interest-bearing obligations (other than those commonly known as improvement certificates) issued by the city, town or borough in which such bank or institution shall be situated; (See below for provision including 40 bonds of certain cities and counties of any State in the United States.)

V. In bonds secured by mortgages which shall be a first lien on real estate situate in this State, and worth at least double the amount loaned thereon, but not to exceed eighty per centum of the whole deposited, and to be so loaned or invested; but in case the loan is on unimproved real estate, the amount loaned thereon shall not be more than thirty per centum of its actual value; and no investment in bonds and mortgage shall be made by any savings bank, except upon the report of a committee of at least three of the managers, directors or trustees of any such bank or institution, and a majority of which committee shall certify to the value of the premises mortgaged, or to the value of the same, according to their best judgment; such report shall be filed and preserved among the records of the institution;

VI. In real estate strictly in accordance with the following provisions.

We do not reprint the real estate provisions, as they cover a matter not germane to our present subject. It is sufficient to say that they are two in number, being marked (a) and (b), and may be summarized as below:

(a) authorizes the holding of a plot for erection of a banking building or buildings, portions of which may be rented, but the cost of lot and buildings must not exceed 50 per cent of the net surplus of the corporation;

(b) all purchases under foreclosure sales upon mortgages owned by the corporation or sales under judgments or decrees obtained for debts due, etc.; and all such real estate must be sold within five years unless, on application to the State Board having supervision of Savings Banks, time shall be extended.

But the character of the investments in certain cities and counties is further greatly broadened by the law of 1886, which being passed in 1886 was of course a statute of the State when the above act of 1889 was passed, and extends the scope of the 1889 law. The law of 1886 is as follows:

SECTION 1. That it shall be lawful for any savings bank or savings institution, incorporated under any law of this State, to invest moneys deposited with it in the bonds of any city or county of any State of the United States of America, which have been or may be issued pursuant to the authority of any law of any such State; provided, no such city or county has, within ten years previous to making such investment by any such savings bank or savings institution of this State, defaulted in the payment of any part of either principal or interest of any debt authorized by law of such State to be contracted; and provided, further, that the total indebtedness of any such city or county is limited by law to ten per centum of its assessed valuation.

By another act the banks also have the right to invest in railroad bonds under certain restrictions. The authorization was given by Section 2 of an act approved February 22, 1888. Subsequently (April 27, 1889,) this Section 2 was repealed. On March 27, 1890, however, it was again re-enacted. The section is as follows:

SECTION 2. That it shall be lawful for any savings bank in this State to invest its funds in first mortgage bonds of any railroad company which has paid dividends of not less than four per centum per annum regularly, on their entire capital stock, for a period of not less than five years next previous to the purchase of such bonds, or in any consolidated mortgage bonds of any such company authorized to be issued to retire the entire bonded debt of such company.

The other law referred to above amending section 2 of the law of 1878 is as below. It relates to loans on collaterals:

SECTION 2. That hereafter it shall not be lawful for any saving institution in this State to loan the money on deposit with the same, or any part thereof, upon notes, bills of exchange or drafts, excepting upon the additional pledge of collateral security or securities, which collateral security or securities shall be of the same nature and character as those in which the money deposited may be invested, as directed in the first section of this act, or the capital stocks of national and State banks, or other corporations of this State, which have not defaulted in the payment of interest dividends within two years next preceding the time of such loan, and then only to the extent of eighty per centum of the market value of such collaterals; provided, that the total amount of such loans shall not exceed fifteen per centum of the total deposits held by such institution.

In addition to the foregoing (according to section 27 of the general law of 1876) the managers can keep on hand or on deposit in any bank in the State, or in any trust or safe deposit company in New Jersey, New York or Pennsylvania, an available fund of not exceeding ten per cent of the whole amount of deposits with such corporation, or loan the same on pledge of the securities named in the first section cited above. Also (according to section 28 of the general law of 1876) they can deposit temporarily in banks the excess of current daily receipts over payments until such time as they may be judiciously invested.

It will be noticed that the foregoing provisions leave the New Jersey law very broad and liberal.

DEBT LIMITATION—In Pennsylvania the limit to the indebtedness of the State, and the limit to the indebtedness of the cities and minor civil organizations in the State, is fixed by the State Constitution.

1. *State indebtedness.*—With regard to the State, the regulations controlling and governing debt creation, payment, &c., are found in Sections 4, 5, 6, 11, 12, 13 and 14 of Article IX of the Constitution, and are as follows.

ARTICLE IX, Sec. 4. No debt shall be created by, or on behalf of, the State except to supply casual deficiencies of revenue, repel invasions, suppress insurrection, defend the State in war, or to pay existing debt; and the debt created to supply deficiencies in revenue shall never exceed, in the aggregate at any one time, one million of dollars.

SECTION 5. All laws authorizing the borrowing of money by, and on behalf of, the State shall specify the purpose for which the money is to be used, and the money so borrowed shall be used for the purpose specified and no other.

SECTION 6. The credit of the Commonwealth shall not be pledged or loaned to any individual, company, corporation or association, nor shall the Commonwealth become a joint-owner or stockholder in any company, association or corporation.

SECTION 11. To provide for the payment of the present State debt, and any additional debt contracted as aforesaid, the General Assembly shall continue and maintain the sinking fund sufficient to pay the accruing interest on such debt, and annually to reduce the principal thereof by a sum not less than two hundred and fifty thousand dollars; the said sinking fund shall consist of the proceeds of the sales of the public works, or any part thereof, and of the income or proceeds of the sale of any stocks owned by the Commonwealth, together with other funds and resources that may be designated by law, and shall be increased from time to time by assigning to it any part of the taxes or other revenues of the State not required for the ordinary and current expenses of government, and unless in case of war, invasion or insurrection, no part of the said sinking fund shall be used or applied otherwise than in the extinguishment of the public debt.

SECTION 12. The moneys of the State, over and above the necessary reserve, shall be used in the payment of the debt of the State, either directly or through the sinking fund, and the moneys of the sinking fund shall never be invested in or loaned upon the security of anything except the bonds of the United States or of this State.

SECTION 13. The moneys held as necessary reserve shall be limited by law to the amount required for current expenses, and shall be secured and kept as may be provided by law. Monthly statements shall be published, showing the amount of such moneys, where the same are deposited, and how secured.

SECTION 14. The making of profit out of the public moneys, or using the same for any purpose not authorized by law, by any officer of the State, or member or officer of the General Assembly, shall be a misdemeanor, and shall be punished as may be provided by law; but part of such punishment shall be disqualification to hold office for a period of not less than five years.

State loans in Pennsylvania, whether created for original indebtedness or authorized to fund existing indebtedness, are usually negotiated through the Governor and Commissioners of the sinking fund.

The last act of the Pennsylvania Legislature authorizing a public loan was the act of June 8, 1881, when a thirty-year loan was effected to fund existing indebtedness at a lower rate of interest.

The earliest date at which the last of the existing indebtedness of Pennsylvania will mature is February 1, 1912, and under existing arrangements the accumulations in the sinking fund will at that time pay the total State indebtedness.

(2) *County and Municipal Indebtedness.*—Under the laws of Pennsylvania the power to create county loans is in the Board of County Commissioners, which consists in each county of three persons elected tri-ennially under the minority system of voting, by which the minority party in each County usually has one member of the Board.

In cities and boroughs the power to create indebtedness is vested in councils, municipal debts being created by ordinance.

The creation of county, city and other municipal indebtedness is subject to the following constitutional limitations.

ARTICLE IX, Sec. 7. The General Assembly shall not authorize any county, city, borough, township or incorporated district to become a stockholder in any company, association or corporation, or to obtain or appropriate money for, or to loan its credit to, any corporation, association, institution or individual.

SECTION 8. The debt of any county, city, borough, township, school district, or other municipality or incorporated district, except a herein provided, shall never exceed seven per centum upon the assessed value of the taxable property therein, nor shall any such municipality or district incur any new debt, or increase its indebtedness to an amount exceeding two per centum upon such assessed valuation of property, without the assent of the electors thereof at a public election in such manner as shall be provided by law; but an city the debt of which now exceeds seven per centum of such assessed valuation may be authorized by law to increase the same three per centum, in the aggregate at any one time, upon such valuation.

SECTION 9. The Commonwealth shall not assume the debt, or a part thereof, of any city, county, borough or township, unless such debt shall have been contracted to enable the State to repel invasions suppress domestic insurrection, defend itself in time of war, or to assist the State in the discharge of any portion of its present indebtedness.

SECTION 10. Any county, township, school district or other municipality incurring any indebtedness shall, at or before the time of its doing, provide for the collection of an annual tax sufficient to pay the interest, and also the principal thereof within thirty years.

(3) *Townships and School Districts.*—In the various school districts of the State the school directors have the power to create loans, subject to the limitations of Section 10 above quoted, to provide for the redemption of the same within thirty years.

In townships, the only authority, except that of the school directors, to borrow money, is in the road supervisors, who have no power to create bonded indebtedness, but simply to make a temporary loan for necessary expenses, which must be provided for by an assessment of sufficient township tax rate, known as road tax.

The sinking fund on December 1, 1896, held the following securities: Allegheny Valley Railroad bonds, \$1,300,000; interest on same, \$27,083; United States 4 per cent consols, at 105 1/2, \$2,927,625, and cash, \$812,347; total, \$5,067,055.

The unfunded debt mentioned in the above table consists of relief notes in circulation, interest certificates unclaimed, interest certifi-

POPULATION OF STATE.—The population of Pennsylvania has been reported as follows in the years named.

Table with 4 columns: Year (1890, 1880, 1870), Population (5,258,014, 4,282,801, 3,521,051), and another set of years (1860, 1850, 1840) with populations (2,908,215, 2,311,786, 1,724,033).

In the 1860-70 decade the ratio of increase was 21.10 per cent, in the 1870-80 decade 21.81 per cent, and in the 1880-90 decade 22.77 per cent.

SAVINGS BANKS INVESTMENTS—POWERS AND RESTRICTIONS.—Philadelphia is, we believe, entitled to the distinction of starting the first savings institution in the United States. The name this association bore was the "Philadelphia Savings Fund Society," and it still exists, bearing the same name.

It is surprising that Pennsylvania, although engaged in such an early venture in the department of savings institutions, should have made so little progress in the same department since. Indeed, the second organization does not bear date until 1947, and we think there had only been 10 mutual savings institutions organized in the whole State from 1816 down to the early part of 1890.

The provisions of the special charters are all liberal as to investments. A law passed in 1893, and a supplement of the same passed in 1899, authorizing the extension for twenty years of special charters, contains the following.

"Provided also, that no Savings Institution or Savings Bank having no capital stock, renewing or extending its charter, corporate rights and franchises, under the provisions of this act, shall thereafter be allowed the privilege of a bank of discount, nor be allowed to loan any money received on deposit, EXCEPT first mortgage or lien upon real estate within this commonwealth, upon the bonds or securities of the United States or of this State, or upon county, city, borough, township or school bonds of any county, city, borough, township or school district within this commonwealth, or any other good and valid securities."

Authority to loan on any "good and valid security" appears to confer about as broad a discretion upon the managers as could be expressed in a statute.

It was not until 1899, as already stated, that a general law facilitating the organization of savings institutions was passed. That law of 1899 is indeed well adapted not only for facilitating, but for stimulating, the growth of the system.

SECTION 17.—It shall be lawful for the trustees of any savings bank to invest money deposited therein only as follows: (1) In the stocks or bonds or interest-bearing notes or the obligations of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and the principal.

In the stocks or bonds of the Commonwealth of Pennsylvania or of any other State.

In the stocks or bonds of any State in the Union that has not within ten years previous to making such investments, by such corporation, defaulted in the payment of any part of either principal or interest of any debt authorized by any Legislature of such State to be contracted.

In the stocks or bonds of any city, county, town or village of any State of the United States, issued pursuant to the authority of any law of the State, or in any interest-bearing obligation issued by the city or county in which such bank shall be situated.

In bonds and mortgages on unincumbered, improved real estate, issued in this State.

It will be noted that according to the foregoing (sub-division 17), Pennsylvania Savings Banks are allowed to invest their funds in the bonds and stocks of any city, county town or village in any of the United States. Furthermore, by the fifth subdivision bonds and mortgages are left to the discretion of the trustees in all purchases, except that they must be first mortgages on improved real estate in Pennsylvania.

HISTORY OF DEBT.—The historical details of Delaware's State debt from 1865 to the present time will be found in the STATE AND CITY SUPPLEMENT of April, 1894, page 72. The present extent and condition of the debt and resources of the State are given below, and show that Delaware now holds good assets more than equaling its liabilities.

INTEREST.—On a part of the bonds of series "B" and of the "Issue of 1885" is payable at the Philadelphia National Bank in Philadelphia; on the re-issuance of 1889 loan interest is payable at the Farmers' Bank of Wilmington, Del.

TOTAL DEBT, ETC.—The total funded debt at the date of our last returns was \$684,750. Total assets were \$1,051,396; assets in excess of liabilities \$366,646. The total assets include bank stocks \$475,092; mortgages on railroads \$395,000, and bonds, \$161,750. The total debt in 1890 was \$1,082,440; in 1880 it was \$890,750.

ASSESSED VALUATION.—The total assessed valuation of the State in 1890 was \$74,134,401; in 1880 it was \$59,951,643.

DEBT LIMITATION.—Neither the Constitution nor the State statutes contain any general provisions authorizing bond issues or limiting the debt-making power. The whole authority, both as regards the State and its municipalities, rests with the Legislature, and the Legislature always passes special acts to provide for special occasions and needs. Consequently each loan put out by a municipality in Delaware rests on the law authorizing it, and the amount of future loans rests on the discretion first of the city or town and finally of the Legislature. In such an old conservative State there is probably no danger of the people of any town or city ever overstepping the limit of safety, or if they should desire to, that the Legislature would authorize it.

POPULATION OF STATE.—The population of Delaware has been as follows in the years mentioned:

1890.....	168,493	1840.....	112,216	1830.....	76,749
1880.....	146,609	1850.....	81,532	1820.....	72,749
1870.....	125,015	1840.....	78,085	1810.....	72,674

From 1860 to 1870 the addition to population was 12,790, or 11 1/4 per cent; from 1870 to 1880 21,593, or 17-27 per cent; and from 1880 to 1890 21,885, or 14-93 per cent.

DEBT LIMITATION.—There is nothing in the Constitution of Maryland limiting the power of the Legislature to authorize bond issues

either by the State or by its municipalities. No general limit for cities and towns has been fixed by the Legislature, nor is there any general authorization to be found in the statutes under which cities and towns can issue bonds.

POPULATION OF STATE.—Maryland, has greatly increased her population since the inauguration of the Federal Government, though necessarily she has not gained as fast as some other States particularly the newer Western States, and consequently has had to yield in rank to them.

1890.....1,042,390 | 1860.....687,049 | 1830.....447,040
1880.....934,943 | 1850.....583,034 | 1820.....407,350
1870.....780,894 | 1840.....470,019 | 1810.....380,546

Of the total population in 1880 22.49 per cent was colored and in 1890 20.92 per cent. In number, blacks were 165,091 in 1850; 171,131 in 1860; 175,391 in 1870; 210,230 in 1880; and 218,004 in 1890.

SAVINGS BANKS INVESTMENTS.—There are in this State general banking laws under which savings banks may be organized, and yet we notice that even in 1890 a special charter was granted incorporating the Germania Savings Bank of Baltimore. However, in both the general and special laws there appears to be a pretty general authority granted for investing the deposits. The general law states that—

Any savings institution incorporated under this article shall be capable of receiving from any person or persons, or bodies corporate or politic, any deposit of money which shall be invested or loaned out on good security in the discretion of the directors; provided that no part of the funds of said corporation shall be loaned to any officer or director of such corporation.

In the special law passed in 1890, which we have referred to above, the power to loan the deposits is made a little more definite. The section referring to that subject states that the "corporation shall have power to borrow money, receive money on deposit, loan money taking such security therefor, either real or personal, as the Board of Directors may deem sufficient; provided that no part of the funds of said corporation shall be loaned to an officer or director thereof."

We cannot discover any marked difference in the two provisions cited, except that the enactment in the case of the new Baltimore bank states distinctly that the security can be either real or personal. But as much as that would, we think, be assumed as authorized under the general provision, since no limit is made and loaning on bond and mortgage is always a legitimate part of the business of savings banks.

District of Columbia.

(INCLUD'G THE LATE CORPORATION OF WASHINGTON.)

On July 1, 1878, the duties of the Sinking Fund Commissioners of the District of Columbia were transferred to the Treasurer of the United States, and since that date Congress has appropriated annually a sum sufficient to pay not only the interest on the District's bonds but also, it is believed, sufficient to extinguish the entire debt of the District upon the maturity of the 3-65 per cent loan, in 1924. Bonds are tax exempt.

The state tax (per \$1,000) for 1896 was \$2.84.

DEBT LIMITATION.—Ohio has very carefully guarded the debt-making power of the State. This could not be said while the Constitution of 1802 was in force; for under that instrument it was competent for the Legislature to construct works of internal improvement on behalf of the State, or to aid in their construction by subscribing to the capital stock of corporations created for that purpose, or to authorize in other ways the creation of debt in unlimited amounts. But since the

adoption of the Constitution of 1851 the whole situation in these particulars has changed, the legislative power with respect to the State having been limited. The same is in large measure true also of the municipalities.

FIRST, As to the State's power to contract debt, this is regulated under the first five sections of article 8 of the Constitution. Section 1 limits the power to the supply of "casual deficits in revenues or to meet expenses not otherwise provided for," but in the aggregate debts for even the purposes named cannot exceed \$750,000. Section 2 contains an exception to the foregoing; it grants the power to contract debt in case of invasion, of insurrection, of war or of the redemption of the then existing indebtedness. Section 3 reaffirms the limit, except as above specified. Section 4 forbids the loaning of the State credit. Section 5 further forbids the assumption of debts by States. We insert these five sections in full

SECTION 1. [Debt limited to seven hundred and fifty thousand dollars.] The State may contract debts to supply casual deficits or failures in revenues or to meet expenses not otherwise provided for; but the aggregate amount of such debts direct and contingent whether contracted by virtue of one or more acts of the General Assembly, or at different periods of time, shall never exceed seven hundred and fifty thousand dollars; and the money arising from the creation of such debts shall be applied to the purpose for which it was obtained or to re-pay the debts so contracted and to no other purpose whatever.

SECTION 2. [Additional and for what purpose.] In addition to the above limited power the State may contract debts to repel invasion suppress insurrection, defend the State in war, or to redeem the present outstanding indebtedness of the State; but the money arising from the contracting of such debts shall be applied to the purpose for which it was raised, or to re-pay such debts, and to no other purpose whatever and all debts incurred to redeem the present outstanding indebtedness of the State shall be so contracted as to be payable by the sinking fund hereinafter provided for as the same shall accumulate.

SECTION 3. [The State to create no other debt.] Except the debts above specified in Sections 1 and 2 of this article, no debt whatever shall hereafter be created by or on behalf of the State.

SECTION 4. [Credit of State; the State shall not become joint owner of stockholder.] The credit of the State shall not in any manner be given or loaned to or in aid of any individual association or corporation whatever; nor shall the State ever hereafter become a joint owner or stockholder in any company or association in this State or elsewhere formed for any purpose whatever.

SECTION 5. [No assumption of debts by the State.] The State shall never assume the debts of any county, city, town or township, or of any corporation whatever, unless such debt shall have been created to repel invasion, suppress insurrection or defend the State in war.

The foregoing sections complete the limitation as to State debt and credit. Sections 7, 8, 9, 10 and 11 of Article 8 cover the matter of sinking funds referred to in Section 2 above. But they need not be published here.

SECOND, As to Cities, Towns, Counties, &c., so far as the Constitution affects the power of the Legislature to authorize these municipalities to create debt, the limitations are found in section 6 of article 8 and in sections 1, 2 and 6 of article 13. (1) Section 6 of article 8 forbids the General Assembly to authorize cities &c., to become stockholders in or to raise money or loan credit to aid corporations, &c. (2) Sections 1 and 2 of article 13 forbid the passing of special acts and require general acts for conferring corporate powers. (3) Section 6 of article 13 provides that the General Assembly make provision for the organization of cities, &c., by general laws and restrict their debt-making power. These sections are as follows:

ARTICLE 8, Section 6. [Counties, cities, towns or townships not authorized to become stockholders, &c.] The General Assembly shall never authorize any county, city, town or township, by vote of its citizens or otherwise, to become a stockholder in any joint stock company, corporation or association whatever; or to raise money for, or loan its credit to, or in aid of, any such company, corporation or association.

ARTICLE 13, Section 1. [Corporate powers.] The General Assembly shall pass no special act conferring corporate powers.

Section 2. [Corporations how formed.] Corporations may be formed under general laws; but all such laws may from time to time be altered or repealed.

Section 6. [Organization of cities, &c.] The General Assembly shall provide for the organization of cities and incorporated villages by general laws and restrict their power of taxation, assessment, borrowing money, contracting debts and loaning their credit, so as to prevent abuse of such power.

One at first sight would infer from section 6 article 8 above cited that cities could not subscribe to the stock of or loan money to railroads, as railroads are corporations and joint-stock companies. That, however, is not a correct conclusion, as was decided in the case of Walker vs. The City of Cincinnati, a case which arose under an act of the General Assembly of Ohio entitled "An Act relating to cities of the first class," authorizing any such city to construct a line of railroad therefrom to any other terminus in that State or in any other State. In pursuance of the authority that act purports to give, Cincinnati undertook to build the Cincinnati Southern Railroad. To test the legality of that proceeding this action was brought. The Court's opinion is very full and explicit, the conclusion being that from "the language of the section it is quite evident that it was not intended to prohibit the construction of railroads nor indeed to prohibit any species of public improvements. The section contains no direct reference to railroads nor to any other special classes of improvements or enterprizes. The prohibitions are directed only against a particular manner or means by which under the Constitution of 1802 many public improvements had been accomplished."

In compliance with section 6, article 13 (cited above), which provides for the organization of cities etc. by general law, the Legislature has made an elaborate classification of municipal corporations. First they are divided into cities, villages and hamlets. Then cities are divided into two classes, the first class being subdivided into three grades and the second class being subdivided into four grades, the grade being determined by population according to the last Federal Census.

CITIES IN THE FIRST CLASS—First grade includes all cities of more than 200,000 inhabitants; second grade all less than 200,000 and more than 90,000 inhabitants; third grade all less than 90,000 and more than 31,500 inhabitants.

CITIES IN THE SECOND CLASS—First grade includes all cities of less than 31,500 and more than 20,500 inhabitants; second grade all less than 20,500 and more than 20,000 inhabitants; third grade all less than 20,000 and more than 10,000 inhabitants; fourth grade all less than 10,000 and more than 5,000 inhabitants.

VILLAGES—Of the first class include all having less than 5,000 and more than 3,000 inhabitants; the second class includes all having less than 3,000 and more than 200 inhabitants.

HAMLETS—According to section 1550 of the Revised Statutes all existing corporations organized as "incorporated villages for special purposes shall be hamlets until advanced to villages."

It is impossible to make any satisfactory generalization with regard to the bonding power the Legislature has granted these municipalities. There are a few sections of the Revised Statutes authorizing bond issues which have a universal application, such as the provision granting power to issue bonds in anticipation of special assessments but most of the laws for that purpose cover only one class of cities, and many of them are so worded as to apply only to one city, and granting an issue of bonds for a specific purpose. No general laws limiting the powers of municipalities to incur indebtedness have been passed, although section 6, article 13, appears to require it. And yet is it not a question whether that section calls for any legislation of a general nature except a general law "for the organization of cities, &c."?

POPULATION OF STATE—The population of Ohio has been as follows in the years named.

The total tax rate (per \$1,000) for 1895 was \$2.96 2/3, including Benovolent Institution tax \$0.50, school tax \$1.10, State debt sinking fund tax \$0.30, and Educational Institution tax \$0.16 2/3, in addition to the general fund tax of \$0.90 as given above.

DEBT LIMITATION.—In the present Constitution of Indiana, which went into effect November 1, 1851, superseding the Constitution adopted in 1816, there are explicit provisions limiting the power of both the State and its municipalities to contract debt.

FIRST, as to the State, Section 5 of article 10 provides that no debt except to meet casual deficits in revenue, to pay interest, to repel invasion &c. can be contracted. The section in full is subjoined.

CREATION OF DEBT FORBIDDEN.—No law shall authorize any debt to be contracted on behalf of the State except in the following cases: To meet casual deficits in the revenue; to pay interest on the State debt; to repel invasion, suppress insurrection, or, if hostilities be threatened, provide for the public defense.

In the sixth section of the same article the last clause prohibits the assumption by the State of the debts of any municipality or corporation. The clause referred to reads as follows.

Nor shall the General Assembly over on behalf of the State assume the debts of any county, city, town or township, nor of any corporation whatever.

SECOND, as to municipalities, the provision contained in the Constitution seems to be equally clear and emphatic, and, as will be found, fixes the limit at 2 per cent of the valuation. It is article 13 of that instrument which relates to this subject, and we give the article in full below.

LIMITED—EXCESS VOID.—No political or municipal corporation in this State shall over become indebted in any manner or for any purpose to an amount in the aggregate exceeding two per centum on the

valuation of the taxable property within such corporation, to be ascertained by the last assessment for State and County taxes previous to the incurring of such indebtedness; and all bonds or obligations in excess of such amount given by such corporation shall be void; *Provided*, That in time of war, foreign invasion, or other great public calamity, on petition of a majority of the property owners in number and value, within the limits of such corporation, the public authorities in their discretion may incur obligations necessary for the public protection and defense to such an amount as may be requested in such petition.

THIRD, counties (but no other kind of municipality) are prohibited from subscribing for any stock in a corporation unless paid for at time of such subscription. The section which covers this subject is section 6 of article 10, and is as follows.

Counties cannot take stock. No county shall subscribe for stock in any incorporated company unless the same be paid for at the time of such subscription; nor shall any county loan its credit to any incorporated company, nor borrow money for the purpose of taking stock in any such company; nor shall the General Assembly ever on behalf of the State assume the debts of any county, city, town or township, nor of any corporation whatever.

The prohibition which this section contains applies, as already stated, only to counties. Consequently the Legislature was at liberty to authorize cities to subscribe to the stock of railroads, as it did by a general law passed in 1867 granting the power to subscribe to the stock of any railroad running into or through any city or near its corporate limits. Other laws of a somewhat similar character have been passed at other dates. We notice one law too which authorizes counties bordering on the State line to subscribe for railroad stock and to issue bonds for the purpose of paying the subscription. In view of the above section this grant of power extended to counties would seem to be at least questionable.

COUNTIES are apparently restricted by statute to a lower than the Constitutional limit of 2 per cent in the matter of creating debt. For instance, Section 5,749 of the Revised Statutes authorizes any county to issue bonds when necessary to construct, complete or repair court house, jail or other county buildings, or to fund existing debt; in those cases county commissioners may borrow for that purpose not exceeding 1 per cent on assessed valuation and issue bonds therefore.

Sinking fund for payment of bonds must be provided by levying a tax of not less than one-tenth of one per cent on the taxable property of the county in addition to a specific levy to provide for interest. (See Revised Statutes, Section 5,753).

Limit of one per cent may be exceeded in counties where construction of court house was begun before January, 1885, and where the ordinary revenues, together with 1 per cent of the taxable property, are not sufficient for completion—in such cases, and where the exigencies absolutely demand it, bonds not to exceed 1 per cent of valuation in addition to previous debt may be issued.

Limit of one per cent cannot be exceeded except for temporary loans in any county having a voting population of twenty thousand; temporary loans are authorized in anticipation of revenue for current fiscal year, payable out of such revenue within such fiscal year, and not for exceeding two-thirds of the tax duplicate of such the preceding year; but no temporary loans are permissible until all temporary loans upon the revenue of any preceding year have been paid. Any ordinance, order, resolution, obligation, contract, note or other evidence of indebtedness to increase the debt of such county shall be absolutely null and void.—(See Revised Statutes, Section 5,818).

In addition to the foregoing, general statutes have been passed by the Legislature granting general powers to cities and towns of fifteen thousand inhabitants or over to issue bonds for legitimate corporate purposes, subject, however, to the Constitutional limit of 2 per cent on valuation. But we have not the space to set out here the details, or the details of the other legislation applicable to cities of larger and smaller population, and covering specific purposes, such as water works, &c.

POPULATION OF STATE.—The population of Indiana has been as follows in the years named.

HISTORY OF DEBT.—The historical details of the State debt of Illinois from 1829 to 1870, when the debt was all paid off, will be found in the STATE AND CITY SUPPLEMENT of April 1894, page 91.

BONDED DEBT.—This State had on January 1, 1897, no bonded debt, except \$18,500 bonds which have ceased to draw interest, but have not yet been surrendered for payment.

ASSESSED VALUATION.—The total assessed valuation has been as follows in the years named.

Years.	Assessed Val.	Years.	Assessed Val.	Years.	Assessed Val.
1896	\$731,201,463	1883	\$784,911,874	1882	\$809,995,895

DEBT LIMITATION.—No State has developed a greater repugnance to the creating of debt than Illinois, if we may judge from the provisions of its present Constitution. We say developed, because this antagonism has apparently been progressive. Nothing of it is to be found in the Constitution of 1818. The Constitution of 1848 contains no reference to municipalities, but has in it stringent restrictions limiting to \$50,000 the power of the Legislature to create State debt, except in case of war, invasion, etc., unless the law proposing the issue of bonds is submitted to a vote of the people. But turning to the Constitution of 1870 we find the whole subject of debt-making most thoroughly considered and its basis settled.

FIRST, as to the State, the provisions are not very unlike the provisions of the Constitution of 1848, except that as to the limit for casual deficits and failures in revenues, the aggregate which can be created is very properly raised to \$250,000. But with that exception and with the further exception for the purpose of repelling invasion etc. no debt can be contracted unless the law is submitted to a vote of the people at a general election, which law must contain a provision for the payment of interest as it accrues, and previous notice of the election be given by publication for three months prior to such election. These last two restrictions as to interest and notice of election are only found in the 1870 Constitution. The sections which cover these matters are as follows; we omit the first portion of Section 18, which relates only to appropriations and payment of appropriations out of funds belonging to the State:

SECTION 18. * * * * * *Provided,* the State may, to meet casual deficits or failures in revenues, contract debts never to exceed in the aggregate \$250,000; and moneys thus borrowed shall be applied to the purpose for which they were obtained, or to pay the debt thus created, and to no other purpose; and no other debt except for the purpose of repelling invasion, suppressing insurrection or defending the State in war (for payment of which the faith of the State shall be pledged), shall be contracted, unless the law authorizing the same shall at a general election have been submitted to the people, and have received a majority of the votes cast for members of the General Assembly at such election. The General Assembly shall provide for the publication of said law for three months at least before the vote of the people shall be taken upon the same; and provision shall be made at the time for the payment of the interest annually as it shall accrue, by a tax levied for the purpose or from other sources of revenue; which law, providing for the payment of such interest by such tax, shall be irrevocable until such debt be paid; *And provided further,* that no law levying the tax shall be submitted to the people with the law authorizing the debt to be contracted.

SECTION 20. The State shall never pay assume or become responsible for the debts or liabilities of, or in any manner give, loan, or extend its credit to or in aid of any public or other corporation, association or individual.

Nothing needs to be added in explanation of the foregoing. The provisions seem to be explicit and to guard most wisely the creation of State debt.

SECOND, municipal indebtedness is regulated only in the Constitution of 1870. In that instrument the subject is dealt with in all its phases. *First* a provision in Article 8, Section 3, forbidding the General Assembly and every municipality from making any appropriation in aid of any sectarian purpose. *Second* is a "separate section" forbidding any such municipality from becoming a subscriber to the stock of any railroad &c. or to loan its credit. *Third* is the broad and general provision, Section 12, Article 9, which limits the indebtedness of all municipalities to 5 per cent "on the value of the taxable property therein," &c. We give these sections below:

ARTICLE 8, Section 3. Neither the General Assembly nor any county, city, town, township, school district, or other public corporation, shall ever make any appropriation, or pay from any public fund whatever, anything in aid of any church or sectarian purpose, or to help support or sustain any school, academy, seminary, college, university, or other literary or scientific institution controlled by any church or sectarian denomination whatever; nor shall any grant or donation of land, money or other personal property ever be made by the State, or any such public corporation, to any church or any sectarian purpose.

ARTICLE 9, Section 12. No county, city, township, school district or other municipal corporation shall be allowed to become indebted in any manner or for any purpose, to an amount, including existing indebtedness, in the aggregate exceeding five per centum on the value of the

taxable property therein, to be ascertained by the last assessment for State and county taxes, previous to the incurring of such indebtedness. Any county, city, school district or other municipal corporation incurring any indebtedness as aforesaid shall before, or at the time of doing so, provide for the collection of a direct annual tax sufficient to pay the interest on such debt as it falls due, and also to pay and discharge the principal thereof within twenty years from the time of contracting the same. This section shall not be construed to prevent any county, city, township, school district, or other municipal corporation, from issuing their bonds in compliance with any vote of the people which may have been had prior to the adoption of this Constitution in pursuance of any law providing therefor.

SEPARATE SECTIONS. [Municipal subscriptions to railroads etc.] No county, city, town, township or other municipality shall ever become a subscriber to the capital stock of any railroad or private corporation, or make donation to or loan its credit in aid of such corporation, *provided, however,* that the adoption of this article shall not be construed as affecting the right of any such municipality to make such subscriptions where the same have been authorized, under existing laws, by a vote of the people of such municipalities prior to such adoption.

The foregoing limitation to 5 per cent is general, as will be seen—that is, it applies to all municipalities. With this limitation preserved the Legislature has passed general laws authorizing the city council in cities and the board of trustees in villages to issue bonds for corporate purposes, for refunding and consolidating debt, for water works, etc.; and the county board of any county has been authorized by general statute to issue, when it deems it necessary, county bonds, after subjecting the matter to the legal voters of the county at a general election, at which a majority vote is required as a prerequisite of the issue. In all these general laws, however, it is provided, according to Section 12, Article 9, of the Constitution, that in no case must the aggregate indebtedness exceed five per cent of the taxable property therein.

IMPROVEMENT BONDS.—There is a kind of improvement bond authorized in some cases which is made a special lien on the land benefited and to which the 5 per cent limit has no reference. We refer to cases which come under the law entitled "To divide cities and villages subject to overflow into improvement districts." This statute provides that any such city or village or part thereof may be laid off into an improvement district for the purpose of draining, raising the grade of the streets and improving the district; that after the cost for the work has been ascertained and been assessed, the assessment may be paid in instalments or otherwise and such city or village may issue bonds sufficient to pay the assessment. In that case the bonds are a lien on the lots, blocks or parts thereof which shall be designated therein; but before the issue the owner of the lots, etc., to be charged must endorse upon the back of such bond his consent under seal, in substance as follows: "I hereby indorse the within bond and consent that the lot or lots or parts thereof therein designated shall become liable for the interest and principal therein named and the same shall be a lien upon said property from this date until paid 'off and discharged.'" The bond when executed by the city or village and so endorsed by the owner shall be recorded in the recorder's office in the county, and such record shall be a notice of the lien created to the same extent as the record of mortgages is a notice.

We have room to give only this very brief and imperfect outline of this statute. The whole law will be found in the Revised Statutes of Illinois, the 1889 edition, page 303. To understand the real cause and occasion for all this machinery, one should study also the previous statute (page 299, &c.) which authorizes cities, &c., to protect themselves from overflow and inundation and control private levees, &c. After having read the two laws it will be found that the district improvement bond has been devised as a relief measure, and that it affords a wise and ingenious method for helping those in mere moderate circumstances who have been taxed for a very necessary improvement to pay the tax by instalments.

POPULATION OF STATE.—The population of Illinois has been reported as follows in the years named.

1890	3,826,351	1860	1,711,951	1830	157,445
1880	3,077,871	1850	851,470	1820	53,162
1870	2,539,891	1840	476,183	1810	12,282

Taking the last three decades, the increase of population between 1860 and 1870 was 827,940, or 48'36 per cent; between 1870 and 1880 537,980, or 21'18 per cent; and between 1880 and 1890 748,480, or 24'32 per cent.

Table with columns: Description, Date. Includes information on Michigan's admission as a state, total area, state capital, and government officials.

HISTORY OF DEBT.—The historical details of Michigan's State debt will be found in the STATE AND CITY SUPPLEMENT of April, 1894

page 98. In 1864 the State Treasurer reported the funded debt at \$3,880,309, and \$1,450,472 additional "Trust fund debt." The only bonded debt March 1, 1897, was \$19,000 of "past-due part paid \$5,000,000 loan bonds" adjustable at \$78.57 per \$1,000, amounting to \$10,892.83; the bonds have never been presented for payment and bear no interest. The "Trust fund debt" on the same date amounted to \$5,766,702.72.

ASSESSED VALUATION.—Since 1856 the equalized valuation has been determined only once in five years. The following shows the equalized valuation and tax rate for State purposes for every fifth year since 1848.

Year.	Assessed Val.	Tax Rate.	Year.	Assessed Val.	Tax Rate.
1848.....	\$946,009,941	\$1.41	1866.....	\$307,965,843	\$1.889
1851.....	1,130,000,000	1.277	1861.....	172,055,809	2.697
1856.....	945,450,000	1.272	1856.....	137,663,009	0.472
1861.....	810,000,000	1.411	1851.....	30,976,270	3.421
1876.....	630,000,000	1.144	1846.....	29,369,065	2.50
1871.....	630,000,000	1.201			

In 1896 the assessed valuation of real estate was \$605,553,976; personal property, \$140,455,963; total valuation, \$746,009,941.

DEBT LIMITATION.—Michigan, as noted in our History of the State Debt, started its career as a State in January 1837, when the whole land was buoyant over its inflated enterprises carried on at public expense. So to be abreast with the times, instead of putting any limit on the power of the State to create debt, it put into its Constitution a notice to the Legislature to go to work at once and make provision for "ascertaining the proper objects of improvement in relation to roads, " canals and navigable waters," that the money might be raised and these improvements might be prosecuted with as little delay as possible.

That was the spirit which ruled and the condition which prevailed in 1837. In 1850 Michigan made and adopted another Constitution. During the years which intervened the people had gained a wide experience and had evidently profited by it. Hence we find them at the latter date showing a purpose to make an instrument in its financial features about as dissimilar from the one it was to supplant as it could well be. Nothing will illustrate this change in spirit and purpose more clearly than the following limitations respecting the creation of State indebtedness which were inserted. These sections are all found in article 14 of the 1850 Constitution, which Constitution is still in force.

SECTION 3. The State may contract debts to meet deficits in revenue. Such debts shall not in the aggregate at any one time exceed fifty thousand dollars. The moneys so raised shall be applied to the purposes for which they were obtained or to the payment of the debts so contracted.

SECTION 4. The State may contract debts to repel invasion, suppress insurrection or defend the State in time of war. The money arising from the contracting of such debts shall be applied to the purpose for which it was raised or to pay such debts.

SECTION 6. The credit of the State shall not be granted to or in aid of any person, association or corporation.

SECTION 7. No scrip, certificate, or other evidence of State indebtedness shall be issued except for the redemption of stock previously issued or for such debts as are expressly authorized in this Constitution.

SECTION 8. The State shall not subscribe to, or be interested in the stock of any company, association or corporation.

SECTION 9. The State shall not be a party to, or interested in, any work of internal improvement, nor engage in carrying on any such work except in the expenditure of grants to the State of land or other property.

The foregoing sections appear to cover every branch and phase of the subject; and compared with the Constitution of 1837 what a contrast they afford!

Cities and villages, however, were left by the 1850 instrument to the discretion of the Legislature in the matter of restrictions upon their borrowing power. The provision which relates to this subject is found in Article 15, Section 13, and is as follows:

SECTION 13.—The Legislature shall provide for the incorporation and organization of cities and villages, and shall restrict their powers of taxation, borrowing money, contracting debts and loaning their credit.

In the exercise of the power granted by this section the Legislature has passed general laws governing the incorporation, taxation and bonding of cities and villages. With regard to cities the chief provisions with respect to taxation and bond issues will be found in the second volume of the 1890 revision of Howell's Annotated Statutes of Michigan, Chapter 22, on "Finance and Taxation," pages 629 to 702, Sections 2663 to 2730. The sections which mainly cover these points are the following—we give the substance not the words of the section:—

Taxes, And in what amount they can be laid, are defined in Section 2667 to Section 2701.

Section 2697 provides that the maximum amount which the council may raise by general tax for all general purposes (except schools and school house purposes and except as otherwise provided below) shall not exceed in any one year—

In cities having a population not over 6,000.....	1 1/4 per cent
In cities larger than 6,000 but not over 9,000.....	1 1/2 per cent
In cities larger than 9,000 but not over 14,000.....	1 3/4 per cent
In cities having more population than 14,000.....	2 per cent

SECTION 2699 provides that the council may also raise in each street district not exceeding one fourth of one per cent.

SECTION 2699 provides that in addition to above the council may raise by special assessment in sewer and in special assessment districts for improving streets and constructing sewers (chargeable on lands in district according to frontage or benefits) not exceeding in one year 5 per cent.

SECTION 2700 provides that a tax of not more than two dollars per year may be levied upon each lot or premises drained by a private sewer or drain leading into a public sewer or drain.

SECTION 2701 provides that the council may also raise such further sum, not exceeding three mills on the dollar of assessed valuation, as may be necessary to provide an interest and sinking fund to pay funded debt.

Loans, When allowed and amount indicated.

SECTION 2709. Provides that no public work shall be contracted or commenced until a tax shall have been levied to pay cost.

SECTION 2710. Instead of levying a tax for whole amount authorized by this act in any year for the general and street district funds, the council may raise part by tax and part by loan—the aggregate of both not exceeding amount for which tax might have been levied in the year.

SECTION 2711. Council also authorized to raise moneys by loan in anticipation of receipts from special assessments.

SECTION 2712. If any greater amount is required for erecting public buildings, or for purchase of ground for same, or for other public improvements or purposes than can be raised by the council under the foregoing provisions, such amount may be raised by tax or loan or partly by tax and partly by loan if authorized by a majority vote of the electors voting upon the question at an annual city election. The amount that may be so raised in any year shall not exceed two per cent of assessed valuation.

SECTION 2713. The proposition to raise such additional amount must be submitted by an ordinance distinctly stating the purpose of proposed expenditure, the amount proposed, and whether to be raised by tax or loan. Such ordinance shall be passed, published in one newspaper of city, and copies posted in five most public places in each ward of city, at least two weeks before the election—vote shall be by ballot.

SECTION 2717. No loans made exceeding amounts prescribed in this act. For loans lawfully made bonds of the city may be issued bearing a legal rate of interest. Record to be kept by city clerk. When deemed necessary by council new bonds may be issued in place of former bonds falling due. Each bond shall show upon its face the class of indebtedness to which it belongs and from what fund payable.

The foregoing provisions apply to cities. The law relating to villages with reference to the same subject is so nearly of a like character as not to need reciting.

POPULATION OF STATE.—The population of Michigan has been as follows in the years named:

1894.....	2,241,000	1890.....	749,113	1830.....	31,639

Total.....	\$2,231,000

DEBT LIMITATION.—The constitutional provisions of Wisconsin restricting debt-making are very rigorous, plain and comprehensive. Since the amendment adopted in 1874, cities &c., as well as the State, are definitely limited by that instrument. We will give the provisions first which relate to the State and after that those which have reference to cities, &c.

1) **STATE** indebtedness is confined within very close bounds. It seems as if the framers of the Constitution must have taxed to the extreme their ingenuity for forms in which to express their determination to inhibit debt-making. The sections which cover the subject are sections 3, 4, 6, 7, 9 and 10 of Article 8. We give them in full below.

SECTION 3. Credit of State, for what not given. The credit of the State shall never be given or loaned in aid of any individual, association or corporation.

SECTION 4. Contracting debts. The State shall never contract any public debt, except in the cases and manner herein provided.

SECTION 6. Limitation on public debt. For the purpose of defraying extraordinary expenditures, the State may contract public debts (but such debts shall never in the aggregate exceed one hundred thousand dollars). Every such debt shall be authorized by law, for some purpose or purposes to be distinctly specified therein; and the vote of a majority of all the members elected to each House, to be taken by yeas and nays, shall be necessary to the passage of such law; and every such law shall provide for levying an annual tax sufficient to pay the annual interest of such debt, and the principal within five years from the passage of such law, and shall specially appropriate the proceeds of such taxes to the payment of such principal and interest; and such appropriation shall not be repealed, nor the taxes be postponed, or diminished, until the principal and interest of such debt shall have been wholly paid.

SECTION 7. State may borrow money, when. The Legislature may also borrow money to repel invasion, suppress insurrection or defend the State in time of war; but the money thus raised shall be applied exclusively to the object for which the loan was authorized, or to the repayment of the debt thereby created.

SECTION 9. Evidence of debt. No scrip, certificate, or other evidence of State debt, whatsoever, shall be issued, except for such debts as are authorized by the sixth and seventh sections of this article.

SECTION 10. Internal improvements—grants of grants. The State shall never contract any debt for works of internal improvement, or be a party in carrying on such works, but whenever grants of land or other property shall have been made to the State, especially dedicated by the grant to particular works of internal improvement, the State may carry on such particular works, and shall devote thereto the avails of such grants, and may pledge or appropriate the revenues derived from such works in aid of their completion.

(2) **CITIES, counties, towns, villages, &c.,** were unrestricted except by legislative enactment until 1874. Since that amendment was adopted *five per cent* on the value of the taxable property has been the extreme amount of debt permissible for any municipality. Not only is that the case, but, as will be seen, the municipality is required before or at the time when it incurs any indebtedness, to make provision for an annual tax sufficient to pay the interest and also sufficient to pay the principal within twenty years from the time of contracting the debt. We give below the amendment referred to in full.

Limitation of Municipal Indebtedness—Adding to Section 3, Article 11, the words:

No county, city, town, village, school district, or other municipal corporation, shall be allowed to become indebted in any manner or for any purpose, to any amount, including existing indebtedness in the aggregate exceeding five per centum on the value of the taxable property therein, to be ascertained by the last assessment for State and county taxes previous to the incurring of such indebtedness. Any county, city, town, village, school district, or other municipal corporation incurring any indebtedness, as aforesaid, shall before or at the time of doing so provide for the collection of a direct annual tax sufficient to pay the interest on such debt as it falls due, and also to pay and discharge the principal thereof within twenty years from the time of contracting the same.

On April 29, 1893, a new law passed by the Legislature of Wisconsin was approved by the Governor which gives general authority for the issuance of bonds to cities operating under special charters granted by the State, and containing a population of three thousand or more inhabitants, as follows. *This authority is of course subject to the foregoing provisions of the Constitution.*

For the erection and construction of a city hall and the purchase of a site for the same.

For the construction and extension of water works or the purchase of the same, and for constructing sewers, and for the improvement and maintenance of the same.

For the erection, construction and completion of school buildings and the purchase of school sites.

For the purchase of sites for engine houses, for fire engines and other equipments of the fire department, and for the construction of engine houses.

For the purchase of sites for police stations and for the construction of buildings thereon for the use of the police department.

For the construction of viaducts, bridges, and for repairs of the same.

For the erection and construction of library and museum buildings and the purchase of sites for the same.

For the establishment of public baths and hospitals and the purchase of sites for the same.

For the purchase of lands for public parks and improvements thereof and for the payment of purchase money and interest thereon which may be or become due for park lands already acquired or contracted for.

For permanently improving streets in such city, and for creating a fund out of which to advance the cost of repairs to sidewalks in anticipation of the collection of special assessments for such cost of repairs by the Treasurer of such city.

For the construction or purchase of electric or gas light plants for lighting streets and public buildings.

The law further provides that bonds issued under this act shall bear interest, payable annually or semi-annually, at a rate not exceeding 6 per cent per annum; that the Common Council shall annually levy a tax upon all the taxable property sufficient to pay the annual interest thereon, and to provide a sinking fund each year equal to 5 per cent on the principal of said bonds; that no bonds shall be issued so that the amount thereof, together with all the other indebtedness of the city, shall exceed 5 per cent of the assessed valuation of the city and also that the bonds shall show on their face the amount of indebtedness of the city issuing the same, the annual amount of the assessment of the taxable property therein for the five years next preceding the issue, and the average amount thereof, and they shall not be sold for less than their par value and accrued interest.

No system could be devised better adapted for keeping municipal debt at a minimum than the foregoing amendment establishes.

ASSESSED VALUATION.—The total assessed valuation of the State, as determined by the State Board of Assessors, and the tax rate for State purposes, have been as follows for the years named below:

DEBT LIMITATION.—Minnesota has protected the State from extravagant expenditures through restrictions which its Constitution puts on every kind of debt making. That instrument fixes the limit at \$250,000 "for the purpose of defraying extraordinary expenditures;" and an amendment, ratified in 1879, extended this power to \$250,000 additional "for erecting and completing buildings for the insane, a deaf, dumb and blind asylum, and State prison." Besides the foregoing, it is also provided that the State credit shall not be loaned, &c. With regard to the debt of municipalities there is but one section in the Constitution which relates to that subject, and that has reference to making railroad debt.

FIRST, as to State indebtedness, the sections which treat of the subject are in articles 9, sections 5, 6, 7, 8 and 14.

SECTION 5. (Public debt may be contracted.) For the purpose of defraying extraordinary expenditures, the State may contract public debts, but such debts shall never, in the aggregate, exceed two hundred and fifty thousand dollars; every such debt shall be authorized by law for some single object, to be distinctly specified therein; and no such law shall take effect until it shall have been passed by the vote of two-thirds of the members of each branch of the Legislature, to be recorded by the yeas and nays on the journals of each House, respectively; and every such law shall levy a tax, annually, sufficient to pay the annual interest of such debt, and also a tax sufficient to pay the principal of such debt within ten years from the final passage of such law, and shall especially appropriate the proceeds of such taxes to the payment of such principal and interest; and such appropriation and taxes shall not be repealed, postponed, or diminished, until the principal and interest of such debt shall have been wholly paid. The State shall never contract any debts for works of internal improvement, or be a party in carrying on such works, except in cases where grants of land or other property shall have been made to the State, especially delineated by the grant to specific purposes, and in such cases the State shall devote thereto the avails of such grants, and may pledge or appropriate the revenues derived from such works in aid of their completion.

SECTION 6. (Public debt how contracted.) All debts authorized by the preceding section shall be contracted by loan on State bonds of amounts not less than five hundred dollars each, on interest, payable within ten years after the final passage of the law authorizing such debt; and such bonds shall not be sold by the State under par. A correct registry of all such bonds shall be kept by the Treasurer in numerical order, so as always to exhibit the number and amount unpaid and to whom severally made payable.

SECTION 7.—The State shall never contract any public debt, unless in time of war, to repel invasion or suppress insurrection, except in the manner provided in the fifth and sixth sections of this article.

SECTION 8. (Appropriation of money received from loan or State bonds.) The money arising from any loan made, or debt or liability contracted, shall be applied to the object specified in the act authorizing such debt or liability, or to the repayment of such debt or liability, and to no other purpose whatever.

SECTION 14. (State debt for public buildings.) For the purpose of erecting and completing buildings for a hospital for the insane, a deaf, dumb and blind asylum, and State prison, the Legislature may by law increase the public debt of the State to an amount not exceeding two hundred and fifty thousand dollars, in addition to the public debt already heretofore authorized by the Constitution, and for that purpose may provide by law for issuing and negotiating the bonds of the State and appropriate the money only for the purpose aforesaid; which bonds shall be payable in not less than ten nor more than thirty years from the date of the same, at the option of the State.

SECOND, as to city, county or other municipality the only restriction in the debt making power in the Constitution is the following, found in article 9, section 15.

SECTION 15. (Municipal debts in aid of railroads.) The Legislature shall not authorize any county, township, city or other municipal corporation to issue bonds or to become indebted in any manner to aid in the construction or equipment of any or all railroads to an amount that shall exceed five per centum of the value of the taxable property within such county, township, city, or other municipal corporation; and the amount of such taxable property to be ascertained and determined by the last assessment of said property made for the purpose of State and county taxation previous to the incurring of such indebtedness.

The foregoing was adopted as an amendment in 1879. Before its adoption the section read so as to authorize municipal corporations to issue bonds in aid of railroads to ten per cent of valuation. Hence the amendment consisted in simply changing the word ten and making it five.

This is all the Constitution contains with reference to the debts of municipalities. The Legislature, however, has made some general provisions governing bond issues.

First, respecting cities, there is the general power granted the common council of any city to borrow money to pay any city indebtedness, and to issue therefore city bonds bearing interest not to exceed 10 per cent and redeemable within ten years. The restrictions are: (1) That ordinances must be passed by the affirmative vote of a majority of the common council, signed by the Mayor, and published in the official newspapers and recorded after proof of publication. (2) At no time in such indebtedness, bonded or otherwise, exceed \$15,000, unless the same be authorized by a two-thirds vote at the election held for such purpose. (3) The council shall each and every year levy a tax of one mill

on the dollar for each one thousand dollars of bonds issued by the said city to pay the interest and to create a sinking fund to pay the bonds at maturity. The foregoing is found in chapter 10, section 168, of the General Statutes of Minnesota, vol. I, page 196, edition of 1888.

Second, and further as to cities, the common council is authorized to issue bonds and levy taxes exceeding the amount authorized by other sections of this act; provided the same be authorized by the majority of voters present and voting at an election to be held for that purpose. The time, place and manner of holding such election to be prescribed by the common council, the same notice to be given as at other elections. And no bonds for any purpose shall be issued unless so authorized. The foregoing is the latter half of section 171, chapter 10, Statutes of Minnesota, vol. 1, page 197. The last sentence which we have italicized would, on its face, appear to take away the right of the common council to issue even \$15,000 of bonds (without an election) as authorized by previous section 168 cited above. This idea also seems to find confirmation in section 170, last clause, which reads that "no debt shall to be incurred or created by the city, the common council or any officer of "the city except pursuant to the authority herein expressly given for "that purpose."

Third, through the board of supervisors, towns can issue bonds as directed by two-thirds of all legal voters voting at a legally called town meeting held for that purpose, payable in such amounts and at such times, not exceeding six years from date as two-thirds of voters determine. For further particulars respecting these issues, see section 114, chapter 10, Statutes of Minnesota, volume 1, page 182. A following section (section 116) makes it the duty of the supervisors on or before the first of September next after the date of said bonds, and each and every year thereafter until the payment of said bonds, to levy a tax "equal to the amount of principal and interest maturing the year next after such levy," and in the discretion of said supervisors such further sum as they deem expedient, not exceeding twenty per cent of such maturing bonds, which taxes shall constitute a fund for the payment of said bonds.

Fourth, the trustees or board of education of any school district may issue school bonds of their respective districts in such amount and of such length as to payment, not exceeding ten years, as two-thirds of the voters voting at any legally called meeting shall direct. For further particulars respecting these bonds see section 26, chapter 36, of the Statutes of Minnesota, volume 1, page 472. In section 28, same page, are provisions for levying a tax for the payment of bonds quite similar to the provisions with reference to the payment of town bonds cited above.

Fifth, with respect to all school bonds, see section 5, article VIII. of the Constitution of Minnesota, which authorizes the loaning of the Permanent School Funds upon interest at the rate of 5 per cent to the several counties and school districts, to be used in the erection of county or school buildings.

Sixth, as to the creating of county debt, there is no general authorization, the issues when made being under special acts. Of course "railroad aid bonds" are provided for by statute for county, cities, and all other municipalities. See for the law on that subject, section 92, &c., chapter 31, Statutes of Minnesota, vol. 1, page 388, &c. So also, the borrowing from the Permanent School Funds under the above cited section of the Constitution (section 5, article VIII.) is provided for by section 84, chapter 36, Statutes of Minnesota, vol. 11, page 448. There is likewise a general statute for the issue of "motor road bonds" by the county, the particulars respecting which will be found in section 132, chapter 13, of Statutes of Minnesota, vol. 1, page 277.

General statutory limitation, applying to all municipalities. Debts of cities, counties, towns, &c., are void if entailing taxation beyond the rate fixed by law. See section 114, chapter 11, Statutes of Minnesota, vol. 1, page 213. Of course this section does not apply where the law authorizes increased taxation, as, for instance, when a majority of the legal voters so direct; such authorization and action bring the case under the exception contained in the section, which is that the act is unlawful "unless specially and expressly authorized by law."

SINKING FUND.—It is provided by the city's charter that in addition to raising a tax sufficient to pay the interest on all its bonds the city shall levy a tax of one mill on each dollar of the assessed valuation provide for the principal of the bonds when due. The maintenance of the sinking fund for the payment of the principal of the bonds is "deemed to be part of the contract with the holder of any bonds of the city and may hereafter be amended and shall be kept inviolate." In accordance with this provision there was raised by taxation for the sinking fund in 1896 \$161,759 43. The sinking fund is invested in city of Minneapolis 4 and 1/2 per cent bonds.

BOND LIMIT.—The city of Minneapolis is restricted in all legislative acts authorizing the issue and sale of bonds, and is required to keep within the following limit: From the total issue of all city bonds all the deducted the total amount of funds and securities in the sinking fund, and this balance shall not exceed 5 per cent of the aggregate value of the taxable property of the city as assessed and determined for the purpose of taxation.

WATER RECEIPTS.—The receipts from water in 1896 were \$222,232; current expenses for water works, \$104,957.

VALUATION AND INDEBTEDNESS.—The city's assessed valuation (property being assessed about 1/2 of its actual value) tax rate and total debt have been as follows:

COUNTY AND CITY INDEBTEDNESS.—“As compared with other States, we have been remarkably fortunate in the financial management of our cities and counties. Most counties are entirely free from debt, and the number of cities and independent districts which are sinking up their bonds is constantly increasing. The people of our State take a just pride in maintaining the highest standard of public and private credit, and in carefully guarding the rights of property.”—Governor's message, Feb., 1890.

DEBT LIMITATION.—Iowa's Constitution restricts the creating of debt, both State debt and municipal debt.

FIRST, as to State debt, the limitation made is not absolute, for it permits other debt if authorized by some law for some single specified work. But this permission is very safely guarded—(1) the law must provide for the collection of a direct annual tax sufficient to pay the interest regularly and discharge the debt in twenty years; and (2) the law cannot take effect until it has been submitted to the people at a general election, and has received a majority of the votes cast. All the debt provisions relating to the State we give below.

ARTICLE 7, Section 1. [Limitation of State indebtedness.] The credit of the State shall not in any manner be given or loaned to, or in aid of, any individual, association, or corporation; and the State shall never assume, or become responsible for, the debts or liabilities of any individual, association or corporation, unless incurred in time of war for the benefit of the State.

SECTION 2. [Same.] The State may contract debts to supply casual needs or failures in revenues, or to meet expenses otherwise provided for; but the aggregate amount of such debts, direct and contingent, whether contracted by virtue of one or more acts of the General Assembly, or at different periods of time, shall never exceed the sum of two

hundred and fifty thousand dollars; and the money arising from the creation of such debts shall be applied to the purpose for which it was obtained, or to repay the debts so contracted, and to no other purpose whatever.

SECTION 4. [For what other purposes State may contract debt.] In addition to the above limited power to contract debts, the State may contract debts to repel invasion, suppress insurrection, or defend the State in war; but the money arising from the debts so contracted shall be applied for the purpose for which it was raised, or to repay such debts, and to no other purpose whatever.

SECTION 5. [Other debts to be authorized.]—Except the debts hereinbefore specified in this article, no debt shall be hereafter contracted by or on behalf of this State, unless such debt shall be authorized by some law for some single work or object, to be distinctly specified therein; and such law shall impose and provide for the collection of a direct annual tax sufficient to pay the interest on such debt as it falls due; and also to pay and discharge the principal of such debt within twenty years from the time of contracting thereof; but no such law shall take effect until at a general election it shall have been submitted to the people, and have received a majority of all the votes cast for and against it at such election; and all money raised by authority of such law shall be applied only to the specific object therein stated, or to the payment of the debt created thereby; and such law shall be published in at least one newspaper in each county, if one is published therein, throughout the State, for three months preceding the election at which it is submitted to the people.

ARTICLE VIII, Section 3. [State not to be a stockholder.]—The State shall not become a stockholder in any corporation, nor shall it assume or pay the debt or liability of any corporation, unless incurred in time of war for the benefit of the State.

There can be but little fear that a State or city will ever create debt in any larger amount than it can easily pay where the law, as in the above case, requires a tax to be levied at the time of its creation sufficient to pay the interest annually and the principal when due.

SECOND, as to municipal indebtedness, the limit is fixed absolutely in the Constitution. The provisions covering the subject are as follows:

ARTICLE VIII, Section 4. [Corporation not to be a stockholder.] No political or municipal corporation shall become a stockholder in any banking corporation, directly or indirectly.

ARTICLE XI, Section 3. [To what amount county may become indebted.] No county or other political or municipal corporation shall be allowed to become indebted in any manner, or for any purpose, to an amount in the aggregate exceeding five per centum on the value of the taxable property within such county or corporation—to be ascertained by the last State and county tax list previous to the incurring of such indebtedness.

The above section 3 of article XI covers cities, counties, towns and every other kind of political or municipal corporation. The Supreme Court of Iowa has decided that even a school district is such a corporation and subject to the 5 per cent limit.

POPULATION OF STATE.—The population of Iowa has been as follows in the years named:

1895.....	2,059,069	1870.....	1,104,020	1850.....	192,214
1890.....	1,911,896	1860.....	674,913	1840.....	43,112
1880.....	1,624,615				

In 1860-'70 the increase was 519,107, or 76.91 per cent; in 1870-'80 430,593, or 36.06 per cent; in 1890-'00 287,281, or 17.08 per cent.

The water bonds are not included in the total funded debt, as they are the obligations of a private company. The city, however, in return for use of water agrees to pay the interest on these bonds directly to the bondholder, and to pay \$2,000 yearly to a sinking fund for their redemption.

EQUALIZED VALUATION in 1896 of real estate was \$3,020,230; personal property, \$1,022,403; total, \$4,042,633; total tax rate (per \$1,000), \$88.00, including State tax, \$2.30, county tax, \$11.70; city tax, \$32.00; school tax, \$21.00. In the water district, which includes about one-half the city, the water tax (per \$1,000) is \$50.00. Property is assessed at “about 25 per cent of its actual value.”

POPULATION in 1890 was 22,565; in 1880 it was 19,450; in 1897 (estimated), 26,000.

Bonded debt. \$164,900 \$561,400 \$612,900. The special bonds do not in any sense come under the 5 per cent Constitutional limit, their issue being in anticipation of a special levy, authorized by law, and being so issued the bondholders may compel the city to make a three-mill levy, and as long as the annual interest on these bonds does not exceed the proceeds of a three-mill levy, there can be no question as to their legality and perfect safety.—City report.

ASSESSED VALUATION.—The city's assessed valuation ("not more than 30 per cent of the actual value") has been as follows in the

years named. Personal and railroad property is assessed every year, while real estate is assessed every two years only.

 Legislature meets biennially in odd years on the first Wednesday after the first day of January, and there is no limit to length of sessions; but after the first seventy days members can draw only a dollar a day for their services, except every tenth year, when the statutes are revised, at which session members are allowed \$5.00 per day for 120 days. The next session of this kind will be held in 1899.

HISTORY OF DEBT.—Additional city and town debt statements compel us to omit the interesting details of Missouri's eventful history in debt making and debt paying. All that matter, however, will be found on page 111 of the STATE AND CITY SUPPLEMENT for April, 1893. The details of the debt on January 1, 1897, were as follows:

DEBT LIMITATION.—Missouri has made provision in its Constitution restricting the creation of debt both on behalf of the State and of its municipalities.

FIRST, with respect to the State, the regulations are full and specific. They are found in article 6, sections 44, 45 and 46, which we subjoin.

ARTICLE 6, Section 44. (*General Assembly not to contract debts except as herein.*) The General Assembly shall have no power to contract or to authorize the contracting of any debt or liability on behalf of the State, or to issue bonds or other evidences of indebtedness thereof, except in the following cases:

First, in renewal of existing bonds, when they cannot be paid at maturity out of the sinking fund or other resources.

Second, on the occurring of an unforeseen emergency, or casual deficiency of the revenue, when the temporary liability incurred, upon the recommendation of the Governor first had, shall not exceed the sum of two hundred and fifty thousand dollars for any one year, to be paid in not more than two years from and after its creation.

Third, on the occurring of any unforeseen emergency, or casual deficiency of the revenue, when the temporary liability incurred or to be incurred shall exceed the sum of two hundred and fifty thousand dollars for any one year, the General Assembly may submit an act providing for the loan, or for the contracting of the liability, and containing a provision for levying a tax sufficient to pay the interest and principal when they become due (the latter in not more than thirteen years from the date of its creation), to the qualified voters of the State, and when the act so submitted shall have been ratified by a two-thirds majority, at an election held for that purpose, due publication having been made of the provisions of the act for at least three months before such election, the act thus ratified shall be irrevocable until the debt thereby incurred shall be paid, principal and interest.

SECTION 45. (State's credit not to be loaned.) The General Assembly shall have no power to give or to lend, or to authorize the giving or lending of the credit of the State in aid of or to any person, association or corporation, whether municipal or other, or to pledge the credit of the State in any manner whatsoever, for the payment of the liabilities, present or prospective, of any individual, association of individuals, municipal or other corporation whatsoever.

SECTION 46. (Public money, grant of prohibited.) The General Assembly shall have no power to make any grant, or to authorize the making of any grant of public money or thing of value to any individual, association of individuals, municipal or other corporation whatsoever. *Provided, That this shall not be so construed as to prevent the grant of aid in a case of public calamity.*

The foregoing sections cover all phases of State indebtedness and so restrict action as to put the State beyond the chance of future debt embarrassment.

SECOND, with regard to cities and other municipalities, the provisions are in like manner full and wisely constructed. There are three—section 47 in article 6, section 6 in article 9 and section 12 in article 10. We give them complete below.

ARTICLE 6, Section 47. (Municipalities, loaning credit of.) The General Assembly shall have no power to authorize any county, city, town or township, or other political corporation or sub-division of the State now existing, or that may be hereafter established, to lend its credit, or to grant public money or thing of value in aid of or to any individual, association or corporation, whatsoever, or to become a stockholder in such corporation, association or company.

ARTICLE 9, Section 6. (Municipalities not to subscribe to capital stock of corporations.) No county, township, city or other municipality shall hereafter become a subscriber to the capital stock of any railroad or other corporation or association, or make appropriation or donation, or loan its credit to or in aid of any such corporation or association, or to or in aid of any college or institution of learning or other institution, whether created for or to be controlled by the State or others. All authority heretofore conferred for any of the purposes aforesaid by the General Assembly, or by the charter of any corporation, is hereby repealed: *Provided, however, That nothing in this Constitution contained shall affect the right of any such municipality to make such subscription where the same has been authorized under existing laws by a vote of the people of such municipality prior to its adoption, or to prevent the issue of renewal bonds, or the use of such other means as are or may be prescribed by law for the liquidation or payment of such subscription, or of any existing indebtedness.*

ARTICLE 10, Section 12. (Municipal indebtedness, limit of.) No county, city, town, township, school district or other political corporation or sub-division of the State shall be allowed to become indebted in any manner or for any purpose to an amount exceeding in any year the income and revenue provided for such year, without the assent of two-thirds of the voters thereof voting at an election to be held for that purpose; nor in cases requiring such assent shall any indebtedness be allowed to be incurred to an amount, including existing indebtedness, if the aggregate exceeding five per centum on the value of the taxable property therein, to be ascertained by the assessment next before the last assessment for State and county purposes, previous to the incurring of such indebtedness: *Provided, That with such assent any county may be allowed to become indebted to a larger amount for the erection of a court-house or jail. And provided further, That any county, city, town, township, school district, or other political corporation or sub-division of the State, incurring any indebtedness, requiring the assent of the voters as aforesaid, shall, before or at the time of doing so, provide for the collection of an annual tax sufficient to pay the interest of such indebtedness as it falls due, and also to constitute a sinking fund for payment of the principal thereof, within twenty years from the time of contracting the same.*

It is scarcely necessary to add anything to the foregoing. The section given make clear (1) that a municipality cannot loan its credit; (2) that it cannot subscribe to the capital stock of corporations; (3) that it cannot get into debt without two-thirds of the voters voting at an election favor it, and then only to an aggregate of 5 per cent of valuation *except that with such assent any county may be allowed to become indebted in a larger amount for the erection of a court house or jail, and finally (4) that before or at the time of getting the assent of the voters an annual tax must be provided sufficient to pay interest and form a sinking fund to pay the debt within 20 years. These provisions are certainly very conservative.*

POPULATION OF STATE.—The population of Missouri has been as follows in the years named.

1890.....	2,679,184	1860.....	1,182,012	1830.....	140,477
1880.....	2,168,380	1850.....	682,044	1820.....	66,571
1870.....	1,721,235	1840.....	333,702	1810.....	19,771

In 1860-70 the increase was 539,233, or 45-62 per cent; in 1870-80 447,085, or 25-97 per cent; in 1880-90 510,804, or 23-56 per cent.

The proportion of the colored population was 6-70 per cent in 1880 and 5-75 per cent in 1890. In number blacks were 90,040 in 1850 18,503 in 1860; 118,071 in 1870; 145,350 in 1880, and 154,131 in 1890.

Table with 3 columns: Year (1897, 1896, 1893), Total bonded debt, Water, debt included.

Under the charter the Municipal Assembly must appropriate \$1,200,000 annually, with which to pay debt and the interest thereon. That portion of each annual appropriation not required for the payment of the interest constitutes the sinking fund for redemption of the debt existing April 7, 1890, and bonds issued in renewal thereof. On the basis of renewing the city's bonded debt at 4 per cent, the debt for which this sinking fund was established will be extinguished in 1927. The sinking funding on April 13, 1896, amounted to \$84,598.

CITY PROPERTY.—The city owns its water works, the revenue from which for water rates, permits, etc., for the fiscal year 1895-96 was \$1,312,378 and operating expenses and cost of collecting water rates were \$473,250. For the year 1892-93 the revenue was \$1,235,933; net operating expenses and costs of collecting water rates, \$416,824. For 1893-94 the corresponding amounts were \$1,251,301 71 and \$411,924 24, and for 1894-95, \$1,266,513 05 and \$493,647 68. In addition to the water works the city owns its hospitals, insane asylums and poor house, city hall, court house, jail, house of correction and work house, engine houses, markets, police stations, parks, etc.

DEBT LIMITATION.—South Dakota has incorporated into its constitution very stringent provisions limiting the debt-making power of the State and its municipalities. All these provisions are found in article XIII., and are as follows.

SECTION 1. Neither the State nor any county, township or municipality shall loan or give its credit or make donation to or in aid of any individual, association or corporation, except for the necessary support of the poor, nor subscribe to or become the owner of the capital stock of any association or corporation, nor pay or become responsible for the debt or liability of any individual, association or corporation; provided, that the State may assume or pay such debt or liability when incurred in time of war for the defense of the State. Nor shall the State engage in any work of internal improvement.

SEC. 2. For the purpose of defraying extraordinary expenses and making public improvements, or to meet casual deficits or failures in revenue, the State may contract debts never to exceed with previous bonds in the aggregate \$100,000, and no greater indebtedness shall be incurred except for the purpose of repelling invasion, suppressing insurrection, or defending the State or the United States in war, and payment shall be made by law for the payment of the interest annually, and the principal when due, by tax levied for the purpose, or from any source of revenue; which law providing for the payment of the interest and principal by such tax or otherwise shall be enforceable until such debt is paid; provided, however, the State of South Dakota shall have the power to refund the Territorial debt assumed by the State of South Dakota by bonds of the State of South Dakota.

SEC. 3. That the indebtedness of the State of South Dakota, limited by section 2 of this article, shall be in addition to the debt of the Territory of Dakota, assumed by and agreed to be paid by South Dakota.

SEC. 4. The debt of any county, city, town, school district, or other subdivision, shall never exceed five per centum upon the assessed value of the taxable property therein. In estimating the amount of indebtedness which a municipality or subdivision may incur, the amount of indebtedness contracted prior to the adoption of this Constitution shall be included.

SEC. 5. Any city, county, town, school district or any other subdivision incurring indebtedness shall, at or before the time of so doing, provide for the collection of an annual tax sufficient to pay the interest on also the principal thereof when due, and all laws or ordinances providing for the payment of the interest or principal of any debt shall be irrevocable until such debt is paid.

POPULATION OF STATE.—The population of South Dakota has been reported as follows in the years named.

1895.330,975 1890.328,808 1880.98,268 1870.14,181 1860.4,837

* This is the total for both North and South Dakota. The increase in South Dakota in the decade between 1880 and 1890, it will be seen, was 230,540 or 234.60 per cent.

INCIDENTS IN STATE ORGANIZATION, ETC.—See STATE AND CITY SUPPLEMENT of April, 1893, page 124, for the facts and statements heretofore given under this head.

HISTORY OF DEBT.—When Kansas was admitted into the Union as a State (in 1861) it had a bonded debt of \$150,000. The Constitution of 1859 limited the debt-making power to the million dollars (with certain restrictions and exceptions), as more fully described below. In 1866 the bonded debt was \$630,775, of which the State owned \$28,650. In 1878 the total bonded debt was \$1,181,975, of which the State owned \$713,600. On July 1, 1896, the debt amounted to \$752,000, of which \$9,000 was held by the State University fund and \$487,000 by the permanent school fund, leaving only \$256,000 bonds outstanding.

The State Legislature has authorized the State Treasurer, in the event that there are not sufficient current funds in the treasury to pay the bonds maturing during the coming year, to sell the same to the Permanent School Fund of this State.

DEBT LIMITATION.—Kansas has by its Constitution given the State power to contract public debts for the purpose of defraying extraordinary expenses and making public improvements in an amount not to exceed \$1,000,000. This limit, however, has two exceptions. *First*, the next section provides that it may be exceeded if the proposed law for creating such debt shall be submitted to a vote of the electors, and if the proposed law be ratified by a majority of the votes cast. *Second*, the section following provides that the State may borrow money to repel invasion, &c. We give these sections in full and also the subsequent one which forbids the State being a party to internal improvements.

Debts, annual tax; proceeds. For the purpose of defraying extraordinary expenses and making public improvements, the State may contract public debts; but such debts shall never, in the aggregate, exceed one million dollars, except as hereinafter provided. Every such debt shall be authorized by law for some purpose specified therein, and the vote of a majority of all the members elected to each House, to be taken by the yeas and nays, shall be necessary to the passage of such law; and every such law shall provide for levying an annual tax sufficient to pay the annual interest of such debt and the principal thereof when it shall become due; and shall specifically appropriate the proceeds of such taxes to the payment of such principal and interest; and such appropriation shall not be repealed nor the taxes postponed or diminished until the interest and principal of such debt shall have been wholly paid.

Other debts. No debt shall be contracted by the State except as herein provided, unless the proposed law for creating such debt shall first be submitted to a direct vote of the electors of the State at some general election; and if such proposed law shall be ratified by a majority of all the votes cast at such general election, then it shall be the duty of the Legislature next after such election to enact such law and create such debt, subject to all the provisions and restrictions provided in the preceding section of this article.

Borrow money. The State may borrow money to repel invasion, suppress insurrection or defend the State in time of war; but the money thus raised shall be applied exclusively to the object for which the loan was authorized, or to the repayment of the debt thereby created.

Internal improvements. The State shall never be a party in carrying on any works of internal improvement.

MUNICIPAL indebtedness is not restricted by the Constitution at all. The only provision for the regulation of such matters contained in that instrument is the following, requiring the Legislature to make general laws and restricting the power to make debt in the case of cities, towns and villages.

Cities. Provision shall be made by general law for the organization of cities, towns and villages; and their power of taxation, assessment, borrowing money, contracting debts and loaning their credit, shall be so restricted as to prevent the abuse of such power.

Under the foregoing the legislation of Kansas has become so extensive that our limited space here does not admit of even a brief digest. The reader will, however, find the ground very fully covered in a series of articles which were published in the CHRONICLE, Vol. 53, pages 854 and 942, and Vol. 54, pages 42 and 128.

POPULATION OF STATE.—The population of Kansas has been as follows in the years named:

1895.....	1,334,734	1870.....	364,399
1890.....	1,427,096	1860.....	107,206
1880.....	996,096		

In 1860-70 increase was 257,193, or 239-91 per cent; in 1870-80 631,697, or 173-35 per cent; in 1880-90 431,000, or 43-27 per cent.

The proportion of the colored population was 4-33 per cent in 1880 and 3-59 per cent in 1890. In number blacks were 627 in 1860; 17,109 in 1870; 43,107 in 1880, and 51,251 in 1890.

State of Idaho.

ITS DEBT, RESOURCES, Etc.

Organized as a Territory (Act March 3, 1863) - March 3, 1863. Admitted as a State (Act July 3, 1890) - July 3, 1890. Total Area of State (square miles) - 84,800. State Capital - Boise. Governor (term ends 1st Monday Jan. '99) Frank Steunenberg. Secretary of State (term ends 1st Mon. Jan. '99) Geo. J. Lewis. Treasurer (term expires 1st Mon. Jan. '99) - Geo. H. Storer. Auditor (term expires 1st Mon. Jan. '99) - J. H. Anderson. Legislature meets biennially in odd years on the Monday after the 1st of January, and the length of sessions is limited to 60 days.

DEBT HISTORY.—Idaho as a Territory always kept its debt within moderate limits. When it became a State the bonded debt of the Territory was \$146,715 06. Of that amount \$46,715 06 was issued to pay floating debt, \$80,000 to pay for Capitol building and \$20,000 for an asylum. The condition of the State's debt now is set out with all the details below.

Table with columns: NAME AND PURPOSE. Interest. P. Ct. Payable. When Due. Principal. Outstanding. Loans: Asylum improvement, Normal School, Refunding, Wagon road.

INTEREST on the asylum improvement and normal school bonds is payable at the Chase National Bank, New York; on the 6 per cent wagon-road bonds by Wells, Fargo & Co., New York; on the refunding bonds at the office of the State Treasurer.

TOTAL DEBT, ETC.—The total bonded debt on Jan. 1, 1897, was \$393,000. On Feb. 16, 1895, bonded debt was \$378,000; floating debt, \$85,469; total debt, \$463,469. In 1880 the total debt, less sinking fund, was \$88,381.

ASSESSED VALUATION.—In 1896 the total assessed valuation was \$28,962,833; in 1893 the total assessed valuation was \$33,431,841, property being assessed at about 1/3 of its estimated true value. In 1880 the assessed valuation of real estate was \$2,297,526; personal property, \$4,143,350; total, \$6,440,876. The tax rate per \$1,000 in 1896 was \$8.50; in 1893 it was \$8.50; in 1892, \$7.55.

DEBT LIMITATION.—Idaho has placed limits in its Constitution upon the debt-making power both of the State and its municipalities. Though the provisions have a conservative tendency, they are not quite as strict as the Constitutional limitations of most of the other new States. For a digest of the laws respecting debt limitation in Idaho, see STATE AND CITY SUPPLEMENT of April, 1895, pages 138 and 139.

POPULATION OF STATE.—The population of Idaho has been as follows in the years named:

189084,385 | 1880.....32,610 | 1870.....14,999. In 1870-80 increase was 17,611, or 117.41 per cent, and in 1880-90 51,775, or 158.77 per cent. The population in 1897, according to local figures, was 148,000.

ALTURAS COUNTY.—County seat was Hailey.

Table with columns: LOANS—When Due. COURT HOUSE BONDS. 6s, Jan., \$40,000. FUNDING BONDS—7s, J&J, \$227,000. 7s, J&J, \$45,000. 6 1/2s, J&J, \$19,000.

INTEREST on 6s paid in Hailey; on all other bonds in New York. The above shows the debt for which Alturas County was primarily held, the bonds having been issued by Alturas County before the creation of Elmore and Logan counties and before the annexation of a part of Alturas to Bingham. When the Legislature parcelled out Alturas County it failed to provide for an apportionment of the debt. The amount which Alturas County will be required to pay is only about one-fifth of above amount, because the bonds pledged the taxable property of the county as constituted at the time of issue, and before the division of Alturas, Elmore, Logan and part of Blugbara county were taken from Alturas County in 1889.

In addition to the tax rate as above there is a poll tax of \$1-00 per capita. Prior to 1890 this poll tax was 50 cents per capita.

DEBT LIMITATION.—Colorado's Constitutional provisions with reference to the creation of debt are of considerable length, and strike one at first as quite elaborate. After a brief study of the provisions their good qualities stand out so plainly as wholly to disarm criticism. No State has placed the debt-making power on a more reasonable basis. All the regulations with reference to public indebtedness are found in article 11 of the Constitution. See STATE AND CITY SUPPLEMENT of April, 1895, pages 140 and 141.

POPULATION OF STATE.—The population of Colorado has been as follows in the year named:

In 1889 the Territory wishing to redeem \$30,000 of its 7 per cent bonds having a number of years to run was obliged to pay 117 in order to obtain them. The bonded debt at present is as follows:

Table with columns: NAME AND PURPOSE, Interest, Principal, When Due, Outstanding, Capitol building bonds, Capitol contingent bonds, Casual deficit bonds, Current expense bonds of '87, Insane Asylum, 1891, Military Institute bonds, Penitentiary refund'g bonds, Provisional debt bonds, Refunding bonds, Territorial Institution bonds

INTEREST on the Military Institute bonds is payable at the Western National Bank, New York City; on all other bonds at the National Bank of Commerce, New York City.

TOTAL DEBT.—The total bonded debt on December 1, 1896, was \$959,800; floating debt, \$4,550; total debt, \$964,350. In addition to the bonded debt there were outstanding on February 1, 1894, \$650,000 of old militia warrants. It is claimed by some that a portion of the militia warrants are fraudulent and the Territorial Legislature has not recognized the obligations to the same extent or placed them on the same footing with the balance of the Territorial indebtedness.

ASSESSED VALUATION.—The State's assessed valuation (about 1/2 cash value) and tax rate have been as follows:

Table with columns: Years, Real Estate, Personal Property, Total Ass'd Valuation, Rate of tax per \$1,000, 1895, 1894, 1893, 1892, 1890, 1880

POPULATION OF TERRITORY.—The population of New Mexico has been as follows in the years named:

Table with columns: 1890, 1870, 1850, 1880, 1860

* Not including population of Arizona Territory, then forming part of New Mexico, but subsequently detached and organized as a separate Territory.

In 1860-70 increase was 4,840, or 5 per cent; in 1870-80, 27,691, or 30.14 per cent; in 1880-90, 34,028, or 28.46 per cent.

DEBT LIMITATION.—Municipal indebtedness as well as State debt is carefully regulated in the Constitution of California. The section which relates to the bonding of counties, cities, towns, etc., has been amended, the amendment having been adopted February 23, 1891. Nothing in explanation of the provisions needs to be said, as the sections of the Constitution treating of this subject are all very plain and comprehensive; they will be found in the STATE AND CITY SUPPLEMENT of April, 1895, page 146.

POPULATION OF STATE.—The population of California has been as follows in the years named.

Governor (term ex. 2d* Monday Jan. '99), - William P. Lord
Secretary of State (term ex. 2d Mon. Jan. '99), H. R. Kincaid
Treasurer (term ex. 2d Mon. Jan. '99) - Phil Metschan

* The Legislature does not always canvass the vote for Governor immediately upon its meeting, and the present Governor's term runs until his successor is declared elected.

Legislature meets biennially in odd years on the second Monday in January, and there is no limit to length of sessions; but members of the Legislature can draw pay only for 40 days' services in the aggregate, and this answers the same purpose as a limit upon the length of sessions.

HISTORY OF DEBT.—For history of Oregon's State debt see STATE AND CITY SUPPLEMENT of April, 1894, page 147.

To-day Oregon practically has no debt. There are some little left-over lots that go by that name, in the aggregate amounting to \$1,829,79, which the State is ready and well glad to pay, but cannot get them in.

VALUATION.—The gross valuation in 1896 as equalized by the State Board was \$151,864,670; indebtedness and exemptions, \$5,687,699; equalized valuation, \$143,176,971.

DEBT LIMITATION.—Oregon framed and adopted its Constitution in 1857. It is quite a notable fact that the people of the State are to-day living under that instrument in the precise form in which it was originally adopted, for there never has been an amendment made to it. The provisions with respect to debt limitation will be found on pages 150 and 151 of the STATE AND CITY SUPPLEMENT of April, 1895.

POPULATION OF STATE.—The population of Oregon has been as follows in the years named:
1890313,767 | 1870 90,923 | 1850 13,294
1880174,768 | 1860 52,465

In 1860-70 increase was 38,458, or 73.30 per cent; in 1870-80, 83,945, or 92.22 per cent; and in 1880-90, 138,999 or 79.53 per cent.

The following statement shows the total assessed valuation of the State for the years indicated, the assessment for 1895 being about 60 per cent of the actual value and the tax rate (per \$1,000) for the same year being \$6.40.

Table with 4 columns: Years, Assessment, Years, Assessment. Shows data for 1896, 1895, 1894, 1893, 1892, 1891, 1890, 1889.

DEBT LIMITATION.—Like so many of the younger States, Washington has taken a conservative position with respect to State and municipal indebtedness. The provisions of the Constitution with reference to creating debt are, however, so comprehensive and plain that it is necessary to do no more than copy the sections relating to the subject.

FIRST, with reference to the State, there are three sections; the first limits the debt, the second names exceptions to the limit and the third provides the method in which additional debt may be created. These sections are all found in article 8, and were given in the STATE AND CITY SUPPLEMENT of April, 1895, page 152.

SECOND, Counties, Cities, Towns &c. are more rigorously guarded. The whole system as to municipalities is found in section 6 of article 8, though section 7 is also important, as it forbids counties, cities &c. giving money or loaning credit to any corporation &c. Sections 6 and 7 will be found on page 152 of the April, 1895, SUPPLEMENT.

POPULATION OF STATE.—The full record of population of Washington as far back as it goes is given in the following.

Table with 4 columns: Year, Population, Year, Population. Shows data for 1892, 1890, 1880, 1870, 1860, 1850.

In 1860-70 increase was 12,361, or 106.62 per cent; in 1870-80, 51,161, or 213.57 per cent; in 1890-90 274,274, or 365.13 per cent.

DEBT LIMITATION.—Nevada has in its Constitution limited the State to a nominal indebtedness, except for the purpose of "defraying extraordinary expenses" arising from invasion, war, etc.; and in such cases the law shall provide an annual tax sufficient to pay the interest semi-annually and the principal within twenty-years. Further the State is forbidden even to assume the debt of any county, city, etc., or to donate or loan its money or credit, or to subscribe to the stock of any company, etc.

Counties, cities, towns etc. cannot become stockholders in any company, or loan its credit, etc. But other than that the Constitution omits to put any limit on county, city, etc., debts; but provides that the Legislature shall make general laws restricting their borrowing power. The Constitutional provisions referred to are as follows:

ARTICLE IX., SECTION 3. [State debt limited.] For the purpose of enabling the State to transact its business upon a cash basis from its organization, the State may contract public debts, but such debts shall never in the aggregate, exclusive of interest, exceed the sum of three hundred thousand dollars, except for the purpose of defraying extraordinary expenses, as hereinafter mentioned. Every such debt shall be authorized by law for some purpose or purposes, to be distinctly specified therein, and every such law shall provide for levying an annual tax sufficient to pay the interest semi-annually and the principal within twenty years from the passage of such law, and shall specially appropriate the proceeds of said taxes to the payment of said principal and interest; and such appropriation shall not be repealed, nor the taxes be postponed or diminished, until the principal and interest of said debts shall have been wholly paid. Every contract of indebtedness entered into or assumed by or on behalf of the State, when all its debts and liabilities amount to said sum before mentioned, shall be void and of no effect, except in cases of money borrowed to repel invasion, suppress insurrection, defend the State in time of war, or, if hostilities be threatened, to provide for the public defense.

SECTION 4. [State prohibited from assuming debts of cities, etc.] The State shall never assume the debt of any county, town, city, or other corporation whatever, unless such debts have been created to repel invasion, suppress insurrection or to provide for the public defense.

ARTICLE VIII., SECTION 9. [State shall not loan its money or credit etc.] The State shall not donate or loan money or its credit, subscribe to or be interested in the stock of any company, association or corporation, except corporations formed for educational or charitable purposes.

ARTICLE XVII., SECTION 7. [State to assume debts of the Territory.] All debts and liabilities of the Territory of Nevada lawfully incurred, and which remain unpaid at the time of the admission of this State into the Union, shall be assumed by and become the debt of the State of Nevada. Provided, That the assumption of such indebtedness shall not prevent the State from contracting the additional indebtedness, as provided in section 3 of article 9 of this Constitution.

ARTICLE VIII., SECTION 10. [County, city, town etc. not to be stockholders, etc.] No county, city, town, or other municipal corporation, shall become a stockholder in any joint-stock company, corporation or association whatever, or loan its credit in aid of any such company, corporation or association, except railroad corporations, companies or associations.

SECTION 8. [Cities and towns to be restricted by general laws]. The Legislature shall provide for the organization of cities and towns by general laws; and restrict their powers of taxation, assessment, borrowing money, contracting debts, and loaning their credit, except for procuring supplies of water.

POPULATION OF STATE.—Though Nevada has some good grazing land, the mining industry, more particularly silver mining, has had chief attention, and with the decline of this, population has also declined the Census of 1890 showing a total of only 45,761 persons, against 62,266 in 1880. The famous Comstock lode is located within Nevada, but the silver production of the State has greatly fallen off in recent years. The full record of population is as follows:

1890.....45,761 | 1890.....62,266 | 1870.....42,491 | 1860.....6,857
 In 1860-70 increase was 35,634, or 519.67 per cent, and in 1870-80
 19,775, or 46.54 per cent; in 1890-90 there was a decrease of 16,505, or
 26.51 per cent.

STATE DEBT.—For a detailed report of the Virginia debt as it stood prior to 1892, and for the history of the recent settlement made by and between the Virginia Debt Commission and the Bondholders' Committee, see the STATE AND CITY SUPPLEMENT of April, 1893, pages 151 and 152. Other items of interest with reference to the Virginia debt will be found in the CHRONICLE as follows: Vol. 56, p. 636, 802; V. 57, p. 155, 190, 565, 733, 950, 1053; V. 58, p. 232, 274, 315, 357.

At present Virginia's debt stands as shown below:

NAME AND PURPOSE.	Interest.		Principal.

Total Act of Feb. 14, 1882.....				6,329,554
Total debt March 1, 1897.....				\$24,247,722

The Virginia Legislature re-enacted the Funding Act of Feb. 20, 1892, and under its provisions all old Virginia bonds were allowed to be brought in and funded into new Century bonds, upon the same terms as the McCott settlement, provided they were presented for funding prior to December 31, 1896. All bonds funded after April 1, 1896, shall carry interest from the semi-annual period next preceding the date of funding. Under the old law coupon bonds once converted

into registered certificates were not re-convertible into coupon bonds, but this act makes coupon and registered bonds inter-changeable.

WEST VIRGINIA CERTIFICATES.—In the settlement of 1871 it was assumed that West Virginia should provide for one-third the principal and interest of the then existing debt—for \$15,239,370—that is out of the total debt of \$45,718,112. To represent, therefore, West Virginia's share of bonds funded "deferred certificates" were issued. All efforts, however, to induce West Virginia to take recognition of these certificates have thus far been unavailing. In 1885 the holders of about \$8,000,000 certificates united for the purpose of obtaining a compromise, and deposited their holdings with the Farmers' Loan & Trust Company, which gave its trust receipts therefor. This attempt came to nothing, and in 1890 Messrs. C. Satterthwaite & Sons, of No. 30 Throgmorton Street, London, E. C., started another movement to bring about a settlement.

Besides the original "deferred certificates" there were subsequently issued under the Riddleberger Act "West Virginia interest-bearing certificates," to represent one-third the principal of the old bonds brought in for funding, and "non-interest-bearing certificates" to represent one-third the interest on old bonds brought in for funding. Under the agreement with the "Bondholders' Committee," the holders of the "Old Bonds" surrendered on settlement were given a certificate showing that West Virginia is indebted to them for one-third of said "Old Bonds." Including these the outstanding West Virginia certificates are therefore as follows:—

NAME AND PURPOSE.	Interest.		Principal.	
	P. Ct.	Payable.	When Due.	Outstand'g.
"Deferred certificates" of 1871	6	J. & J.	Contingent.	\$12,961,530
Interest-bearing certs. of 1882	1,031,551
Non-int.-bearing certs. of 1882	744,970
Interest-bearing certs. of 1892	276,240
Non int.-bearing certs. of 1892	299,442

An adjustment company, with the Mercantile Trust & Deposit Company of Baltimore at its head, was formed late in 1893 for the purpose of making another attempt at the settlement of the West Virginia certificates. (See CHRONICLE, Vol. 57, page 819; Vol. 58, pages 51, 314 and 444.)

 Legislature meets biennially in odd years on the Wednesday after the first Monday in January, and there is no limit to length of sessions, but if sessions are continued longer than 60 days members "shall serve without compensation."

STATE DEBT.—The old debt, excepting such as is not recognized, has mostly been funded under the funding laws of 1879, the time prescribed for the exchange being limited to Jan. 1, '99. These laws provided for the issue of (1) consolidated 4 p. c. bonds due in 1910 to fund old ante-war bonds at 40 per cent of face value, "New" railroad bonds recognized as valid at 25 per cent, and bonds of 1866 and 1868 at 15 per cent, nothing being given for overdue coupons; and (2) for new consolidated 6 per cent bonds due in 1919, for which the North Carolina RR. construction bonds were made exchangeable at par, holders of construction bonds abating \$240 of overdue interest on each \$1,000 bond. The new bonds, both 4s and 6s, carry tax-receivable coupons, and are exempt from "all State, county or corporate taxation or assessment, direct or indirect, general or special."

An amendment to the State Constitution passed by the Legislature in 1879 and ratified by popular vote in 1880, forbids the General Assembly to pay or recognize as valid the following bonds: Special tax bonds \$11,368,000; bonds to Chatham RR, 1868, \$1,030,000, and to Williamston & Tarboro RR., \$150,000; Penitentiary bonds of 1868 \$44,000. The special tax bonds are in 3 classes, class 1 bearing the coupon of April 1869 and since; class 2 bearing the coupon of Oct. 1869; class 3 bearing the coupon of April, 1870. Holders of the special tax bonds brought suit to establish the validity of their bonds and the case was decided in favor of the State.

The recognized debt which had been adjusted up to Jan. 1, 1897, stood as follows:

Table with columns: NAME AND PURPOSE, Interest, Principal, Outstanding. Rows include Construction bonds and Renewal bonds.

PAR VALUE OF BONDS.—The consolidated 4s are \$50, \$100, \$500 and \$1,000; the consolidated 6s \$1,000 each.

INTEREST on the consolidated 4s and 6s is payable in New York at the National Bank of the Republic and in Raleigh.

TOTAL DEBT RECOGNIZED AND TOTAL ADJUSTED.—The funding act of March 4, 1879, was extended to Jan. 1, 1899. The recognized fundable debt which had been funded and the recognized refundable debt which had not been funded were as follows:

Table with columns: Consols 6 per cent, Consols 4 per cent, Funded, Not funded. Values range from \$2,720,000 to \$255,070.

To the foregoing we should add the further fact that the State does not actually have to pay the interest on the six per cent bonds for the reason that the lease of the North Carolina Railroad provides a fund for the payment of the interest thereon, and the State holds three millions in the stock of the road, which if sold will much more than pay the principal.

ASSESSED VALUATION.—The State's assessed valuation (about 60 per cent of cash value) and tax rate have been as follows:

Table with columns: Years, Real Estate, Personal, Railroads, Total, Tax Rate. Shows data from 1895 to 1881.

POPULATION OF STATE.—The population of North Carolina has been as follows:

Table with columns: Year, Population. Shows population from 1890 to 1870.

In 1860-70 increase was 78,739, or 7.93 per cent; in 1870-80, 328,389, or 30.65 per cent; in 1880-90, 218,197, or 15.59 per cent.

The proportion of the colored population was 37.95 per cent in 1880, and 35.05 per cent in 1890. In number blacks were 316,011 in 1850; 361,522 in 1860; 391,650 in 1870; 531,277 in 1880, and 567,170 in 1890.

Legislature meets annually in October, and sessions are limited to fifty days.

*Section 49 of the Code says: "The Governor-elect shall begin the discharge of his duties from the time of his inauguration. The ceremony of inauguration shall take place during the first week of the session of the General Assembly next after the election, and on such day of that week as the General Assembly by joint resolution appoints. On failure of appointment, it takes place at 12 o'clock, meridian, on Saturday of that week, unless prevented by providential causes." Article V, section 2, paragraph 1 of the Constitution says that the Secretary of State, Comptroller-General and Treasurer shall "hold their offices for the same time as the Governor."

HISTORY OF DEBT.—We are compelled to omit the interesting details of Georgia's early history in debt-making heretofore given. The full statement will be found in the STATE AND CITY SUPPLEMENT for April, 1893, pages 165 and 166. The debt of the State is now being steadily reduced, \$100,000 being devoted each year to that purpose. Moreover the State Constitution adopted December, 1877, provides against the creation of any bonded debt "except to repel invasion, suppress insurrection, or defend the State in time of war," \$200,000 being made the limit for floating indebtedness which may be temporarily incurred in case of deficiency in the revenues.

Bonds past due but not yet presented for payment..... 5,000

PAR VALUE OF BONDS.—The bonds of this city are in pieces of \$100, \$250, \$500 and \$1,000 each.

TAX FREE.—All of the city's bonds are exempt from city tax.

INTEREST is payable in Angusta, and all coupons are tax-receivable. The annual interest charge on the city's bonded debt is being steadily reduced by the maturity of old issues of bonds and substitution of new issues at reduced rates of interest. Within two years it is probable that the income from water rents alone will pay all the interest on the city's debt.

TOTAL DEBT, ETC.—The city has no floating debt. The following statement shows Angusta's total bonded debt (including the water debt) on the first of January of each of the years mentioned,

Years.	Bonded debt.	Years.	Bonded debt.	Years.	Bonded debt.

DEBT LIMITATION.—The Constitution of the State of Georgia adopted in 1877, limits municipal indebtedness in this State to 7 per cent on the amount of taxable property. Augusta's debt at that time was in excess of that limitation and still is. Therefore under no circumstances can the debt of the city be increased. No bonds can be lawfully issued except for the purpose of retiring old issues as they fall due. No obligation of this city has ever been repudiated or soaled.

CITY PROPERTY.—The city owns its water works, valued in 1896 at \$600,000, the Augusta Canal, valued at \$1,500,000, and more than \$200,000 in other good real estate within city limits. The annual income from water rents (canal and water works) was reported in 1895 as about \$90,000, and increases yearly from new industries and new extensions of water mains.

ASSESSED VALUATION.—The city's assessed valuation and tax rate have been as follows:

Years.	Real Estate.	Personal Property.	Total Assessed Valuation.	City tax per \$1,000
1896.....	\$16,588,350	\$5,931,832	\$22,520,182	\$12-50

TOTAL BONDED DEBT on January 1, 1897, was \$163,500; floating debt, \$25,000; total debt, \$488,500. The city has assumed the payment of \$8,000 of 6 per cent Chappol College bonds, due one half in 1898 and one half in 1903.

TAX FREE.—The city's bonds are exempt from taxation.

CITY PROPERTY.—The city owns real estate and improvements valued at \$335,700.

TAX VALUATION (about 80 % actual value) in 1896 of real estate was \$7,047,755; personal property, \$5,000,000; total, \$12,047,755; in 1895 of real estate was \$7,047,755; personal property, \$5,969,000; total, \$13,016,655. In 1892 the total valuation was \$15,272,526, in 1891 was \$13,932,564; in 1887 was \$6,526,130. The city and school tax (per \$1,000) in 1896 was \$12-50 State tax, \$3-74; county tax, \$4-56. The valuation of personal property assessed in 1890 was only \$201,060 and in previous years the amount was still less.

POPULATION in 1890 was 17,303; in 1880 it was 10,123. According to local figures the population for 1897 was estimated at 19,300.

INTEREST is payable in New York and Rome, and the coupons are tax-receivable. Interest has been promptly paid since 1876, when the city made an adjustment of her debt.

BONDED DEBT on Feb. 16, 1896, was \$289,600, including the water debt of \$84,600. The bonded debt in 1891 was \$304,200.

The sinking fund receives yearly \$5,000.

WATER WORKS owned by the city are valued at \$200,000; the earnings yield a surplus of \$4,000 per annum over expenses.

DEBT LIMITATION.—No liabilities can be created by this city until its present debt is paid.

ASSESSED VALUATION of real estate in 1896 was \$3,432,552; personal property, \$1,031,217; total, \$4,463,769; city tax rate (per \$1,000) \$11-60; in 1892 the total tax rate (per \$1,000) was \$21-00, including State tax, \$4-00; county tax, \$7-00, and city tax, \$10-00. The actual valuation was estimated in 1892 at \$5,500,000. The total assessed valuation in 1889 was \$4,300,000.

The city's charter limits taxation for all purposes to \$12-30 per \$1,000.

POPULATION in 1890 was 6,957; in 1880 was 3,877; in 1895 the population was 12,000.

SAVANNAH.—{ P. W. MELDRIM, Mayor.
C. S. HARDEE, Treasurer.

Savannah is the county seat of Chatham County. Prior to the year 1876 the city's bonds were all 7s, but since that date a compromise has been made with the bondholders, and all but \$3,300 of the old bonds have been exchanged for new ones bearing 5 per cent tax-receivable coupons. The city of Savannah is prohibited by law from issuing any bonds in addition to those already outstanding.

*Further provision for the Government of the Territory, then known as the Territory of Orleans, was made by the Act of March 2, 1805, the duration of the Act of March 26, 1804, having originally been confined to the period of one year from October 1, 1804, "and to the end of the next session of Congress which may happen thereafter."

HISTORY OF DEBT.—For history of the State debt of Louisiana see STATE AND CITY SUPPLEMENT of April 1894, pages, 171 and 172.

Debt on which the State is paying interest is about as follows:

NAME OR PURPOSE.	Interest— P. Ct. Payable.	When Due.	Principal— Outstand'g.
Consol. 7 per cent bonds of 1874, stamped 4 per cent....	4s	J & J Jan. 1, 1914	\$35,900
New bonds (act. of '92).....	4s	J & J Jan. 1, 1914	10,740,200
Consolidated (constitutional) bonds of 1890.....	4s	J & J Jan. 1, 1914	101,700

PAR VALUE OF BONDS—The consolidated 7s, stamped 4 per cent are for \$100, \$500 and \$1,000. The Constitutional bonds for \$5, etc.

INTEREST is payable by Winslow, Lanier & Co., New York City and by Whitney National Bank, New Orleans.

TOTAL DEBT—The subjoined statement shows Louisiana's total bonded debt on Feb. 15, 1907.

Total bonded debt bearing interest.....	Feb. 15, 1907.	\$10,577,800
<i>Floating Debt</i> —		
Baby bonds and certificates (act of 1890) exclusive of coupons.....		915,917
Warrants, etc.....	(i)	
Judicial expense fund, etc.....		223,827

The baby bonds are 3 per cents and were due in 1896. They were issued to fund certain obligations of charitable institutions. No interest has been paid on them since January, 1895, but provision has been made to pay the principal of the bonds at not more than 50 p. c.

In September, 1899, it was discovered that a number of bonds had been fraudulently issued. Part of these were subsequently recovered, but \$373,600 consols so issued (\$303,000 being consols of 1874 and \$70,000 Constitutional bonds) are still outstanding. The State considers them "null and void," and they are therefore not included in the amount outstanding above. There are also \$431,935 fraudulently issued baby bonds outstanding.

There are moreover old bonds not recognized, and hence not fundable, amounting to \$3,953,000. These include New Orleans Mobile & Texas 8 per cent bonds, endorsed, \$975,000; 8 per cent State bonds issued to aid road, \$2,500,000; 8 per cent bonds issued to the N. O. Mobile & Chattanooga R.R. \$70,000; 7-30 per cent bonds issued to the Mississippi & Mexican Gulf Ship Canal Co. \$260,000, etc., etc.

ASSESSED VALUATION—The assessed valuation is estimated at about 37 per cent of the actual value. We give below a statement of assessed valuations at different periods. The State tax (per \$1,000) for 1896 was \$6.00:

Years.	Total Assessed Valuation.	Years.	Total Assessed Valuation.
1896.....	\$251,911,316	1895.....	\$212,725,564
1895.....	249,305,757	1875.....	195,004,419
1894.....	231,091,348	1870.....	253,371,890
1892.....	234,915,173	1860.....	435,787,265
1890.....	234,350,791	1850.....	233,998,704

POPULATION OF STATE—The population of Louisiana has been as follows in the years named:

1890.....	1,118,587	1890.....	708,002	1890.....	215,529
1880.....	939,916	1850.....	517,762	1820.....	152,923
1870.....	726,915	1840.....	352,411	1810.....	70,556

In 1860-70 increase was 18,913, or 2.67 per cent; in 1870-80 213,031 or 29.31 per cent; in 1890-90 178,641, or 19.01 per cent.

The proportion of the colored population was 50.32 per cent in 1890 against 51.46 per cent in 1890. In number blacks were 562,893 in 1890; 493,855 in 1890; 364,210 in 1870; 350,373 in 1860; 262,271 in 1850.

NEW ORLEANS.

WALTER C. FLOWER, Mayor.
 New Orleans is co-extensive with the parish of the same name. An amendment to the Louisiana Constitution authorizing the City of New Orleans to refund its debt at a lower rate of interest was adopted, and up to Jan. 1, 1897, the city had issued 4 per cent 50-year bonds to the amount of \$9,998,500, thus enabling it to pay all its maturing loans and all those upon which it had option. The amendment provides that the interest tax collected in excess of requirements shall be divided between city schools and city improvements, and about \$250,000 has already been transferred to those departments.

PREMIUM BONDS.—The premium bonds (\$20 each) receive no interest till drawn by lot for payment, and then they receive principal with simple interest from July 15, 1875. They also get a premium if they happen to draw a prize, 2,352 prizes aggregating \$100,000 being distributed yearly among the drawn bonds. From 1892 to 1895 inclusive 21,000 bonds (par value \$420,000) were paid each year, in two instalments of 10,500 bonds each, on January 15 and July 15; after 1895 bonds to the number of 10,000 will be paid semi-annually—20,000 bonds annually. There are two drawings to determine the bonds payable July 15 in each year, and they take place January 31 and April 15 next preceding. The drawings to determine the bonds payable January 15 take place July 31 and October 15.

The drawings to determine which bonds shall receive prizes (ranging from \$20 to \$5,000) occur just before the bonds are paid. Drawn premium bonds are receivable by the city for all dues, licenses, taxes and debts of any description at their face value and interest.

DEBT LIMITATION.—The act of the Legislature authorizing the premium bonds forbade the city to increase her debt in any manner until the premium bonds are paid.

ASSESSED VALUATION.—The city's assessed valuation and tax rate have been as follows:

Years.	Real Estate.	Personal Property.	Total Ass. Valuation.	Rate of Tax p. \$1,000.

PAR VALUE OF BONDS.—The bonds are all for \$1,000.
 INTEREST.—Interest on all the bonds is overdue—on most of the old bank bonds since July, 1842, on the funding bonds of 1869 and 1870 since 1873 or thereabouts. The funding bonds of 1875 (Loughboroughs) were all retired prior to May, 1885, and those now outstanding have been reissued since; hence the amount of overdue interest upon them is comparatively small.

TOTAL DEBT, ETC.—The subjoined statement shows the total bonded debt recognized by the State and overdue interest thereon on the first of June, 1896, and on the first of October 1894, 1892 and 1890.

	1896.	1894.	1890.	1888.
Total bonded debt.....	\$1,665,000	\$1,805,000	\$2,092,100	\$2,029,100
Overdue interest.....	2,773,995	3,018,022	2,884,897	2,832,915

Total debt.....\$4,438,995 \$4,823,022 \$4,976,997 \$4,862,015
 From the above statement it would appear that the State's gross indebtedness had increased between the years 1888 and 1890 by \$114,982, whereas in fact there was a reduction of \$395,415. The discrepancy is accounted for by the fact that \$255,000 bonds and the accrued interest thereon, which prior to 1890 had been omitted from the Treasurer's report were in that year included in the indebtedness. The bonds in question were found to be legal obligations of the State.

Of the total debt about one-half is held by the United States Government, but the State has claims against the General Government to a large amount.

DEBT NOT RECOGNIZED, HOLFORDS, ETC.—A summary of the unrecognized debt appears below. To aid in distinguishing the Holfords from the valid bonds of the State it should be said that under the act of April 6, 1869, were issued two series of funding bonds. One was dated July 1, 1869, and numbered from 1 to 1,000, inclusive. All of this series are printed in blue ink and are non-Holfords—in other words, are recognized obligations. The second series were dated January 1, 1870, numbered from 1 to 2,050, inclusive, and are printed in red ink. Of this series numbers 491 to 1,860, both inclusive, are the Holfords which constitute part of the unrecognized debt. The unrecognized debt is as follows:

NAME AND PURPOSE.	Interest.		Principal.

MUNICIPAL AND COUNTY BOND LAW.—A State law approved in 1893 has done much to widen the market for new Texas municipal loans. At present before any bond can be issued by a municipality or county it must receive the certificate of the Attorney General that it is a lawful obligation. It must then be registered in the office of the State Comptroller, and when the bond is so issued its validity cannot be questioned except on the grounds of fraud or forgery. The text of the law will be found in the STATE AND CITY SUPPLEMENT of April, 1895, page 178.

POPULATION OF STATE.—The population of Texas has been as follows in the years named:
 1800.....2,235,523 | 1870.....818,579 | 1850.....212,592
 1890.....1,591,749 | 1860.....604,215

In 1860-70 increase was 214,364, or 35.48 per cent; in 1870-80 773,170, or 94.45 per cent; in 1880-90 643,774, or 40.44 per cent.

Of the total population in 1890 492,837 were blacks, which compares with 393,394 in 1880, 253,475 in 1870, 182,931 in 1860 and 58,558 in 1850. It will be observed that the proportion of the colored race has greatly diminished, the ratio for 1890 being only 22.04 per cent, against 24.71 per cent in 1880 and larger percentages in previous decades.

NOTICE.

Attention is directed to our weekly and monthly reports of the earnings of street railways. An extensive list of these will be found in the Railroad Department of each issue of the COMMERCIAL & FINANCIAL CHRONICLE. This is in addition to the very full intelligence and information respecting street railways also given in that Department from week to week.

STREET RAILWAYS AND THE COMMERCIAL DEPRESSION.

"The business of your company has been adversely affected by the commercial depression which has prevailed throughout the country." This or some similar formula has served of late to introduce no small number of the annual reports of the corporations in which American investors are interested. The street railway companies to some extent have joined in its use, and it is known that as a rule they occupy in the existing depression a position that is singularly fortunate. Other companies may complain of slow collections; their sales are invariably for cash. Other companies, like the steam railroads, may lament the excessively low prices for their wares; they, with few exceptions, maintain, and properly, too, their old accustomed rate. Other companies have experienced difficulty in attracting new patronage; they have seen their income largely increased through the use of electricity.

Yet the street railway companies undoubtedly have felt the pressure of the hard times, occasionally with serious effects. But, as we shall presently see, they have been subjected to it in very different degrees, and

in some cities seem largely to have escaped it. Other things being equal, their prosperity reflects the prosperity of the special community which they serve. If the shops and factories are running full time and home institutions thrive, a panic may exist elsewhere, while the street cars in this favored locality are crowded with persons riding for business or pleasure. Consequently, in order to determine how far the crisis through which we have passed has tended to reduce street railway receipts of this or that city or town, we shall be obliged to consider the relative activity or inactivity of business in different sections of the country. The inquiry has an eminently practical side, for if a street railway property has done poorly, the fact may be entirely explained by the external conditions under which the road has been operated. If it has done well there may be still greater success in store for it when normal conditions replace the dulness of recent years.

Unfortunately no means that is thoroughly reliable exists for testing the relative prosperity of the various cities of the country. The earnings of the steam railroads would be somewhat of a guide in estimating the volume of business transacted at any given time, if only the rates at which they carried freight remained the same. The growth of savings bank deposits, if such institutions organized on a like basis existed everywhere, and if the totals of these were easily available for each city, would be a further aid, touching, as they do, more closely the material welfare of the individual community from which the street railway derives its support. For want of a better standard, however, we turn to the bank clearings, which are reported from week to week in the CHRONICLE. At the same time we must warn our readers, as we have done on previous occasions, not to draw more than tentative conclusions from them, as it is easy to misconstrue their meaning. For instance, the stoppage of the transactions in real estate, such as frequently accompanies a commercial depression, may result in a large city in the falling off in local clearings of some magnitude, and thus leave an erroneous impression with reference to general business. A reduction, too, in the number of banks in a city naturally decreases the number of checks cleared without necessarily lessening the city's commercial activity. The decline in the price of leading staples of produce or merchandise, such as has

occurred in many lines of late years, plays a well-known part also in causing a reduction in the bank clearings. In the case of New York, particularly, but in some measure in other cities, stock speculation or investment purchases of bonds affects the total of clearings, while transactions in grain or cotton, varying with more or less bountiful harvests, are in some instances another disturbing factor. For these and other reasons caution must be used in drawing conclusions from variations in a city's bank clearings, but nevertheless with proper care we shall obtain at least valuable suggestions from them.

Below we have grouped New York, Philadelphia, Boston and Baltimore in a table showing their clearings and approximate street railway earnings for the years 1890 to 1896, both inclusive [six ciphers being omitted from the clearings and three from the earnings].

Examining this table the reader will be struck by the large decrease in clearings at New York accompanied by an increase in the street railway earnings, which amount to over 28 per cent since 1890, but have not made much advance since 1893. It would, however, be a mistake to attribute both these occurrences solely to the hard times. Clearings were of course affected by the smaller sales of stocks and bonds, and also by the establishment since 1890 of the Stock Exchange clearing department, which removes the clearings for a considerable amount of the stocks sold from the medium of the banks. At the same time, no doubt, the depression has retarded the growth of street railway traffic in the city. In a study of the figures two other facts likewise must not be lost sight of, (1) that of the surface lines over 66 per cent of the track is still operated with horses, a hindrance to their development which promises soon in large measure to disappear, while on the other hand (2) the peninsular form of Manhattan Island transfers to the bridge and ferries much of the growing traffic that to a city of different shape would accrue to the street railways. Whatever makes traveling up and down the island more easy will lessen the attraction that the opposite shores have for those doing business in New York, and will bring to its street car lines a larger percentage of this outside traffic.

In Philadelphia the clearings show rather a large decrease while the street railway earnings have advanced sharply; thus in 1895 and 1896 the increase is marked, and since 1890 it is over 44 per cent. Boston's street railway lines (West End and Lynn & Boston) are now operated entirely with trolley and reach far into the suburbs, so that despite the smaller clearings their earnings record an increase since 1890 of over 55 per cent. The earnings given for Baltimore are determined from the park tax paid, which is equal to nine per cent of the gross earnings on lines within the old city limits; the earnings, it will be seen, have increased over 51 per cent, while the clearings, if they have not fallen off as much as in some other cases, indicate no increase in general business.

In the next table we group together four New England cities—New Haven, Hartford, Springfield and Worcester:

a Year end. June 30. b Year end. Sept. 30.

The above table helps to explain the remarkable earning capacity shown by the New England street railways since the introduction of electricity as motive power. Besides serving, as they do, densely populated districts of well-to-do and constitutionally restless people, they have had the good fortune also to be located in a section of the country that has suffered relatively less from the commercial depression than have most other sections. Notwithstanding, therefore, a sudden and heavy falling off in clearings in 1894, most of the places mentioned show increases in the same item compared with 1890—the increase at Hartford being very marked and at New Haven not inconsiderable. The earnings of the street railways have at all the places increased largely.

We next bring together some of the prominent cities of the Middle States:

The cities included in the above show considerable variations in their clearings from year to year, but there is scarcely one of them that can at present boast of a higher level for this item than was reached by it some years ago. The improvement in their street railway earnings, however, is remarkable—in Buffalo 140 per cent, in Pittsburg 133 per cent, in Cleveland about 68 per cent, in Columbus 77 per cent. Judging merely from the clearings Cleveland and Columbus would appear to be feeling the depression less than the others, while Pittsburg and Indianapolis, after two years of lessened transactions, seem to be nearing their former total of commercial transactions. The Chicago surface companies complain of dull times, but it looks as if this was principally because of the remembrance of the large business done in the World's Fair year and of the recent competition of the elevated roads. The clearings at Chicago compare quite favorably with earlier years, in part presumably to the increased dealings in grain the past two years.

In the following table we include several cities west of the Mississippi River, and also two or three Southern cities :

The stability of business in St. Louis, notwithstanding adverse influences in the country at large, and the extraordinary development of its street railway traffic, have been referred to by us before. The clearings here given indicate, to be sure, no expansion of trade beyond enough at the lower level of prices reigning to keep the level of transactions about even, but the number of passengers carried, as reported by the street railway companies to the City Register, has advanced at a noteworthy rate, the increase being nearly 9 per cent in 1896. The clearings at Kansas City appear favorable, but the depression has been sufficient to retard the normal growth of street railway traffic, which was already on a large scale when the depression set in. The Twin City Rapid Transit Company at Minneapolis and St. Paul has maintained its gross earnings well in the face of the temporary contraction which the two cities have undergone in both values and business. In Denver the clearings have fallen heavily, and the earnings of the Denver Tramway Company, the only company reporting earnings, have

suffered for the time being material reduction. In both Louisville and Milwaukee, where the effect of the depression seems to have been quite severe, the street railway companies have found business disappointing [the Milwaukee Company having had to undergo reorganization partly on this account]. Yet, strangely enough, it is in these two cities that of late has been heard the loudest clamor for lower fares and higher taxes on the street railway properties.

The closing table includes merely the clearings for a number of cities, whose street railway enterprises, started when everything promised auspiciously, ended in requiring reorganization, which either has been or is in process of being carried out.

The foregoing furnishes a very disappointing record. It is not surprising that corporations capitalized and equipped for a business that was expected to increase as it did from 1890 to 1892 should be unable to stand when forced to see so great a contraction as these clearings indicate. We should hasten to say, however, that though the temporary decline in business activity has been real and great, the effect of it as portrayed by the clearings is more or less exaggerated, through the reduction in consequence of failure or voluntary liquidation in the number of banks which belong to the clearing-houses in the several cities. The number of national banks at Tacoma, for instance, has decreased from six in 1890 to four in 1896, and in Lincoln from eight in 1892 to four in 1896.

In conclusion, and as bearing on the future, it is proper to remark that the conditions prevailing the last few years have obviously not been favorable to the fullest development of street railway prosperity anywhere, no place probably having held its own in commercial activity. Better times, therefore, should benefit these street railway properties.

SECURITIES AND REPORTS.

This is one of our four Supplements. In using the series it is to be remembered that they are inter-dependent publications, complete only as a whole. If utilized together, and with the fresh items of news the CHRONICLE contains from week to week, the investor will have all the information he needs in seeking a safe and remunerative lodgment for his money.

Street Railways forcibly illustrate this inter-dependence. Such roads obviously rely for their income, and therefore in great part for the value of their securities, upon the population and wealth of the country they serve. Hence constant reference to our STATE AND CITY SUPPLEMENT will be found necessary by those wishing to purchase the stocks and bonds of street roads. Population, assessed valuation, tax rate, total debts of the counties, cities and minor municipalities are given a length in that publication, every one of which items is an essential fact contributing more or less to any correct estimate of the amount of suburban travel a given road commands.

The ABBREVIATIONS used in our Street Railway statements will be found explained in a table immediately following the last statement in this Supplement.

A full INDEX which shows where each railroad will be found is also given on the closing pages.

ALLENTOWN & LEHIGH VALLEY TRACTION—A trolley road.

ORGANIZATION.—Chartered May 31, 1893. Owns and operates 45 miles of electric road in the Lehigh Valley in Lehigh and Northampton counties, connecting the city of Allentown with the boroughs of Bethlehem, South Bethlehem, Fountain Hill, West Bethlehem, the Catasauquas and Copley, and the towns of Whitehall, Scigfrids, Northampton, Ainoyville and suburban Allentown. The combined population of towns and villages served by the system in 1890 was 77,315; in 1880 was 51,074. "Franchise runs for 999 years and gives exclusive rights to operate street railways in all said towns, boroughs and city;" company also owns 9 miles private right of way connecting certain of the above-mentioned towns. The control in the property is held through ownership of the entire capital stock of the companies below, which have been absorbed, their entire capital stock (except five shares of each to qualify directors, and a portion of the Electric L. & P. stock not owned) having been placed in trust for the benefit of security holders. Their corporate existence, however, is preserved for legal reasons, valuable rights being conferred by some of their old charters, including the right of eminent domain.

STOCKS OWNED.—The capital stocks of the following companies are owned, except a portion of the Electric L. & P. stock, viz.:

CAPITAL STOCKS OWNED.

Lehigh Valley Traction Co. \$75,000	Bethlehem & South Bethlehem Street Ry. Co. \$200,000

Bonds—The first mort. of 1894 covers all property, revenue and franchises now owned or hereafter acquired. It was issued to retire a like amount of bonds of the old companies, and it has an absolutely first lien, all the prior mortgage bonds having been retired. The other bonds in the table were merely debentures until secured, equally with the new bonds, by the mortgage of 1894. They are the unexchanged remnants of the old debenture loans, and an equal amount of the new firsts are held to retire them at or before maturity. The State Street Safe Deposit & Trust Co. is trustee for the bonds of 1894 and Registrar of the stock.

ROAD—Operates line 34-89 miles in length in Brockton and suburbs, extending to Avon, Randolph, Holbrook and Whitman; second track, 6-20 miles; sidings, 1-89 miles; total track, 42-98 miles.

Dividends—The road in 1895 had paid dividends uninterrupted since 1882, and during the three years of depression—1892, 1893 and 1894—and since dividends were paid at the rate of 6 per cent.

BROOKLYN, N. Y.

POPULATION 1890 WAS 806,343; IN 1880 WAS 566,653; AND IN 1870 WAS 396,099.

BROOKLYN RAPID TRANSIT.—(See Map on page 17.)

ORGANIZATION—A New York corporation organized in January, 1896, per plan in CHRONICLE, V. 60, p. 1145, to succeed to the property of the old Long Island Traction Company (see SUPPLEMENT November, 1895), which was sold in foreclosure to the reorganization committee December 13, 1895, a syndicate headed by ex-Governor Flower having bought control. It is proposed to run the cars over the Brooklyn Bridge. See V. 64, p. 329.

ASSETS—The property purchased includes (1) the lease of the Brooklyn City RR., (2) the entire capital stocks of the Brooklyn Heights RR. (\$200,000) and Brooklyn Queens County & Suburban Ry. (\$2,000,000), and (3) a guarantee fund deposited to secure the faithful performance by the Brooklyn Heights Company of its contract with the Brooklyn City RR.

The guarantee fund, originally \$4,000,000, was drawn upon for \$250,000 by the Long Island Traction Company in July, 1894, as permitted by the trust deed, but on January 1, 1895, it contained securities estimated as worth \$3,902,775, as follows: Brooklyn City RR. consol. 5s, par value \$1,630,000, market value \$1,362,275; Brooklyn Queens County & Suburban bonds \$2,000,000, market value \$2,040,000; cash, \$500; total market value as above, \$3,902,775.

The Brooklyn City RR. Co. is held under a 999-year lease, dated Feb 14, 1893, guaranteeing all charges and 10 per cent dividends on \$12,000,000 of stock. The lease is nominally to the Brooklyn Heights RR. Co. but practically to the Brooklyn Rapid Transit Co., since that company owns the entire capital stock of the Brooklyn Heights Company and guarantees payment of dividends to lessor, as said above, by special fund in hands of trustees.

In the reorganization the old \$30,000,000 of Long Island Traction stock paid an assessment of \$10 per \$100 share, the old stock being reduced to \$20,000,000, and \$7,000,000 of 5 per cent bonds being authorized, against \$3,000,000 of Long Island Traction.

				Interest at Central Trust Co., N. Y., trustee.

The capital stock is to be held in a voting trust for five years, the trustees being R. P. Flower, F. P. Olcott and A. N. Brady.

Bonds—Of the \$7,000,000 fifty-year 5 per cent gold bonds, \$1,875,000 took up collateral trust notes, \$3,000,000 went to stockholders for the assessment, and there are left in the treasury \$2,125,000 for future requirements of the road. For description of property covered by the mortgage see V. 62, p. 1138.

BONDS—The mortgage of 1891 is for \$6,000,000 and is a first lien on the old Brooklyn City road and a consol. lien on the lines acquired by consolidation in 1890. Of the \$6,000,000 issued, \$4,373,000 are in the hands of the public and the balance are held in the guaranty fund. The balance sheet of the lessee company, the Brooklyn Heights RR., on June 30, 1896, showed \$2,821,704 spent on the Brooklyn City RR. for betterments and construction. Under the lease this amount, on appraisal, is payable to the lessee if, for any reason, the lease is terminated. New Williamsburg & Flatbush first 7s, due Feb. 1, 1897, for \$200,000 were extended to 1941 at 4 1/2 per cent.—V. 64, p. 233.

ANNUAL REPORT—The last annual statement was in V. 59, p. 423. The earnings are included in the report of the Brooklyn Heights RR. Co. above. They are not reported separately.

OFFICERS—President, Edward Merritt; Vice-President, Edward D. White; Secretary and Treasurer, Thomas P. Swin.—V. 64, p. 41, 233.

BROOKLYN RAPID TRANSIT—BROOKLYN QUEENS COUNTY & SUBURBAN RAILROAD.—(See Map on page 17.)—A trolley road.

ORGANIZATION—A consolidation in January, 1894—see V. 53, p. 126. The Brooklyn Rapid Transit owns practically the entire capital stock, but the road is operated separately. In 1894 the trolley was introduced.

Of the \$3,500,000 first mortgage bonds of 1894 \$350,000 were used July, 1895, to retire Broadway Co. bonds and remainder to "trolley" the system. The Jamaica & Brooklyn bonds have certain property which will provide for them at maturity. Consolidated mortgage bonds (of which \$1,750,000 are reserved for extensions) are a first lien on all extensions of the system and a second lien on the line now in operation. Loans and bills payable Dec. 31, 1896, were \$435,940; profit and loss, deficiency, \$334,005. The company had \$250,000 of its consols in the treasury; these being included in the \$2,750,000 outstanding, of which \$1,875,000 are owned by Brooklyn Rap'd Transit Co.

BONDS—When net earnings suffice a sinking fund will purchase Brooklyn Elevated 2d 5s if obtainable at 90 and first 6s at 105—no bonds drawn. Union Elevated mortgage trustee is Central Trust Co. Abstracts in V. 49, p. 583. See also V. 48, p. 129; V. 49, p. 471.

The Seaside Company's mortgage is for \$4,000,000, of which \$3,000,000 for the construction and equipment of the roads north of Sixty-fifth Street and \$1,000,000 for those south of it; the amount outstand-

ing in December, 1895, was \$1,365,000. There are additional bonds out as collateral for loans.—V. 60, p. 479.

ROAD—Owens from Fulton Ferry to East New York, 5-73 miles; Broadway and Lexington Avenue to Broadway Ferry, 2-78 miles, and Myrtle Avenue to Adams Street and Brooklyn Bridge, 4-82 miles; branch to Greenwood, 3-58 miles; Seaside & B. E. RR. to Cypress Hills, 1-4 miles, and to 65th Street, 1-8 miles; total, 20-11 miles; second track, 20-11 miles; total track, 40-22 miles. Cars are run (since May 17, 1896), from Brooklyn Bridge, via Union Station at 36th Street and 5th Avenue, over the old Prospect Park & Coney Island to Coney Island.

EQUIPMENT—Locomotives owned, 70; leased, 19; passenger cars owned, 226; leased, 60.

GENERAL FINANCES.—State taxes have been paid, but municipal taxes for 1895 and 1896 are in dispute in the courts—see V. 64, p. 80. Loans (bills payable) Dec. 31, 1896 (secured by \$1,210,000 Seaside & B. E. firsts) were \$605,000, having been increased \$195,000 during the year; there was due "operating fund" \$166,172.

ANNUAL REPORT—Report for year ending Dec. 31, 1896, was given in V. 64, p. 80. "Fixed charges" include all State and municipal taxes; but the municipal taxes on the structure have not been paid. Excluding local taxes on structure the deficiency for 1896 would be \$75,235. Increase in gross and net in 1895 was due to strike on trolley roads.

KINGS COUNTY ELECTRIC RR.—
A trolley road.

ORGANIZATION—Incorporated November 29, 1892, with capital stock of \$500,000 to construct 16 miles of track. Said to be controlled by the Nassau Electric, for which road it would be an extension to Jamaica and Hempstead.

KINGS COUNTY ELEVATED—
A steam road.

ORGANIZATION—Chartered Jan. 6, 1879, and road opened in April, 1888. Securities readjusted in 1895. The Fulton Elevated has been absorbed. In February, 1896, agreement was made to lease the elevated extension of Brooklyn & Brighton Beach RR., about ¼ mile, and about 3 miles of trackage additional, for rapid transit purposes. Through trains are run to Brighton Beach; see V. 63, p. 754. It is proposed to run the cars over the Brooklyn Bridge—see V. 64, p. 329. Connection is to be made with the Long Island Electric for the running of through cars to Far Rockaway. V. 64, p. 330.

RECEIVERSHIP—Aug. 31, 1896, James Jourdan was made receiver, the company being unable to meet its obligations, including the interest due Sept. 1 on the Fulton Elevated bonds.—See V. 63, p. 402.

Floating Debt—The company's floating indebtedness August, 1896, was stated as follows: Bills payable secured, \$211,700; on time, \$7,500; open supply accounts, \$50,000; wages, \$7,500; interest due on Sept. 1 on Fulton Elevated bonds, \$63,575. The available cash resources are \$5,000. Accrued taxes to Mar. 31, 1896, of \$138,369.

Stock—in 1895 K. C. stock was increased from \$3,250,000 to \$4,750,000, in exchange for like amount of Fulton stock.

DEFAULT—COMMITTEE—Interest due Sept. 1, 1896, on Fulton EL 1st and Jan. 1, 1897, on K. C. first mortgage 5s and 6s was not paid. Committee: For K. C. EL and Fulton EL firsts—August Belmont, Wm. A. Read and Walter G. Oakman.

Bonds—in 1895 the second mortgage debt was mostly readjusted per plan of June, 1894, in V. 58, p. 1034. By this plan second mortgage collateral trust cumulative income bonds were issued, \$1,000,000 series "A" being authorized for floating debt and future needs and \$448,950 series "B" for old funded coupon scrip of 1890. These collateral trust bonds are secured by deposit in trust of the old second mortgage 5 per cent bonds (the total issue of which was \$3,377,000, most of which were turned in) and have a second lien on the Fulton Elevated (now merged) as well as the rest of the property.

Unearned second mortgage interest funded to June 30, 1896, amounted to \$899,557.

Loans and hills payable June 30, 1896, \$223,700, against \$185,819 in 1895.

Of the Kings County 1st M. \$200,000 are 6s; trustee is Mercantile Trust Co. of N. Y. (See abstract of first mortgage in V. 49, p. 237.) Trustee of Fulton Elevated 1st mortgage is Central Trust Co., N. Y.

ROAD—Kings County owns double-track road through Fulton Street (former city line); Fulton Elevated thence to new city line.

Tracks were as follows on June 30, 1896, 21,723 miles in all:

Tracks—	1st.	sd.	3d.	Sidings, etc.	Total.

KINGS COUNTY TRACTION CO.—

ORGANIZATION—Incorporated in March, 1896, and purchased the assets of the Brooklyn Traction Co., owning all the capital stock of the Atlantic Avenue RR. The Atlantic Ave. and Brooklyn Bath & West End lines (old Brooklyn Traction System) were leased in 1896 for 99 years to the Nassau Electric RR.; therefore the Kings County Traction does not operate any road, but merely receives the rental due from the Nassau Electric and distributes it to the Traction Co. stockholders. The annual rental is as follows: \$150,000 for first two years from February, 1896, and \$180,000 thereafter.

STOCK—The Kings County Traction capital stock is \$4,500,000; par \$100. DIVIDENDS—In 1897, on Jan. 25, 1 per cent, payable at Central Trust Co., New York.—(V. 62, p. 636, 820; V. 64, p. 83.)

LONG ISLAND ELECTRIC RAILWAY—

A trolley road.

ORGANIZATION—Chartered March 5, 1894. Road is to run from Crescent Ave., at the terminals of the Kings Co. Elevated to Jamaica, Hempstead, Far Rockaway, etc. Road opened to Jamaica in July, 1896, power being furnished by Brooklyn City road. It is expected to have the road completed to Far Rockaway in 1897. Through cars are to run to the Brooklyn Bridge over the Kings County Elevated RR.

NASSAU ELECTRIC RAILROAD—A trolley road.

ORGANIZATION—Chartered March 13, 1893, under the laws of New York. Opened in July, 1895.

In April, 1896, the Atlantic Avenue Railroad lines, including Brooklyn Bath & West End, were leased to Nassau Electric. The lease is for 99 years at an annual rental of \$150,000 for the first two years and \$180,000 thereafter; the lessee to pay all charges and to spend \$500,000 on the property in improvements. The Nassau Electric company also has an option to purchase the stock of the Atlantic Avenue Railroad. The Kings County Traction Company was formed to succeed the Brooklyn Traction and to receive the Atlantic Avenue rental. See V. 62, p. 413. It is proposed to run the cars over the Brooklyn Bridge—see V. 64, p. 329.

Harvey, Blue Island, etc. Road is in course of construction. In Feb., 1897, 2 1/2 miles of track were completed—from 63d St. to Blue Island.—V. 61, p. 470, 1013; V. 64, p. 180, 330.

EVANSTON ELECTRIC RAILWAY

ORGANIZATION—Organized in 1896. Operated in connection with North Chicago Railroad. Road runs from Emerson and Sherman avenues to Wilmette, 2 3/4 miles (double track). Stock, \$1,000,000. Incorporators, Andrew Crawford, T. C. Masted, P. E. Simmons. In September, 1896, filed a mortgage for \$1,000,000 for 6 per cent currency bonds maturing in 1916; issued \$300,000. In January, 1897, Evanston people were asked to raise \$35,000 to complete the road, receiving therefor Evanston Electric bonds, to be guaranteed by the North Chicago Street Railroad.—V. 63, p. 504.

GENERAL ELECTRIC RAILWAY.

ORGANIZATION—Incorporated in February, 1895, with authorized capital stock of \$5,000,000. Incorporators, Daniel M. Simmons, William A. Youmans and George Pfeiffer. In January, 1896, the City Council passed an ordinance over the Mayor's veto granting this company a twenty-year franchise for a system of lines south on Dearborn St., etc.

The road will extend from the Post Office southward for 10 1/2 miles. Under its franchise the company must pay to the city of Chicago from its receipts 1 per cent for the first five years, 2 per cent for the second five years, 2 1/2 per cent for the succeeding three years and 3 per cent for the remaining seven years. V. 62, p. 589. *Love Electric Traction*—The road of the General Electric Railway will be built by the Love Electric Traction Co., whose stock is \$10,000,000; issued, \$6,000,000. No bonds.—V. 62, p. 589; V. 62, p. 988.

LAKE STREET ELEVATED RAILROAD.

ORGANIZATION—Chartered August 24, 1892. Debt had been mostly readjusted under plan of February, 1895 (in V. 60, p. 391), by which the Northwestern Elevated R.R. Co. guarantees new debenture bonds. Operation by electricity was resumed Sept. 20, 1896.

Due on coupons unpaid (owned in interest of Columbia Construction Co.) \$67,575 on Dec. 31, 1896, having been reduced by \$65,000 during the year.

Trustees of 1st mortgage (see V. 64, p. 373), Equitable Trust of Chicago and American Trust & Savings Bank, Chicago—see V. 62, p. 1087.

Note.—The total issue of first mortgage bonds was \$7,574,000, of which January 1, 1896, \$1,000,000 had not assented to readjustment plan of 1895. Of these last \$101,000 were in the treasury Jan. 1, 1896, while \$610,000 held by Mr. Ziegler were in May, 1896, still in litigation and receiving no interest, and \$279,000 additional are allowed to receive interest at 3 per cent per annum, or 60 per cent of face of coupons. See V. 62, p. 233, 809, 903, 949. Holders of first mortgage bonds for \$6,574,000 assented to plan and received in exchange for their principal 60 per cent in guaranteed debenture (total issued \$3,944,400, of which \$181,200 in treasury), and 15 per cent in incomes (total issue \$986,120, of which \$45,320 in treasury).

Stock—In May, 1896, trust certificates representing Lake Street stock for \$3,009,300 was offered to stockholders of Columbia Construction Co. at \$18.90 a share; the stock itself will be held in a ten-year voting trust.—V. 62, p. 909. In October, 1896, it was reported that the Union Elevated R.R. would control 35 per cent of these trust certificates, thus preventing a termination of the trust, as the consent of 80 per cent of the certificates is required.

Bonds—The gold debentures are secured by deposit of the old bonds with the Northern Tr. Co.; their p. and l. are guaranteed by the Northwestern Elevated R.R. Co. The trust deed securing the mortgage bonds was to be modified so that no further bonds shall be issued for construction, except at par, and only for actual cost of the construction.

ROAD—Owns in Chicago a double-track elevated railway, Market Street from Madison Street to Lake Street, thence to the Western city limits, being 6 2-5 miles, equal to 14 1/4 miles of single track. Trains are expected to be running over the Loop line in March.

METROPOLITAN WEST SIDE ELEVATED RAILROAD.

An electric road.

ORGANIZATION—Organized to build an elevated railway in Chicago running from the Board of Trade Building westerly about 6 miles, with branches; the total length, 16 1/2 miles; the first 1.81 miles are four tracks, the rest two tracks, making total double track miles 17.96. The road is operated by electricity. See V. 58, p. 866. Right of way is

owned in fee and mortgaged to secure the bonds. West Side Construction Co. turned road over to the railroad company in fall of 1896. In January, 1897, the last \$5,000,000 of Metropolitan bonds owned by the Construction Co. were offered to its stockholders, making \$15,000,000 outstanding—see V. 64, p. 135. There are 55 motor cars and 123 passenger cars.

RECEIVERSHIP—On Jan. 20, 1896, Dickinson McAllister was appointed Receiver.—V. 64, p. 181. In February, 1897, the receiver reported the net current liabilities as \$629,272, including two demand notes due West Side Construction Co. for \$620,282.

BONDHOLDERS' COMMITTEE—F. P. Olcott, Chairman; W. G. Oakman and Samuel Thorne; depository, Central Trust Co., N. Y.—V. 64, p. 287. It is said the reorganization will be on the basis of \$7,500,000 of bonds and a like amount of preferred stock.

Stock of N. Chi. City Ry. Co. not owned by N. Chi. St. R.R. Co., \$249,900 (par, \$100), receives an annual rental of \$30 per share. North Chicago City stock for \$250,100 is owned by North Chicago Street R.R.

Bonds—The N. C. St. R.R. mortgage provides for the issuing (by and with the consent of the trustee) of bonds for permanent improvements, in amount equal to 75 per cent of such improvements. To November, 1896, there had been issued: Dated July, 1886, due 1906, \$1,500,000; July, 1889, due 1909, \$1,250,000; Jan., 1896, due 1916, \$421,000.

In November, 1896, the SUPPLEMENT was officially informed that the outstanding indebtedness of the company was as shown in the table above, namely: Mortgage bonds [including N. C. City Ry.] \$4,763,000; certificates of indebtedness, \$1,091,000. On the same date the treasury held the following additional bonds [partly it is supposed pledged for loans] North Chicago 4½s, \$650,000 (since sold); North Chicago Street R.R. 5s as above \$758,000; certificates of indebtedness of 1895, \$669,000. All payable in law ful money U. S. A.

Has guaranteed \$226,000 North Chicago Electric Ry. and \$150,000 Chicago Electric Transit bonds—see both under West Chicago "System." In January, 1896, guaranteed North Side Electric bonds (see guarantee V. 62, p. 414) and issued \$550,000 certificates in part payment of extra dividends.—V. 62, p. 41. In September, 1896, it was understood the North Chicago would guarantee \$1,000,000 bonds of the Evanston Electric.—V. 63, p. 504.

Stock—North Chicago Street stock for \$1,100,000 was issued in January, 1896, of which \$550,000 for part payment of extra dividend and \$550,000 was offered to stockholders at par.—See V. 62, p. 41.

Electric gives a line to the various Indiana race tracks and makes a direct route of 14 miles from 63d St. and Madison Ave., Chicago, to Hammond, Ind.

OFFICERS—President, D. F. Cameron; Vice-President, V. Shaw Kennedy; Secretary, Treasurer, O. S. Gaither.—V. 63, p. 795, 970.

SOUTH SIDE ELEVATED RR.—("ALLEY ELEVATED")—A steam road.

ORGANIZATION—Formed January, 1897, to succeed the Chicago & South Side R. T. R.R., which was sold in foreclosure Sept. 16, 1896.

ROAD—Owns elevated road in operation in Chicago upon a purchased right of way from Congress Street to Jackson Park, 8.56 miles of double and triple track; total track said to be 18.62 miles. Electricity is to be introduced as motive power, and it is estimated the cost of the change will be about \$1,000,000.

STOCK, ETC.—Capital stock is \$10,323,800. It is proposed to have no funded debt. See V. 64, p. 180.

OLD SECURITIES—PLAN—Under the plan proposed by the First Mortgage Bondholders' Committee (Byron L. Smith, Lyman J. Gage, George Schneider, Chauncey J. Blair, A. O. Slaughter, William Flomling, Leslie Carter; depository, Northern Trust Co., Chicago), the \$7,500,000 old first mortgage 5s were to receive 100 per cent in new stock; extension 5s for \$3,000,000 to receive 60 per cent in stock; over due interest on each issue to receive same per cents as principal. The old common stockholders did not accept the terms offered (per plan in V. 63, p. 1158).

It is understood, however, that a movement is on foot to consolidate the elevated roads of Chicago under one management and new arrangements may be made regarding the above securities.

ANNUAL REPORT—The annual report of old Chicago & South Side Rapid Transit for 1896 was in V. 64, p. 177, showing earnings as follows. No interest was paid in 1895 or 1896.

SUBURBAN ELECTRIC RAILWAY—

ORGANIZATION—Will connect with Lake Street and Metropolitan West Side elevated roads and proposes to build to La Grange and possibly to Aurora. The Suburban leases (for 99 years) the Chicago Harlem & Batavia and Chicago & Southwestern roads (constituting the Chicago & Northern Pacific suburban lines) running to Harlem race track, Austin, Ridgeland and Oak Park; these lines are to be operated by electricity. They include 13 miles of track, of which 9 miles double and 4 miles single. It is proposed to equip all the lines. Connection with the Metropolitan is expected to be completed in April.

ROAD.—The entire system will have 25 miles of double-track road.

CINCINNATI NEWPORT & COVINGTON RAILWAY—A trolley road.

ORGANIZATION—Organized in 1892 to buy up and consolidate all the roads on the Kentucky side of the river, opposite Cincinnati. There were several. After the purchase was made it was found that if any of these companies were changed they would lose their perpetual charters, which they each enjoy at the present time, so the C. N. & C. Co. operates these separately, and the stock of each company is deposited with the Farmers' Loan & Trust Co. of New York as collateral for the bonds of the C. N. & C. road. The roads now controlled are: Newport & Cincinnati Street RR. Co., Cincinnati & Newport Street RR. Co., South Covington & Cincinnati St. Ry., Newport Electric St. Ry., Cincinnati Covington & Rosedale St. Ry., Covington & Latonia RR.

In December, 1896, control was obtained by a syndicate and the directors given below were elected. The syndicate purchased \$500,000 of second mortgage bonds.—V. 64, p. 41.

(IN 1896 ESTIMATED AT 155,000.)

METROPOLITAN STREET RAILWAY—Cable horse and trolley. See map on page 43.

ORGANIZATION—Incorporated July 19, 1886. In May, 1894, the company secured control, by purchase of all the capital stock, of the Kansas City El. (20-58 miles) and assumed the debt of that company in like manner it controls Kansas City & Rosedale St. Ry. and South Suburban St. Ry. In June, 1895, the charters of all the constituent companies were extended to 1925.—V. 60, p. 1105.

In May, 1895, the company absorbed the Kansas City Cable Ry., Grand Ave. Ry., West Side Ry. and Kansas City & Independence Railway with an aggregate trackage of 67.7 miles. The lines which it has acquired "occupy most of the territory east of the Union Depot, the Metropolitan Company occupying all of the important territory west of the Depot and some of the principal streets on the east side." The consolidation brings under one management all of the principal street railways of the city.

New securities.—To carry out the consolidation the stockholders of the Metropolitan Street Railway voted May 20, 1895, to increase the capital stock from \$3,600,000 to \$8,500,000, and to authorize a consolidated mortgage for \$8,500,000 on the combined properties. The actual issue of stock outstanding with the consolidation of 1895 completed is \$5,586,800, or just double the old amount.
